-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (9 months) is currently in DCS custody along with his birth mother [redacted] (15) in [redacted] County. [redacted] (age unknown) is [redacted] birth father. [redacted] (age unknown) was the foster mother for the children.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
Neither.

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
[redacted] and [redacted] are both currently in DCS custody. [redacted] is currently located at [redacted] Hospital at [redacted] TN [redacted]

[redacted] was initially admitted to the hospital on 12-27-21 and according to [redacted] brought [redacted] into their room and stated he wasn't breathing, and his eyes had rolled back into his head. At that time [redacted] started CPR and called 911. EMS arrived and according to [redacted] they took him to [redacted] They decided to admit [redacted] It was reported tests were ran (unknown what type) but they couldn't find anything wrong with [redacted] was alert and awake after the tests were ran. There were no injuries apparent on [redacted] this day.

On 12-28-21 [redacted] reported that [redacted] was discharged, and they went home. On 12-30 [redacted] was admitted again. [redacted] stated that the same thing happened again where [redacted] stopped breathing and his eyes rolled back. This time when EMS arrived [redacted] started having seizures. Once [redacted] got to the ER [redacted] had another seizure. More tests were ran (unknown what type). On 12-31-21 they were getting ready to discharge [redacted] said no and asked if they could watch him for one more night and they agreed. On 01-01-21 [redacted] and [redacted] were on their way back to the hospital and the hospital called saying [redacted] was doing well and he was given seizure medication (unknown what kind) and it would be sent to Walgreens. [redacted] stated she was going to drop [redacted] off and asked staff to show her how to do the medication. About 30-40 minutes later [redacted] called [redacted] and stated [redacted] stopped breathing again. According to the doctor they worked on [redacted] for 30 minutes until they found a faint pulse. At that time [redacted] was taken to the PICU. At that time [redacted] was placed on a ventilator. As of today, 01-02-21 [redacted] was pronounced dead. It is unknown what the time of death was. [redacted] will be going to the medical examiner to determine cause of death. It is unknown if law enforcement has been notified.

Yesterday [redacted] was a little emotional. Last night, [redacted] just had a blank stare on her face. [redacted] wasn't seen emotional anymore. [redacted] was just on her phone talking to [redacted] was going up to [redacted]

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

and being loving towards [redacted] and supportive but [redacted] never did this. [redacted] doesn't have any other children.

Hospital staff is suspecting abuse or neglect at this time. Staff stated [redacted] was either shaken or thrown. Staff didn't mention any injuries. [redacted] doesn't know that the hospital is suspecting abuse at this time. There are currently sitters with [redacted] at the hospital. Last night [redacted] decided she no longer wanted [redacted] in her home. Currently [redacted] doesn't have anywhere to go. The FSW supervisor is going to be notified and next steps will follow.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?
None

-Anything additional to add to this initial report for the responding worker to know prior to response?
The hospital is also going to be making a report. The doctor assisting with [redacted] is Dr. [redacted] phone number: [redacted]

The Department of Children's Services (DCS) Special Investigations Unit (SIU) received a report of abuse on January 2, 2022, with an allegation of Abuse Death, regarding alleged child victim (ACV) [redacted] DOB: [redacted]. The Alleged Perpetrator (AP) in this investigation was listed as Unknown. [redacted] was placed in DCS custody on May 24, 2021 under a voluntary placement agreement, by [redacted] County Juvenile court. [redacted] was placed in the DCS foster home of [redacted] on December 17, 2021, with his birth mother [redacted] was also in DCS custody.

On December 27, 2021, [redacted] was admitted to [redacted] Childrens Hospital after going unresponsive at home. Multiple tests were completed, and no medical issues could be found. [redacted] was released back home to his mother, [redacted] and foster mother, Ms. [redacted] On December 28, 2021, [redacted] was admitted a second time after [redacted] reported that he stopped breathing a second time. When Emergency Medical Services (EMS) arrived [redacted] was having seizures. The hospital placed [redacted] on seizure medication and was preparing him for discharge. Just prior to discharged [redacted] coded and then was transported to the pediatric intensive care unit (PICU). [redacted] was pronounced deceased on January 2, 2022 at 1459 by Dr. [redacted]

Investigators involved in the case were: Sgt. [redacted] Police Department, SIU Case Manager (CM) [redacted] SIU Team Leaders (TL) [redacted] and [redacted] and SIU Team Coordinator (TC) [redacted] and CPS Director (CPSD) [redacted]

Interviews were conducted with the following individuals during the course of the investigation:
[redacted] Family Service Worker (FSW)
[redacted] Social Worker at [redacted] Hospital
Dr. [redacted] Hospital
[redacted] mother
[redacted] FSW Team Leader
[redacted] foster parent
[redacted] cousin of foster parent
[redacted] son of foster parent

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

[redacted] custodial child
[redacted] former foster parent
Dr. [redacted] Childrens Hospital
[redacted] Director of [redacted]
Dr. [redacted] CARES Team
[redacted] sitter from [redacted] sitter service
[redacted] DCS Safety Nurse

On December 27, 2021, [redacted] fed [redacted] in the afternoon. [redacted] was sitting up and playing about an hour after she fed him. [redacted] was sitting on the bed with him, between him and the floor. [redacted] suddenly fell over sideways. He was scratching at his face. [redacted] acted like he was gasping for air. [redacted] stopped gasping and he stopped breathing. [redacted] took [redacted] to Ms. [redacted] room. Ms. [redacted] started cardiopulmonary resuscitation (CPR) and called 911. [redacted] was taken to [redacted] Childrens Hospital where he was admitted. The hospital ran tests on [redacted] and could not find anything wrong with him. On December 28, 2021 [redacted] was discharged from the hospital with no medications.

On December 30, 2021, [redacted] was admitted to [redacted] Childrens Hospital again after [redacted] reported that [redacted] stopped breathing and his eyes rolled back again. Ms. [redacted] was not at the home during this incident. When EMS arrived, [redacted] started having seizures. [redacted] had another seizure in the emergency room.
On January 1, 2022, [redacted] was doing well and was given seizure medication upon discharge. Ms. [redacted] dropped [redacted] off at the hospital around 1:00 pm so hospital staff could show her how to administer [redacted] medication. A sitter was supposed to be in the room with [redacted] but there was not a sitter to relieve the previous shift. [redacted] was in the room alone with [redacted] [redacted] called a nurse into the room and asked about the sitter. The nurse said the sitter left at about 8:30 am. [redacted] was asleep in his bed. He was not hooked up to any monitors. [redacted] checked on [redacted] several times. [redacted] checked him again and he was not breathing. [redacted] used the call button to call a nurse and reported that she thought her baby was not breathing. No one came to the room. [redacted] looked out in the hall, but she did not see anyone. She then saw someone coming from another room. She called to him, and he ran to the room. Medical staff worked on [redacted] for approximately 30 minutes until they found a faint pulse. At that time [redacted] was taken to the pediatric intensive care unit (PICU) and placed on a ventilator. [redacted] was pronounced deceased on January 2, 2022, at 1459 by Dr. [redacted]

An ophthalmologist exam completed on January 2, 2022, revealed bilateral retinal hemorrhages, chronic and acute. Dr. [redacted] Board Certified Child Abuse Pediatrician, reported that this was concerning for Abusive Head Trauma. Due to the severity of the retinal hemorrhages, they could not have been caused by CPR.

Interviews were completed with all household members. No disclosures of abuse were made. Law enforcement was not actively involved in the investigation.

An autopsy was completed on [redacted] [redacted] on January 3, 2022, at the [redacted] Tennessee Regional Forensic Center by [redacted] [redacted] MD, in [redacted] TN. The cause of death is listed as Could not be determined. The manner of death is listed as could not be determined. The autopsy noted pathological diagnoses of retinal hemorrhages, acute and bilateral, acute hypoxic-ischemic changes, slight brain swelling, and slight cranial intradural hemorrhage.

On August 16, 2024, the case was presented to [redacted] County Child Protective Investigative Team (CPIT). Parties present were [redacted] [redacted] (Childrens Advocacy Center), District Attorney [redacted] [redacted] and [redacted] [redacted] (DCS). The team unanimously agreed to classify the allegations as substantiated, perpetrator substantiated.

DCS policy Work Aid 1 (G) defines the following criteria for Abuse Death:
1. Any child death caused by abuse or neglect.
2. Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
3. Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons

Contact with CPIT/CAC:

SIU Investigator [redacted] attempted to email the autopsy report to [redacted] CAC Director. The emails were rejected by the CAC server. SIU [redacted] hand-delivered the report to Ms. [redacted] on 07/16/24.

Ms. [redacted] notified Lt. [redacted] Police Department, that SIU [redacted] was inquiring whether law enforcement was going to open an investigation.

Lt. [redacted] advised that the [redacted] PD Report Number was [redacted] 01/02/22 Case. He included information for Lt. [redacted] of the [redacted] Homicide Unit.

SIU [redacted] spoke with Lt. [redacted] who advised that Sgt. [redacted] reviews autopsies. Lt. [redacted] sent an email to Sgt. [redacted] asking him to contact SIU [redacted]

SIU [redacted] spoke with Sgt. [redacted] He advised that he would locate and review the autopsy report.

SIU [redacted] contacted Lt. [redacted] by telephone again on 7/26/24 to follow up on whether Law Enforcement was going to open an investigation. Lt. [redacted] referred SIU [redacted] to Sgt. [redacted]

SIU [redacted] attempted to call Sgt. [redacted] on 7/26/24 and left a voice mail message requesting a return call. SIU [redacted] sent an email to Sgt. [redacted] on 7/26/24, asking whether he had reviewed the autopsy report and whether [redacted] PD was going to open an investigation. SIU [redacted] did not get a response from Sgt. [redacted]

[redacted] Health Care forwarded time sheets for [redacted] to CPS [redacted] for her times sitting with [redacted] - 12/29/21 - 12/31/21 and [redacted] - 1/1/22 - 1/3/22.

These were not the same times sheets that [redacted] had sent to CPS [redacted] via screen shots. The time sheets provided by [redacted] had different times worked that the time sheets provided by [redacted] They had signatures on the right-hand column.

The time sheets provided by [redacted] (for [redacted] did not have any signatures. Several days that were on the sheets provided by Ms. [redacted] were not included on the sheets provided by Ms. [redacted]

[redacted] sheets:

12/29 5:00 pm 8:00 am
12/30 4:30 am 9:07 am
12/31 8:10 pm 8:00 am

[redacted]

1/1/22 8 am 8 pm
1/1/22 8 pm 8 am
1/2/22 8 am 8 pm
1/2/22 8 pm 8 am
1/3/22 8 am 8 pm
1/3/22 8 pm 11:30 am
1/4/22 8 am 7 pm
1/5/22 8 am 6 pm

These time sheets indicate that Ms. [redacted] worked from 8:10 pm on 12/31/20 through 11:30 am on 01/03/22 with no

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]

breaks.

Time sheets provided to SIU by [redacted] for [redacted]
12/29/21 10 A 8 P
12/30/21 8 A 10 P
12/31/21 9 P 8 A
Note written on bottom, Nurse told me [redacted] was being discharged. I called [redacted] Supervisor. She told me to stay till point of discharge. Nurse said just go You are no longer needed.
[redacted]
1/1/22 8 A 8 P
1/2/22 8 A 8 P
1/2/22 8 A 8 P

CPS [redacted] communicated with [redacted] via email regarding these time sheets. PCS [redacted] asked for Ms. [redacted] to scan the original time sheets and send to her. Ms. [redacted] advised that what she sent was all she had.

CPS [redacted] asked if it was permissible for sitters to sleep on the job, since Ms. [redacted] had worked around the clock. Ms. [redacted] responded that they were not supposed to, but that [redacted] had told sitters they could sleep while the child patient was asleep. (These children were at [redacted] not [redacted]

The time sheets have been uploaded into TFACTS.

[redacted] sitter from [redacted] sitter service
CPS [redacted] spoke with [redacted] by telephone on 01/20/22. Ms. [redacted] said she sat with [redacted] from 8:00 pm to 8:00 am on 01/01/22. A nurse told her that [redacted] was being discharged. The nurse told her to go ahead and go. She said the nurse signed her time sheet, but the signature was illegible. Ms. [redacted] left [redacted] room and went to the 12th floor where she was scheduled to sit with another child from 8:00 am to 8:00 pm that same day. Her supervisor, [redacted] called and told Ms. [redacted] that [redacted] was alone with his mother. Ms. [redacted] asked if she should return to [redacted] room. She thought the 12-year-old child she was with, [redacted] was fine. Ms. [redacted] told Ms. [redacted] to stay with [redacted] She said she had another sitter coming to sit with [redacted]

Ms. [redacted] said she had worked back to back shifts for 4-5 days straight because the agency did not have enough sitters. Ms. [redacted] said she and other sitters of color went unpaid while white sitters were paid. Ms. [redacted] no longer works for [redacted]

Ms. [redacted] provided screen shots of the following:

Time sheet showing that she worked 8:10 pm 12/31/21 until 8:00 am. There is no child name on this sheet. Ms. [redacted] advised that this was her time sheet for sitting with [redacted] There are illegible signatures. Ms. [redacted] said the signatures were hers and the nurse.

Time sheet with the child [redacted] name at the top showing that Ms. [redacted] worked as his sitter
1/1/22 8:00 am to 8:00 pm
1/1/22 8:00 pm to 8:00 am
1/2/22 8:00 am to 8:00 pm
1/2/22 8:00 pm to 8:00 am
1/3/22 8:00 am to 8:oo pm
1/3/22 8:00 pm to 11:30 am

SI CM staffed this case with TL on this day. CM is trying to get release of information form from the FSW in order to obtain medical records. CM contacted the sitter service and spoke with the supervisor who stated that the sitter was told by the hospital nurse told him that the baby was being discharged and his services were no longer needed however the supervisor told him not to leave despite what the nurse told him. However, the sitter did leave. CM attempted to contact the sitter. CM stated she spoke with the child abuse doctor, Dr. [redacted] at [redacted] who stated she did not examined the ACV but review the records. CM stated the ACV had a severe bilateral renal hemorrhage that was not caused by CPR nor shaking baby syndrome. The hemorrhage is concerning. CM will interview the sitter, find out who the nurse he spoke with and interview the nurse. CM will also obtain a copy of the ROI and obtain medical records.

[redacted] CARES Team Final Report January 02, 2022
Performed by [redacted] MD on January 02, 2022
Chief Complaint: Possible seizure

Reason for Consultation: Concern for NAT chart review only

Consult Requested by: [redacted] MD

History of present Illness:
Patient is a 9 month old who presented initially on 12/27 for concerns for an episode of going limp and a cyanotic episode. The patient had been seen previously for concerns of a neurological problem at 2 months of age and has been seen by ophthalmology and neurology a diagnosis of delayed visual maturation and monocular exotropia on the right. During the hospitalization on 12/27, the patient had a CT scan of the head which was negative for ICH. The patient also had a negative CT scan on 6/2/21. Patient was evaluated by Neurology and Cardiology with unremarkable findings. Patient returned to baseline without intervention and was discharged on 12/28/21.
The patient returned to [redacted] ED on 12/230/21 with concerns for seizure activity, with a seizure witnessed in the ED. The patient was loaded with Keppra, but no further imaging was obtained. The patient was admitted and no further episodes were observed. The patient returned to baseline and was a planned discharge on 1/1/22, however, around 1:30 pm the patient suffered a cardiac arrets. The patient was resuscitated, however, initial blood gas with pH 6.57, CO2 60, bicarb 6, BE < -30, lactate 18.3 and he was transferred to PICU. The patient did not regain consciousness and was made a DNR. According to the event note documented by Dr. [redacted] After discharge was initiated, patient had sudden cardiopulmonary arrest. RN reports that bout 10 minutes prior to the code [redacted] had finished a bottle. He had no difficulty with the bottle and no vomiting afterwards. Mother arrived to the room shortly after and a few minutes later called the desk to report difficulty breathing. RN was paged at 1326. At about 1328, Mom stepped into the hall to call for help. RNs report that when they entered the room patient was not breathing. They pushed the code button at 1330 and began compressions and bagging.
Due to the unclear circumstances surrounding the patients sudden cardiac arrest, Ophthalmology was consulted and

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

found bilateral multilayered retinal hemorrhages.
The patient was too unstable to undergo neuroimaging or an osseous survey. He expired at approximately 3:30 pm.
Birth History: Full term, C-section secondary to FTP and fetal distress. He weighed 10 pounds, 3 ounces at birth. He was discharged home 4 days of life.

Review of Symptoms:
No fever, one episode of emesis on 12/28/21

Physical Exam:
Vitals & Measurements T: 37.1 degree C; TMIN: 35.2 degree C; TMAX 39.3 degree C; HR 64 (Apical); RR: 28; BP: 58/10 SpO2: 62%

Assessment/Plan
Apnea R06.81
New onset Seizure R56.9
9 month old with a history of cyanosis, new onset seizures and sudden cardiac arrets. The patient had no reported history of trauma, and initial work up for the 12/27 hospitalization was not concerning for NAT. Although the patient was readmitted for new onset seizures on 12/30, the patient returned to baseline after initiating Keppra and had a reported history of normal activity and behavior prior to the sudden cardiac arrets. The presence of the multilayered bilateral retinal hemorrhages are concerning for NAT but we do not have current neuroimaging available. The patient did not survive and will be transferred to the ME for autopsy. The circumstances are concerning, however, for NAT.
DCS and [redacted]PD have been notified.

Dr. [redacted] contacted the medical examiner's office on this date. She learned that the sections of the eyes and brain were not completed yet. There was no subdural hematoma. There was swelling, that could be from Lack of Oxygen.

Dr. [redacted] CARES Team
CPS [redacted] spoke with Dr. [redacted] by telephone on 1/18/22. Dr. [redacted] said she never actually saw the child [redacted] He was already dying when she was notified by telephone of the situation. She said the circumstances were concerning for NAT (non-accidental trauma).

Dr. [redacted] had medical records for [redacted] that showed a normal ophthalmology exam in June, 2021. A dilated eye exam did not reveal any retinal hemorrhages at the time.

A neurology exam in October 2021 revealed an abnormality on [redacted] skull. It was calcified. This could have been from birth or from an impact after that.

Dr. [redacted] advised that none of the nurses at [redacted] would have told a sitter that their services were not needed while the child was still admitted to the hospital.

[redacted] Director of [redacted] CPS [redacted] spoke with [redacted] by telephone on 01/18/22 regarding sitter services provided at [redacted] hospital for [redacted] Ms. [redacted] said sitter [redacted] had been sitting with [redacted] at [redacted] on 1/1/22. Her shift was not to end until 6:00 pm. Ms. [redacted] notified Ms. [redacted] that a nurse told her that the child was being discharged and that a sitter was no longer needed. It was approximately 8:30 am at the time. Ms. [redacted] told Ms. [redacted] that DCS had not notified the service and that she was to remain at the hospital until the child actually discharged. Ms. [redacted] contacted Ms. [redacted] some time later and asked where she was. Ms. [redacted] said she had left the hospital because the nurse again told her that her services were no longer needed. [redacted] can be reached at [redacted].

Ms. [redacted] was notified later in the day by [redacted] of DCS that no sitter was at the hospital. Ms. [redacted] sent sitter [redacted] to the hospital. By that time the child had been moved to the ICU. Ms. [redacted] remained with the child until he died. She then remained with the child's mother, who is in DCS custody, until DCS picked her up from the hospital.

Ms. [redacted] advised CPS [redacted] that her sitters are trained not to leave the hospital until DCS or a caregiver leaves with the child.

Ms. [redacted] had been notified of reports that [redacted] had a boyfriend with her while she sat with the child in the ICU. Ms. [redacted] spoke with Ms [redacted] about the matter. Ms. [redacted] said the man, who was another sitter for the service, had brought her a meal. That man was fired because there is a company policy that only one sitter at a time can be in the hospital room.

Dr. [redacted] Childrens Hospital
CPS [redacted] spoke with Dr. [redacted] by telephone on 1/18/22. Dr. [redacted] reviewed the CARES team notes regarding [redacted] She advised that an ophthalmologist examination on Sunday, 1/2/22, revealed severe bilateral, multilayer retinal hemorrhages all the way to the edges. This was concerning for Abusive Head Trauma.

These hemorrhages could NOT have been caused by CPR. Hemorrhages caused by CPR are few in number and limited to where the nerve is.

Dr. [redacted] advised that Dr. [redacted] was still available by telephone, if needed.

Dr. [redacted] agreed to forward Dr. [redacted] report to CPS [redacted]

CPS [redacted] asked about getting a copy of the Ophthalmology report. Dr. [redacted] stated that, per their attorneys, her office is not permitted to release any reports other than their own.

[redacted] former foster parent
CPS [redacted] spoke with [redacted] by telephone on 1/10/22. [redacted] and [redacted] had been placed in Ms. [redacted] foster home 7/22/21-12/4/21.

CPS [redacted] asked Ms. [redacted] about [redacted] interaction with [redacted] Ms. [redacted] said [redacted] had to be monitored really closely with [redacted] because [redacted] was only 15-years-old. She was a baby with a baby. [redacted] did not like to listen when Ms. [redacted] told her how to care for her baby. [redacted] would say, The doctor told me For example, [redacted] said the doctor told her to only bathe her baby once every two weeks. Ms. [redacted] taught [redacted] to bathe him every other day. On the days she did not bathe him, she should wipe him down with a towel. [redacted] was not consistent with this. She only did as much as she had to to keep Ms. [redacted] satisfied.

Ms. [redacted] said it was difficult to get [redacted] to feed [redacted] properly. She wanted to only give him bottles. Ms. [redacted] told her that she had to put cereal in his milk and, as he got older, put him in his high chair and feed him with a spoon.

When [redacted] got home from school, she would pass [redacted] off to anyone else in the house and she would either sleep or be on her phone.

Ms. [redacted] never saw [redacted] handle [redacted] roughly. However, when he cried, [redacted] would sometimes tell him, Be quiet. Nothing is wrong with you. Ms. [redacted] tried to teacher her that, if the baby was crying, he was trying to communicate that something was wrong either he was hungry, tired, wet, or wanted attention.

CPS [redacted] asked Ms. [redacted] about sleeping arrangements in her home. Ms. [redacted] said she had a bed for [redacted] but [redacted] would not put him in it. Ms. [redacted] fought and fought with her about that. Ms. [redacted] notified DCS.

Ms. [redacted] said [redacted] ran with [redacted] twice. The first time was late at night and it was raining. [redacted] took a Lyft. She did not have proper clothing for [redacted] The second time was about 2:00 am on 12/1/21 or 12/2/21. [redacted] had packed

her and the babys belongings. Ms. [redacted] notified the DCS worker that [redacted] was getting ready to run. They did not believe her. Ms. [redacted] felt that [redacted] and her baby should have been separated after [redacted] ran with him twice.

Ms. [redacted] said she had been told that [redacted] boyfriend was not to be unsupervised with [redacted] or the baby. The boyfriend had been incarcerated. Ms. [redacted] allowed him to come to her home on Thanksgiving to visit for 4 hours. She supervised the visit.

CPS [redacted] asked Ms. [redacted] about [redacted] counseling. Ms. [redacted] said [redacted] started counseling with the CAC. [redacted] was not engaging when they met in person. The counselor allowed her to do virtual sessions by Zoom or Teams. [redacted] was responsible for making the calls on her own. She failed to do so. Ms. [redacted] notified DCS. [redacted] no longer wanted counseling through the CAC. She said she did not feel like they were addressing her trauma. DCS moved [redacted] to counseling services through [redacted]

Ms. [redacted] said [redacted] had been scheduled follow up appointments with a neurologist and an ophthalmologist. He went to one of the appointments. The other was cancelled and rescheduled because some of the children in her home had been positive for COVID at the time and they were all on quarantine.

Ms. [redacted] said she went to the hospital on 01/02/22, the day that [redacted] passed. There was a sitter from [redacted] in the ICU room with [redacted] The sitter had her boyfriend in the room with her. Ms. [redacted] notified a DCS worker of this.

CPS [redacted] spoke with Ms. [redacted] about grief counseling and support groups. CPS [redacted] would ask Ms. [redacted] FPSCM [redacted] to follow up with her regarding grief counseling.

[redacted] DCS worker CPS [redacted] spoke with [redacted] by telephone on 01/10/22. Ms. [redacted] said she was the on call FSW on 01/01/22. She was notified to go to [redacted] to sit with [redacted] and her baby, [redacted] because no sitter was there. She arrived at about 8:30 pm. She called [redacted] to come downstairs so she could ask what she wanted to eat. Ms. [redacted] took food up to [redacted] floor where she sat with [redacted] and [redacted] was on a ventilator.

Ms. [redacted] said [redacted] did not have any interaction with [redacted] at all. She did not even look at him when she left the room. [redacted] lay on a cot, facing the wall, with her back to the baby.

The baby's father, however, continuously was kissing the baby, rubbing his face, and talking to him.

[redacted] did not say anything about what happened to [redacted] The only time she and Ms. [redacted] spoke was when Ms. [redacted] asked what she wanted to eat.

[redacted] did not say anything about currently being pregnant.

[redacted] foster parent
CPS [redacted] spoke with [redacted] by telephone on 01/07/22. Ms. [redacted] said she and her children were doing okay.

CPS [redacted] asked Ms. [redacted] about a FaceBook page belonging to [redacted] Ms. [redacted] said [redacted] had blocked her from FaceBook, but her foster daughter [redacted] was not blocked. [redacted] had seen a post by [redacted] on 01/05/22 that read, Pregnant by [redacted]. Ms. [redacted] forwarded a screen shot of the post to CPS [redacted]

CPS [redacted] asked Ms. [redacted] about cameras in her home. Ms. [redacted] said she did have a camera in the hallway, but it had been turned off when the incidents occurred in her home. She denied having a camera in the girls bedroom.

CPS [redacted] asked Ms. [redacted] for additional information about [redacted] boyfriend and his mother. She said the boyfriend was [redacted] His mother was [redacted] but she did not know her last name. [redacted] phone number was [redacted].

Ms. [redacted] said she took [redacted] and [redacted] to [redacted] house on 12/26/21 for a visit with [redacted] and [redacted] She allowed [redacted] and [redacted] to go into the house while she and [redacted] stayed in the car. The visit lasted for about 3 hours. [redacted] came outside and talked to them for about 10 minutes. Ms. [redacted] saw that [redacted] was about to leave, so she told [redacted] it was time to go. Ms. [redacted] said she had not been told that [redacted] was not to be unsupervised with [redacted] or his mother.

Ms. [redacted] and [redacted] had a conversation in the waiting room at the hospital during which [redacted] told Ms. [redacted] that [redacted] would beat [redacted] up and that [redacted] would fight back.

[redacted] FSW CPS [redacted] spoke with FSW [redacted] by telephone on 01/04/22 to gather additional information.

CPS [redacted] advised FSW [redacted] that there was information that [redacted] boyfriend was abusive to her. FSW [redacted] had no knowledge of that. She said she did hear him call her out of her name one time. She addressed it with [redacted] FSW [redacted] said [redacted] foster parent allowed him to visit on Thanksgiving. The boyfriend also came to the hospital. As far as she knew, those were the only times they had been together. [redacted] was not supposed to be unsupervised with her boyfriend or his mother. FSW [redacted] would ensure that restriction remained in place.

FSW [redacted] said foster parent [redacted] hears [redacted] on the phone, hollering and crying one time. [redacted] was saying something about come and get us. Ms. [redacted] initially thought [redacted] was talking to her Dad, but then she found out that she had been talking to her boyfriend.

FSW [redacted] said [redacted] went through a parenting program when she and [redacted] first came into DCS custody. She got a certificate of completion. FSW [redacted] believes it is uploaded into TFACTS. More recently, it was a thought that she should have additional parenting instruction. It was being scheduled through [redacted] her new mental health provider.

[redacted] was assessed by TEIS when he first came into DCS custody. He did not qualify for services.

CPS [redacted] and FSW [redacted] talked about sleeping arrangements in the foster home where [redacted] and [redacted] had been placed. FSW [redacted] said foster parent [redacted] had a baby bed for [redacted] She kept telling [redacted] to let [redacted] sleep in it, but [redacted] consistently had [redacted] sleep with her.

FSW [redacted] was on bereavement leave when [redacted] and [redacted] were placed with foster parent [redacted] She

got back on 12/21/21 or 12/22/21 and then had Christmas leave. She was notified that Ms. [redacted] did not have a bed for [redacted] so she took them a pack-n-play on 12/27/21.

CPS [redacted] and FSW [redacted] talked about the sitters at the hospital. FSW [redacted] said she went to the hospital and sat with [redacted] on 12/27/21 after the hospital called and notified her that the sitter left and there was no replacement. FSW [redacted] was there until another sitter arrived.

FSW [redacted] said the hospital did not notify her when the sitter left without a replacement on 01/01/22. At some point on-call case worker Ms. [redacted] went and sat at the hospital on 01/01/22.

CPS [redacted] will sent Releases of Information for medical and therapy records to FSW [redacted] for her signature.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leader (TL) [redacted] Also present was Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted] and Director of Critical Incident Support (DCIS) [redacted]

The CPS investigation was assigned on 1/4/22 concerning the custodial death of ACV [redacted] (9mo). It was reported both [redacted] and his 15yo mother [redacted] were placed in DCS custody on 5/24/21 and residing in a DCS foster home in [redacted] County at the time of the incident. Paternity tests are currently being completed to help determine the father of [redacted] The mother is a victim of sexual abuse/rape by her uncle and cousin, which led to her and the baby coming into custody.

On 12/27/21 the mother and [redacted] were in the bedroom together and another teenager/foster child was in the room but asleep. The mother came out carrying [redacted] in her arms and alerted the foster mother that he was not breathing. The foster mother took [redacted] and started CPR while the other teen in the home called 911. [redacted] started breathing prior to the fire department (FD) arriving. When the FD arrived, they assessed and stated he was stable but should go to [redacted] but the ambulance was probably an hour away. Due to the home being so close to [redacted] [a few minutes away], the foster mother took [redacted] in her private car to [redacted] A full battery of tests was completed, and he was kept overnight, but appeared to be fine medically and no concerns were found. He was discharged on 12/28/21.

The foster mother reported on the evening of 12/28/21, the mother gave [redacted] a bath and took him in the bedroom with her, the other teen was in the shower. The mother then came out with her arms around the babys waist and him facing away from her, and there is blood and formula running down his face. The foster mother reported she took [redacted] and cleared his mouth with her finger, and more formula came out, but he seemed fine. The foster mother stated she kept [redacted] in her room with her until about 2am, at which time she took back to the mothers room and placed him in his pack-n-play. On 2/29/21 [redacted] was fine all day and night. On 12/30/21 the foster mother left the home to run errands around noon. She then received a call from the other teen in the home yelling that [redacted] was not breathing. She tells them to call 911 and then calls a relative that lives closed to the house. The relative got there before EMS arrived. The relative reported when she arrived it was clear to her that [redacted] was having a seizure, but he was breathing. EMS arrived and confirmed a

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

seizure and then transported him to [redacted] had a second seizure upon arriving to [redacted] and was put on medication for seizures. He was kept overnight, and it was reported [redacted] recommended discharge the next day on 12/31/21 with the seizure medication; however, the foster mother requested they keep him one more night.

On 1/1/22 the foster mother dropped the mother off at the hospital around noon to go spend time with [redacted] About the same time the foster mother got a call from the hospital stating they were discharging [redacted] The hospital planned to show the mother how to take care of the baby with his medication and suppositories. The mother reported when she arrived at [redacted] room, he was alone and there was no sitter. She asked the nurse where the sitter was, and it was reported the sitter left early that morning. The mother was alone in the room with [redacted] and she said it looked like he wasnt breathing and the monitors had already been disconnected for the pending discharge. The mother stated she pressed the call button to alert the nurse that [redacted] wasnt breathing but no one came. The mother reported she went into the hall and flagged down another nurse who ran to [redacted] room at which time a crash team was called. The doctor reported they worked on [redacted] for 17 minutes, he was placed on a ventilator, and moved to NICU where he stayed overnight. On 1/2/22 ophthalmology completed a consult and found retinal hemorrhaging in both eyes. Currently medical opinion is varying on whether the hemorrhaging could have been cause by CPR attempts or not. Later on 1/2/22 [redacted] had another cardiac event from which he did not recover and he was pronounced deceased.

LE responded to the hospital and contacted the ME office who sent their investigator to the hospital and were calling the incident an in-hospital death. Due to this, LE made the decision to not roll out their homicide team. The case is being present in morning CPIT today, 1/4/22.

The doctor reported their concerns for possible non-accidental trauma was the medical team could not find any medical reason for [redacted] to have had cardiac arrest or stop breathing and due to the mother reportedly being alone with the child every time there was incident at home and the hospital. The foster mother, the teens, and the foster mothers relative all stated they had never seen the mother be rough with the baby or hit/spank, but she would sometimes get frustrated when it was time to feed him, and spoon feed him. The foster mother did report that the mother slept all the time. It was also reported while the mother held [redacted] all the time, she often didnt interact with him and would be on her phone.

Medical records have been requested and some already received and reviewed with DCS nurse. When [redacted] came into custody at 2mo the TL noted his eyes did not seem to track and this was mentioned at his initial doctor appointment where appointments were made with a neurologist and ophthalmologist. The ophthalmology appointment was completed, and no concerns were found with [redacted] eyes. The neurologist appointment was cancelled, and it was rescheduled for January. The mother was supposed to be in therapy at the CAC and kept a couple appointments, but it was switched to Zoom and she stopped participating. A new therapy assessment appointment has been made for 1/6/22.

Next Steps:
-- CM will continue to request and ensure all medical records are uploaded to TFACTS, including birth, PCP, specialty, and therapy records.
-- CM will talk to the former foster mother about the concerns regarding the missed medical and therapy appointments.
-- CM will speak to the DCS personnel regarding the sitter service and what happened with the lapse of a sitter the morning of the incident leading up to the death.
-- CM will follow-up to see if TEIS was involved.
-- CM will follow-up with the FSW to ensure safety around the boyfriend of the mother who has reportedly been violent in the past.
-- Follow-up with ME regarding preliminary findings and release of body.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

[redacted] Childrens Hospital Medical Reports 12/30/21-01/02/22

12/30/21 19:33
Admission History and Physical Examination

Chief Complaint: Possible seizure

History of Present Illness
[redacted] is a 9 month old male who presents for a seizure like episode today. Of note, patient was recently admitted to [redacted] due to an episode of unresponsiveness on 12/27/21. A complete blood work profile, urinalysis, viral screenings, CT head were all unremarkable. ECHO was done during that admission (showed top normal systolic pressure otherwise normal) as well as EKG and EEG done during admission did not find any pathology of significance and the patient was discharged home with foster mother on 12/28/21 with Neurology follow up in 2-3 months. On 12/28/21, the patient had an episode of emesis with flecks of blood but did not have any further events. When asked to elaborate mom can not say how much but she does not that it only happened once. According to mother [redacted] had been having cough and rhinorrhea starting after hospital discharge. Mom noted that she and [redacted] were asleep earlier in the same room that she awakened abruptly for some reason. She then noted during [redacted] sleeping that there was a pause in breathing with cyanosis in the face, chest, and arms. She picked him up and was screaming his name and also took him outside. Mom estimates this to have lasted 4 minutes. She called 911 at that time and No CPR was performed but she was informed by the dispatcher to blow in his face. Eyes were closed and patient was limp. After patient came back to breathing, he had a staring episode. When EMS arrived the patient went into a staring spell with moaning which lasted for 30 minutes but brought to the ED without interventions. Mom states that EMS told her he was having a seizure but there were no medications given. Upon arrival to the ED he seemed to be back to baseline. When he was in the room with mother alone she brought him out and stated that he was limp. At this time ED staff and physician noted fixed stare, hypertonicity, unresponsiveness, and disordered control of breathing with frank cyanosis. At that time placed on nonrebreather and moved to another room for intervention. Event resolved spontaneously after <5 minutes. At that time PIV was placed and he was loaded with Keppra. Neurology was made aware at that time. Labs were obtained to include CMP, CBC, CRP and

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: CPS Special Investigation

procalcitonin. Due to the witnessed possible seizure as well as need for further management and observation patient was admitted to the hospital services.

Assessment/Plan
[redacted] is a 9 month old previously health male who presented with seizure like episode at home followed by another witnessed seizure like event in the ED. At this time, highest concern for seizure activity vs cardiac etiology (although full cardiac workup done at last admission and noted to be negative). CT head was not done as this was done at last admission and physical examination did not support NAT. Lower concern for ingestion at this time given abrupt onset and resolution but UDS is pending. Could consider reflux event, cardiac arrhythmia, electrolyte abnormality and/or infection. Lower concern for infection given afebrile, well appearing, no clinical symptoms, and lab work all reassuring.

Consider cardia monitoring
Neuro consult in AM

Attending attestation:
Based on my medical assessment and in view of the patients acute medical problems, age, co-morbidities, presenting symptoms and acuity, I certify that continuation inpatient services are both reasonable and necessary. [redacted], MD, [redacted] Hospitalist

Discharge Summary
01/02/22 17:51
Death Note:
[redacted] is a 9 month old who was brought to the ICU after a cardiac arrest on the floor of unknown etiology. Patient has recently had work up due to multiple admissions for ALTE including CT head, EEG, EKG, and echo all found to be unremarkable. Patient was brought to the ICU yesterday after unknown down period on the floor. He proceeded to PEA requiring a 17 minute code prior to ROSC. With initial gas after intubation and initial stabilization being pH 6.57, CO2 60, HCO3 6, BE 30, Lactate 18. Team discussed plan of care with family. Patient was made DNR and plan was to no escalate any care. This AM further work up was done for concern for non-accidental trauma. At 1415 patient had a run of ventricular tachycardia resolved however patient proceeded to have bradycardia to PEA to asystole. Time of death was called at 1459. Medical examiner contacted. No devices were removed or changed. Plan for full autopsy. DCS Cares, and Police notified. Death certificate will be completed by Medical examiner.

[redacted] Children's Hospital Medical Reports 12/27/21-12/28/21

12/27/21 21:27
Admission History and Physical Examination
Chief Complaint: Respiratory Problem

History of Present Illness:
[redacted] is a 9 month old previously healthy term male presenting with acute onset of syncope. Mother and Mothers foster Mother is at bedside providing history. Mother states that she was playing with patient, who was at his baseline (laughing and giggling) and all of the sudden he went limp and unresponsive. . She denies any trauma or falls prior to this event or any ingestions shortly before. She brought him to where Mothers foster Mother was, who noted that patient was cyanotic. She started to blow in his face and did chest compressions with fingers. They state that during it, his eyes were rolled back and he was unresponsive. No jerking movements or bowel/bladder incontinence they were aware of. 2 minutes in, he started to stir and Maternal Foster Mother started to yell his name. Patient started to cry/scream. After that, family states he would seem like he was getting sleepy afterwards an they would have to yell his name multiple times to keep him awake. Family denies any fevers, URI sx, emesis, diarrhea, rashes. Brought to the ED. In the ED, patient was noted to be tachypneic with congestion so suctioned (with episode of emesis afterwards). CBC, CMP, CRP, UA, RSV/COVID/Flu were obtained along with CXR and EKG. All was reassuring, EKG with tachycardia however patient was crying. Back to his baseline since being in the ED. Given NS bolus and the admitted to the Hospitalist team for further evaluation.

Assessment/Plan
[redacted] is a 9 month old previously health male who presented with acute onset of syncopal episode followed by sleepiness. Back to his neurologic baseline since event. At this time, highest concern for seizure activity vx cardiac etiology of symptoms. Given sudden onset of evening with eyes rolled back, unresponsiveness, and sleepiness afterwards concerning for postictal state, important to rule out seizures. Will also rule out trauma, bleed, intracranial mass as cause of

Tennessee Department of Children's Services

Case Recording Summary

Case Status:	Close	Organization:	CPS Special Investigation

symptoms with CT head. Lower concern for ingestion at this time given abrupt onset and resolution. Lower concern for infection given afebrile, well appearing, no clinical symptoms, and labwork reassuring.

Attending Attestation
Based on my medical assessment and in view of the patients acute medical problems, age, comorbidities, presenting symptoms and acuity, I certify that continuation of inpatient services are both reasonable and necessary.

12/28/21 14:57
Neurology Consult Note
Chief Complaint: Respiratory Problem
Reason for consult: Unresponsive episode

History of present illness:
[redacted] is a 9 month old male with no significant past medical history who presented to the ED after an episode of unresponsiveness. He had been in his usual state of health, not recently sick. Mom stated it looked like he was not breathing and stated he was not. He began to turn blue. His eyes rolled back. No jerking of shaking identified. No incontinence. She called out for her foster parent for assistance. They blew in his face and started CPR. He became responsive again after 2 minutes. EMS had already been called. After he became responsive, he began screaming and crying. During transport he would intermittently become tired and lose some tone again and mom had to continue to yell his name to keep him awake. No recent trauma, ingestion, or illness. Here in the ED, he was noted to be tachypneic with some congestion (he was suctioned and did have an episode of emesis after). Basic labs were obtained, including CBC, CMP, and CRP that were normal. Urinalysis was normal. He was negative for flu, RSV, and COFID. He was given a NS bolus in the ED and was noted to be back to his baseline with no additional episodes. He was admitted to hospitalist services overnight for observation.

EEG was ordered and obtained this morning.

He has previously seen by Dr. [redacted] for vision issues after he was noted to have right gaze preference and would not visually track. He had had a Head CT that was normal. He was seen in ophthalmology clinic and diagnosed with delayed visual maturation and intermittent right monocular exotropia. Dr. [redacted] did not have further workup recommended at that time.

Birth History
He was born to a 14-year-old G1, P1 via cesarean section. There were no complications with pregnancy. During delivery, there was a drop in fetal heart rate. E was born via cesarean section due to failure to progress. He weighted 10 pounds, 3 ounces at birth. He was discharged home 4 days of life.

Images
12/27/2021 21:39 CTA Brain/Head wo cont
Impression: Normal CT of the head with no pathologic findings to explain patients syncopal episode.

Assessment/Plan:
[redacted] is a 9 month old male with no significant past medical history who presented with an acute episode of unresponsiveness, characterized by limpness, apnea, and cyanosis, followed by screaming/crying and sleepiness. He has been back to his neurologic baseline since arrival. Basic labs were obtained and were reassuring. CT head was normal. EKG demonstrated supraventricular tachycardia on preliminary red.

EEG obtained this morning and was normal in the awake and drowsy states.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

Given the normal work up this far, this sounds consistent with BRUE.

Per American Academy of Pediatrics 2019 clinical practice guideline, a brief resolved unexplained event (BRUE) is an event occurring in an infant younger than 1 year when observer reports a sudden, brief, and now-resolved episode of 1 or more or the following: (1) cyanosis or pallor; (2) absent, decreased, or irregular breathing; (3) marked change in tone (hyper- or hypotonia); or and ® altered level of responsiveness. Since episode >1 minute, this is considered high risk BRUE.

Would recommend full cardia workup given the possible SVT on EKG.

Will arrange followup with Dr. [redacted] in 2-3 months.

No further neurologic workup indicated at this time.

Admission Date: 12/27/2021
Discharge Date: 12/28/2021

Attending Physician: [redacted], MD

Consulting Physician: Neurology

Primary Care Physician: Dr. [redacted]

Discharge Diagnoses: BRUE

Hospital Course:
[redacted] is a previously health ex-full term 9 month old male who presented with loss of consciousness and cyanosis. Mother and mothers foster Mom reported that Mother was playing with the patient who was at his baseline when he suddenly went limp and unresponsive. No preceding trauma/falls. He was carried to the Mothers foster mother who noted that the patient was cyanotic and not responding with eyes rolled back. No jerking movements. She blew in his face and did chest compressions with her fingers. After about 2 minute, he began to arouse and started crying/screaming. He then seemed sleepy and required stimulation to stay awake. NO fevers, URI sx, emesis, diarrhea, rashes. He was brought to the [redacted] ED where he was noted to have congestion and mild tachypnea. He was suctioned with emesis x 1 after. CBC, CMP, CRP, UA, RSV/COVID/Flu were obtained along with CXR and EKG. All labs were reassuring. EKG showed sinus tachycardia however patient was crying. He did not appear altered and family reported he was back to is baseline. He was given a NS bolus and admitted for further care.

On admission, [redacted] was placed on a CP monitor. CT head was performed and was unremarkable. Neurology was called and Recommended EEG. [redacted] had no further events overnight. His VS remained stable and he had no fevers. He drank well. The next day, EEG was performed and was normal. Neurology recommended no further Neurology workup at this time, but will follow up in clinic in 2-3 months. Discussed EKG with Cardiology who read as sinus tachycardia, no SVT. Echocardiogram was performed and showed top normal RV systolic function, but otherwise normal structure/function. Discussed with Cardiology who recommended no acute interventions or repeat needed, but would repeat in 2-3 months.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

Given reassuring studies and normal VS and well-appearance since admission with no further events, patient was discharged home. Family was counseled on return precautions and need for close PCP follow up.

Diagnostic Results: EEG 12/28/21
Impression: This 42-minute pediatric digitally recorded video electroencephalogram is normal in the awake and drowsy states.

Echocardiogram 12/28/21
Suboptimal images due to poor patient cooperation. Normal bi-ventricular size and systolic function.

Discharge Plan
Patient discharge condition: Stable
Discharge disposition: Home
Discharge Medications: None
Discharge Instructions:
Follow up appointments:
Neurology, 2-3 months. Family will be contacted with appointment information.
Follow up echocardiogram in 2-3 months. Family will be contacted with echo appointment information.
Parent to Schedule PCP visit: 3 days

[redacted] mother
CPS [redacted] interviewed [redacted] in the home of foster parent [redacted] at [redacted], TN, on 01/03/22. The interview was private and confidential.

[redacted] was clean and well-groomed. She did not have any visible injuries. [redacted] said she had not slept well the previous night. She said she did feel safe in this foster home. [redacted] had been in the DCS office with her case worker all day.

CPS [redacted] talked to [redacted] about her baby. [redacted] said she called him [redacted] She said he laughed a lot. She said she was happy to have a baby and he made her feel loved. [redacted] said [redacted] watched Pokemon on her tablet. DCS gave him toys for Christmas. He liked a toy car with buttons.

[redacted] said she fed [redacted] whenever she thought he was hungry. When he woke up from his naps she would change him and feed him. She did not feed him on a schedule. If he was drinking straight formula, he took 8 oz. every 3 hours. If there was cereal or vegetables mixed in with his formula, he took a bottle every 5 hours. [redacted] said she sometimes fed [redacted] with a spoon.

CPS [redacted] asked [redacted] if anyone had taught her how to take care of her baby. [redacted] said no one taught her. She said she already knew the basics.

CPS [redacted] asked [redacted] about [redacted] medical history. She said [redacted] was healthy when he was born at [redacted] Hospital. She was in the hospital for 5 days. She went in on the 03/17/21 and he was born on the 03/20/21. They went home two days later. Her mother was with her and her mother read the formula can to her so she would know how to mix the formula.

[redacted] told CPS [redacted] that [redacted] was never sick.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

CPS [redacted] asked [redacted] about where [redacted] slept in the foster homes. [redacted] said [redacted] did not like his bed in his first foster home. The little children would get in his bed with their dirty feet. [redacted] had [redacted] start sleeping with her when he was 3-months-old. [redacted] and [redacted] were in several respite foster homes between their first and last homes. [redacted] said one respite foster home had a bed for [redacted] but the others did not. [redacted] did not have a bed for [redacted] for their first two weeks in her home. DCS brought a pack-n-play on the day [redacted] first went to the hospital. [redacted] put a sheet under [redacted] in the pack-n-play.

CPS [redacted] took [redacted] through the events that happened with [redacted] starting on 12/27/21. [redacted] said she fed [redacted] on the afternoon on 12/27/21. [redacted] was sitting up and playing about an hour after she fed him. [redacted] was sitting on the bed with him, between him and the floor. [redacted] suddenly fell over sideways . He was scratching at his face. He acted like he was gasping for air. [redacted] stopped gasping and he stopped breathing. [redacted] (16-year-old foster sister) was in the room with them, but she was sleeping. [redacted] picked [redacted] up and took him to the kitchen where she told her foster mother, I think hes not breathing. Her foster mother laid [redacted] on the table, but he was not responding. She put him on the floor and did CPR. Her foster mother screamed and [redacted] screamed. [redacted] was on the phone to 911. The fire department arrived and check [redacted] They said they ran out of ambulances. Her foster mother put [redacted] in his car seat and her foster mother, [redacted] and [redacted] took [redacted] to the hospital. [redacted] was breathing fast and it seemed like he was forgetting to breathe. The same thing happened after they got to the hospital. [redacted] Oxygen level was low.

[redacted] was sent home from the hospital on 12/28/21. He was sleeping in his pack-n-play that night and she was watching him. He started throwing up formula and blood. She sat him up and then picked him up and took him to her foster mother. Her foster mother said it was foam coming from his mouth. Their foster mother wanted to keep [redacted] awake all night. He was okay and their foster mother put him back in his bed sometime during the night.

[redacted] said [redacted] heart stopped while they were at home at 12:00 or 1:00 pm on 12/30/21. [redacted] was sleeping. She woke up to check on [redacted] There was movement in his stomach,, but she could not feel him breathing. She woke [redacted] up. [redacted] called 911. EMS arrived within 2 minutes. Their foster mother was not at home, but [redacted] had called her. She sent her friend to the house. [redacted] took [redacted] outside to get him some air while she waited for the ambulance. His heart started back. When the paramedics got there, they said [redacted] was having a seizure. [redacted] rode to the hospital in the ambulance with [redacted] was doing good at the hospital, but then he had another seizure. They kept him at the hospital. [redacted] stayed until 9:00 pm and then she went home. Everything was fine when she left.

[redacted] could not remember anything happening with [redacted] at the hospital on 12/31/21.

[redacted] said she got to the hospital at about 1:00 pm on 01/01/22. No one was in the room with [redacted] when she arrived. There was no sitter. [redacted] called a nurse into the room and asked about the sitter. The nurse said the sitter left at about 8:30 am. [redacted] was asleep in his bed. He was not hooked up to any monitors. [redacted] sat down, got up and checked on him, sat down again. She was panicking. She checked on him again and he was not breathing. She used the call button to call a nurse. She told the nurse that she thought her baby was not breathing. No one came to the room. [redacted] looked out in the hall, but she did not see anyone. She then saw someone coming from another room. She called to him and he ran to the room. He sent out an alarm and everyone came. They were working on [redacted] and trying to explain to her what was happening. She kept hearing them say, No pulse. They asked her what happened.

[redacted] was taken to Intensive Care. [redacted] was allowed to spend the night with him. [redacted] father and a DCS sitter were also there all night. [redacted] was told that [redacted] numbers werent good and that he wasnt going to make it.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

[redacted] heart stopped on 01/02/22 and he died.

[redacted] told CPS [redacted] that she did not understand what had happened. CPS [redacted] explained to [redacted] that an autopsy would be done to try to find out what had caused [redacted] to die. [redacted] seemed confused. CPS [redacted] told her that a doctor would look at [redacted] body to try to determine whether there was a medical reason that caused him to die or whether someone had done something to him. CPS [redacted] asked [redacted] if she had done something to hurt her baby. [redacted] said she had not. CPS [redacted] did not ask any further questions regarding that, as this was not an alleged perpetrator interview. [redacted] agreed that she did want to know what happened.

CPS [redacted] talked to [redacted] about counseling and how it might help her to have someone to talk to about everything that had happened in her life.

CPS [redacted] talked to [redacted] about school. She was not attending school for several days. She said she was in 8th grade at [redacted]. She said she made good grades and that she was on Honor Roll.

[redacted] 16-year-old foster child
is a 16-year-old foster child who is placed in the home of [redacted] as a relative placement. [redacted] shared a bedroom with [redacted] and [redacted]

CPS [redacted] interviewed [redacted] in her home on 01/03/22. CPS [redacted] asked [redacted] about how [redacted] interacted with [redacted] said [redacted] spent a lot of time on her bed with [redacted] would climb over her and she either held him or played with him. When he whined, [redacted] would ask him what was wrong with him. [redacted] also sometimes played with [redacted] said she never saw [redacted] be rough with [redacted] or spank, hit, or hurt him. She was never worried that she would.

[redacted] said she was asleep in the bedroom with [redacted] and [redacted] on 12/27/21. She woke up when she heard [redacted] yell, Call 911!. [redacted] ran back down the hall toward their room. She was carrying. [redacted] called 911, although she did not know what was happening. The fire department took care of [redacted] and then [redacted] took him to [redacted] and [redacted] went with them.

[redacted] said she was in the shower when something happened on 12/28/21. She was told that [redacted] had been throwing up blood, but she did not see it.

[redacted] said she had gone with her mother to do Door Dash runs on 12/30/21. She went to their bedroom when they returned. [redacted] asked who else was there. [redacted] went to sleep. [redacted] woke her up some time later because [redacted] was not breathing. [redacted] was not at home. [redacted] took the baby and she told [redacted] to call 911, which she did. [redacted] patted [redacted] on the back. He was breathing, but he was not responding. She laid him on the carpet. His eyes wee rolling to the back of his head. [redacted] came and then the fire department and the ambulance came. They asked what was going on. [redacted] told them that [redacted] had stopped breathing while he was sleeping.

CPS [redacted] talked to [redacted] about feeling sad, because she had bonded with [redacted] CPS [redacted] talked to [redacted]

Ms. [redacted] said she had noticed scratches on [redacted] neck when [redacted] was first placed in her home. [redacted] told her they were from when she had been raped. However, the rape had been several months prior. Ms. [redacted] believed that [redacted] boyfriend might have hurt her.

[redacted] foster parent CPS [redacted] interviewed [redacted] in her home on 01/03/22. CPS [redacted] reminded Ms. [redacted] that she had a right to have a foster parent advocate present. Ms. [redacted] agreed to speak to CPS [redacted] without an advocate. She signed a document to that effect.

Ms. [redacted] said [redacted] and [redacted] were placed in her home on 12/17/21. She said [redacted] was really sweet, but she liked to be on her phone a lot. She would lie down on her opened futon and put the baby behind her. She would not pay attention when he was whining. Ms. [redacted] took [redacted] phone away from her one day so she would pay attention to [redacted] Ms. [redacted] gave the phone back 30 minutes later after [redacted] went to sleep.

Ms. [redacted] said she took care of [redacted] the first three days. [redacted] slept a lot. [redacted] played with the baby, but she worked in the evenings. Ms. [redacted] told [redacted] that she had to take care of him. She told [redacted] that she had to be the parent and care for him. Ms. [redacted] told [redacted] about being a teen mother in foster care herself. She had been required to care for her own child. She had been in an independent living home with her child when she was 17-years-old. [redacted] was receptive and she did not show an attitude.

[redacted] always bathed [redacted] Ms. [redacted] encouraged her to bathe him in the sink, but [redacted] preferred to do it in the tub. [redacted] changed [redacted] diapers as needed. He was always clean, and he did not have a rash. Ms. [redacted] would put eczema cream on [redacted] face.

Ms. [redacted] said there were issues with [redacted] feeding [redacted] She preferred to give him a bottle rather than food. She kept laying him down with his bottle, even though Ms. [redacted] told her not to. [redacted] ate fine when Ms. [redacted] fed him baby food,

Tennessee Department of Children's Services

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: CPS Special Investigation

eggs, and grits. [redacted] seemed to have trouble feeding him with a spoon. She cut a large hole in the nipple of a cup and put his baby food in it. [redacted] said that was how they fed [redacted] in her former foster home. Ms. [redacted] took the cup away from [redacted] and told her that [redacted] would suck the food down too fast, and he could choke. She showed [redacted] how to feed him with a spoon.

Ms. [redacted] said she was working at her computer workstation in the kitchen at about 1:20-1:30 pm on Monday, 12/27/21 while [redacted] and [redacted] were in their bedroom. [redacted] came down the hall with [redacted] laid out in her arms. She was shaking and crying and said, Hes not breathing! [redacted] said [redacted] had been sitting up, playing, and then he fell back and stopped breathing. [redacted] said [redacted] had been lying down, taking a bottle when she lay down for a nap. Ms. [redacted] took [redacted] from [redacted] She laid hm on the dining table, but she realized that was not a good position to do CPR. She put [redacted] on the floor, and she breathed into his mouth and pumped his chest a few times. He gasped and she hollered his name. That scared him and he yelled. [redacted] was on the phone to 911. [redacted] kept going out of it. Ms. [redacted] took him outside until the paramedics got there. [redacted] caught his breath, but he was blue. The fire truck came first, and they said that [redacted] looked normal. They said an ambulance might be an hour wait. They told Ms. [redacted] that she would wait for an ambulance, or she could take [redacted] to [redacted] herself. [redacted] was just a few minutes away. Ms. [redacted] put [redacted] in the back seat of her car, in his car seat. [redacted] and [redacted] rode back there with him as she drove to the hospital. [redacted] started gasping for air while they sat in the waiting room with him. He was then taken to the back for treatment. They suctioned him and kept hm overnight. His tests were all normal. [redacted] was discharged on Tuesday, 12/28/21, with no medications.

That evening, 12/28/21, [redacted] gave [redacted] a bath in the tub sometime around 10:00 pm. She brought [redacted] to Ms. [redacted] room and Ms. [redacted] wrestled and played with him while putting lotion on him. [redacted] got into the shower. Ms. [redacted] told [redacted] that [redacted] might need a bottle. [redacted] fixed a bottle and took [redacted] to her room to feed him. She came back with [redacted] about 15 minute later. She was holding him with her arms around his waist as he faced away from him. There was blood and milk hanging across his face. He was not holding his head up. Ms. [redacted] took [redacted] and swept her finger in his mouth. Milk came out of his mouth. He was gasping and then he was okay. Ms. [redacted] yelled at [redacted] asking, What did you do to him?! [redacted] said he was lying down and she gave him a bottle. Ms. [redacted] kept [redacted] with her for several hours and he appeared to be fine. She took him to the girls bedroom and put him in his pack-n-play at about 2:00 am. He clung to her and did not want to let go. Ms. [redacted] was in and out of the bedroom the rest of the night. [redacted] was okay the rest of the night.

Ms. [redacted] kept [redacted] close to her all day on 12/29/21. There were no problems on that day.

Ms. [redacted] said she left the home late morning on 12/30/21 to run errands. [redacted] called her4, hollering. [redacted] said she had been asleep, and [redacted] said [redacted] was not breathing. The girls had already called 911. Ms. [redacted] was frantic and in a hurry to get home. She backed into a pole and into another vehicle. She called her cousin, [redacted] who lived close to her home. Ms. [redacted] went to the house. She called Ms. [redacted] via FaceTime. Ms. [redacted] saw that [redacted] was lying on the rug. The paramedics were there. They said [redacted] was having a seizure.

Ms. [redacted] notified the FSW.

Ms. [redacted] met the ambulance at the ER. [redacted] was breathing, but he was exhausted.

Ms. [redacted] was going to go across the street to get them all something to eat. Before she could leave the hospital, [redacted] started having a seizure in the ER. He was given medication for seizures. He was admitted.

A sitter from [redacted] Staffing came to sit with [redacted] Ms. [redacted] took [redacted] home with her.

Ms. [redacted] and [redacted] returned to the hospital at about 1:00 pm on 12/31/21. The doctor said [redacted] had a good night and

Tennessee Department of Children's Services

they were going to discharge him. Ms. [redacted] was not comfortable in [redacted] coming home that soon. She asked them to keep him in the hospital one more night. They agreed to do so. [redacted] stayed at the hospital that day until Ms. [redacted] picked her up at 8:38 pm. A sitter was with them and [redacted] was never alone with [redacted] that day.

Ms. [redacted] took [redacted] to the hospital at 12:45 on Saturday, 1/1/22. She dropped her off and was going to run errands. Ms. [redacted] was of the understanding that a sitter was there. At that time a doctor called Ms. [redacted] and told her that they were discharging [redacted] They needed to have [redacted] watch a video on giving [redacted] his medication and using a suppository to stop a seizure. Ms. [redacted] told the doctor that [redacted] was on her way up to the floor. The doctor had to do discharge paperwork, so they agreed that Ms. [redacted] would return at 2:00 to pick up [redacted] and [redacted]

Ms. [redacted] went to pay some bills. A prescription had been called in for [redacted] but she was not going to pick it up until after she picked [redacted] and [redacted] up from the hospital. Ms. [redacted] received a phone call from [redacted] at 1:34 pm. [redacted] told her, He stopped breathing again. [redacted] said she had gone in to check on him and he was not breathing. She said the doctor was with him now.

Ms. [redacted] went in to the hospital to [redacted] room, # [redacted] had been moved to the ICU. A Chaplain was there with [redacted] Ms. [redacted] questioned the Chaplain about why she was there. Ms. [redacted] thought that something really bad was happening if a Chaplain had been called. The Chaplain explained that she was just there to pray. Ms. [redacted] asked the Chaplain to leave.

[redacted] said there had not been a sitter there when she got there. Someone had said that the sitter left at 8:30 am and no replacement had come.

[redacted] said [redacted] had been happy to see her. She said she gave him a bottle he went to sleep. She laid him down. Something told her to check on him and she did, he was not breathing. Ms. [redacted] questioned [redacted] as to how long it was before she told the nurses that [redacted] was not breathing. [redacted] said she did not know.

Ms. [redacted] was confused about [redacted] saying that she put [redacted] down after his bottle because she previously always held him.

Ms. [redacted] said they got [redacted] comfortable in the ICU and they let [redacted] lay down with him. [redacted] was crying. Her boyfriend came in. He was very loving toward the baby. [redacted] got up and went down the hall. Ms. [redacted] thought that [redacted] was jealous that her boyfriend was showing attention to the baby and not to her. Her boyfriend followed [redacted] down the hall, and they whispered together.

There was some incident at the hospital involving the boyfriend and security had to be called.

Ms. [redacted] said [redacted] boyfriend reportedly has had a baby with another girl since the birth of [redacted] He also reportedly has another girl pregnant as well. Ms. [redacted] said [redacted] had been arguing with those girls.

The boyfriends mother told Ms. [redacted] that he beats her ass. She said that [redacted] fought back. The boyfriend did give [redacted] $250 at some point.

Ms. [redacted] said she had never seen [redacted] show anger toward [redacted]

Ms. [redacted] had requested that [redacted] [redacted] not return to her home after the death of [redacted] [redacted]

[redacted] cousin of foster parent [redacted]
DOB [redacted], [redacted], [redacted] TN [redacted]
CPS [redacted] interviewed [redacted] in the home of [redacted] on 01/02/22. Ms. [redacted] is the cousin of foster parent [redacted] and she is frequently in the home. CPS [redacted] asked Ms. [redacted] to describe the interactions she observed between [redacted] and her baby, [redacted] Ms. [redacted] said [redacted] was really quiet. They all tried to make her feel comfortable. [redacted] kept [redacted] in her arms, holding him most of the time. She was never rough with him. Ms. [redacted] never had any concerns with how [redacted] handled the baby.

Ms. [redacted] described the events on 12/30/21. She was on the phone with [redacted] who was not at home at the time. A call came in from Ms. [redacted] foster daughter, [redacted] Ms. [redacted] and Ms. [redacted] talked to [redacted] on a 3-way call. [redacted] told them that the baby ([redacted] was not breathing. [redacted] and [redacted] had already called 911. Ms. [redacted] was only a couple minutes form the [redacted] home. She got there before EMS did. Ms. [redacted] walked in and saw [redacted] holding [redacted] Ms. [redacted] immediately could see that he was having a seizure. His eyes were rolling to the back of his head and he was making a noise. Ms. [redacted] gently laid him on his side. She could feel his chest rising and knew that he was still breathing. The fire department arrived and then paramedics arrived within 2-3 minutes of Ms. [redacted] arrival. They checked [redacted] Oxygen level and it was 100%. They put him in the ambulance and took him to [redacted] rode in the ambulance with him. Ms. [redacted] followed the ambulance to the hospital. At the hospital, [redacted] appeared to be alert, but tired.

[redacted] Foster Care TL
CPS [redacted] spoke with TL [redacted] by telephone on 01/03/22.

Ms. [redacted] mentioned that there had been an incident in the foster home when [redacted] was throwing up milk and blood. This information was new to CPS [redacted]

Ms. [redacted] advised that the sitter had reportedly left the hospital at 8:30 AM on 01/01/22. No replacement sitter arrived. [redacted] arrived at the hospital at about 12:30 pm.

On call DCS worker, [redacted], was at the hospital on Saturday night, 01/01/22, from 11:30 pm until 7:00 AM 01/02/22, to help with supervision until a sitter arrived.

Ms. [redacted] said she had observed that [redacted] always seemed detached from her child, [redacted] Ms. [redacted] also had concerns about [redacted] interaction with [redacted] in the hospital. She did not console him or comfort him. When the boyfriend arrived, he did comfort the baby. [redacted] boyfriend is [redacted].

Ms. [redacted] said [redacted] had not told them about [redacted] having any medical issues when the came into custody. She just recently told them that he had respiratory issues when he was born.

[redacted] was seen at [redacted] when he first came into DCS custody.

Ms. [redacted] had been concerned about [redacted] eyes when he first came into custody. He would not look at her and he would not follow with his eyes. His eyes were tested twice. The second time came back with no concerns.

CPS [redacted] discussed with Ms. [redacted] the missed therapy appointments. Ms. [redacted] said foster parent [redacted] had set up Zoom capability. [redacted] had a phone that she was to use to call in to the appointments. [redacted] did not want to

[redacted] FSW CPS [redacted] spoke with [redacted] by telephone on 01/03/22. Ms. [redacted] answered some questions for CPS [redacted]

Ms. [redacted] said [redacted] and [redacted] entered DCS custody in May, 2021. [redacted] had reported that she had been raped by an adult maternal cousin from the ages of 3 to 13. She reportedly had told her mother about the abuse, but her mother failed to protect her. That sexual abuse was investigated and the police issued a warrant for him. He fled to another state. [redacted] was also raped by a maternal uncle. Her boyfriend found the uncle raping her. He shot and killed the uncle.

[redacted] was pregnant ag age 13. It is unknown whether the cousin, the uncle, or the boyfriend is the father of [redacted] A paternity test was scheduled for later in January.

[redacted] and [redacted] were placed in the foster home of [redacted] ran from Ms. [redacted] home, with her baby, in July, 2021. She ran again, with her baby, at Thanksgiving 2021. DCS had a placement stability meeting to discuss separating [redacted] and her baby. It was discussed that she had put him at risk by running with him in the night when it was cold and rainy and she did not have proper warm clothing for him. [redacted] did not want to return to Ms. [redacted] home. Ultimately, [redacted] and her baby were kept together. They were in respite homes for 2 ½-3 weeks until they were placed in [redacted] foster home on 12/17/21.

When [redacted] and [redacted] entered custody, [redacted] was 2-months-old. [redacted] did not disclose that [redacted] had any medical problems. The had information that he had been seen at [redacted] Medical Center. TL [redacted] thought there was something wrong with [redacted] eyes. This concern was mentioned during [redacted] initial EPSDT. He was scheduled to see a neurologist on 8/11/21 and an ophthalmologist on 9/13/21. Foster parent [redacted] took [redacted] to the ophthalmologist appointment and she was supposed to take him to the neurologist appointment. It was determined that there was nothing wrong with his eyes. When FSW [redacted] asked Ms. [redacted] for the Health Services form from the

Case Status:	Close	Organization:	CPS Special Investigation

neurologist, Ms. [redacted] told her that she had cancelled the appointment. It was rescheduled for 1/13/22. FSW [redacted] was not clear on why [redacted] needed a neurology examination or why the first appointment had been cancelled.

[redacted] had been provided counseling services at the [redacted] County Child Advocacy Center. The FSW took her to her appointments during the summer. After school started, foster parent [redacted] asked for the appointments to be scheduled at 6:00 pm. The therapist agreed. [redacted] attended one or two appointments in person and then the appointments went virtual in September or October 2021. The therapist notified the FSW several times that [redacted] was not participating in therapy sessions. [redacted] wanted to change therapists. She said she did not think therapy at the CAC was helping her. [redacted] had an intake with [redacted] in December. Her first therapy appointment was scheduled for 01/06/22. FSW [redacted] would make sure she was taken to the appointment.

[redacted] had his 9-month checkup on 12/21/21. No medical problems were identified.

Ms. [redacted] said there was supposed to be a sitter, provided by DCS, with [redacted] around the clock. On 01/01/22, the overnight sitter left in the morning and no replacement sitter took her place. [redacted] of DCS, [redacted], is responsible for procuring sitters.

[redacted] boyfriend was not at the hospital until 01/01/22, after [redacted] was put on the ventilator and put in PICU.

, 12

CPS [redacted] went to the foster home of [redacted], TN [redacted] at 10:00 pm on 01/02/22. Ms. [redacted] was expecting CPS [redacted]

CPS [redacted] sat in the living room and spoke privately with [redacted] very quiet and she was not showing any emotion. She said that she felt safe in this foster home. CPS [redacted] told [redacted] that she would return the following day and talk to her about her baby.

Ms. [redacted] agreed for CPS [redacted] to return to her home to talk to [redacted] at 5:00 pm the following day.

Ms. [redacted] said she expected [redacted] to be with her at least until Tuesday, 01/04/22. Ms. [redacted] had been told that [redacted] could not be by herself and that she could not be alone with children. Ms. [redacted] said [redacted] did not have any medications.

Ms. [redacted] showed CPS [redacted] through the home. CPS [redacted] observed that [redacted] was sharing a bedroom with 17-year-old foster child [redacted]. The girls each had their own beds. CPS [redacted] observed 12-year-old foster child [redacted] bedroom, but [redacted] was in the restroom and CPS [redacted] did not get to see her. CPS [redacted] observed and spoke to [redacted] had her own bedroom.

The foster home was cluttered, but clean. There was adequate food in the home and the utilities were functional. Ms. [redacted] had bottles of Vitamin C, Acetaminophen, and Allergy and cold medication sitting on the kitchen counter. She had a lockbox for medication, but it did not appear to be big enough for all of the medication and she could not find the key to it.

[redacted] Dr. [redacted]

Narrative Details

Narrative Type: Original Entry Date/Time: 01/05/2022 02:47 PM Entered By: [redacted]

Dr. [redacted] Pediatric ICU
CPS [redacted] met with Dr. [redacted] at [redacted] Childrens Hospital on 01/02/22. Dr. [redacted] advised that the hospital had done a full battery of tests each time the hospital was admitted, on 12/27/21 and 12/30/21. Everything, including echocardiograms were normal each time. The doctors found no medical cause for the child to go into cardiac arrest.

The child was being discharged home on 01/01/22. He was not on a monitor due to his pending discharge. His mother had reportedly been alone with him for about 10 minutes when he coded. (It was Dr. [redacted] understanding that a sitter had stepped out for 10 minutes.) The child coded for 17 minutes while they worked to revive him. They do not know how long he was coding before the mother notified them. Labs after this incident were very bad. The decision was made not to escalate care. The child was put on a ventilator and moved to the PICU.

An optho exam revealed bilateral retinal hemorrhages, chronic and acute. Dr. [redacted] explained to CPS [redacted] that this meant some were old and some were new. She said they did not typically date retinal hemorrhages. Dr. [redacted] said she did not thing the retinal hemorrhages would stand up as evidence in court because they could be the result of CPR.

The child was pronounced at 2:59 pm on 01/02/22. A full autopsy was requested.

Dr. [redacted] and the CARES team had been involved in the care of this child. This date was Dr. [redacted] last day to work at [redacted] Dr. [redacted] was the new CARES team doctor. [redacted]

Dr. [redacted] was not aware of the child having any prior medical conditions.

CPIT
Officer [redacted], [redacted] Police Department
Lt. [redacted], [redacted] Police Department
CPS [redacted] met with Officer [redacted] at [redacted] Hospital on 1/2/21. Officer [redacted] had already talked to PICU Dr. [redacted] Dr. [redacted] had told Officer [redacted] that the child stopped breathing on 12/30/21 and was subsequently hospitalized. He was going to be released on 01/01/22, but he went into cardiac arrest before he was discharged. Dr. [redacted] pronounced the child deceased at 2:59 PM on 1/2/21.

Lt. [redacted] arrived as CPS [redacted] was speaking with Officer [redacted] She communicated with the Medical Examiners Office while CPS [redacted] was in the room with her. Lt. [redacted] learned that the medical examiners investigator had already been to the hospital and that they were considering this an in-patient hospital death.

Lt. [redacted] communicated with her superiors and learned that, since this was considered an in-patient hospital death, Felony Response was not responding. Officer [redacted] was to file his initial report. Lt. [redacted] was not to take any further action.

CPIT would determine whether a [redacted] Police Department Investigator would be assigned.

Officer [redacted] provided to CPS [redacted] copies of medical reports from 12/27/21, 12/30/21, and 1/2/22 that he had received from the hospital social worker. Those reports will be documented separately.

[redacted] Social Worker at [redacted] Hospital
CPS [redacted] spoke with [redacted] by telephone on 1/2/22. She advised that the doctor had asked to her call the police regarding the death of [redacted]

The doctor's were suspicious that abuse might have occurred had that there was 'possible non-accidental trauma'.

The CARES team had planned to convene on this date, but the child died before they could meet. Ms. [redacted] thought the CARES team might meet the following day.

CPS [redacted] advised that she was in route to [redacted] Hospital. She asked Ms. [redacted] to provide her contact information to law enforcement when they arrived.

[redacted] SIU TL [redacted] FSW [redacted] FSW [redacted] on call FSW [redacted] TL [redacted] contacted CPS [redacted] by telephone on 1/2/22 to notify of an investigation involving the death of the child [redacted] at [redacted] Hospital. The child was 9-months-old. He and his 15-year-old mother, [redacted] had been in DCS custody since 5/24/21. They had been in their current foster home for 16 days. That was the DCS foster home of [redacted], [redacted] TN [redacted].

[redacted] was first taken to [redacted] Children's hospital on 12/27/21 after his mother said he had stopped breathing. The child was alert with no known medical problems. He was discharged on 12/28/21. On 12/30/21 the child reportedly stopped breathing again and he had a seizure. He was transported to [redacted] by EMS, where he had another seizure. The child was put on seizure medication and was doing well. He was to be discharged on 1/1/22. His mother was dropped off at the hospital to learn how to give him his medications. While his mother was alone with him in the hospital room, [redacted] stopped breathing again. He was resuscitated by medical staff, but he had to be put on a ventilator. He was moved to Pediatric ICU. [redacted] had cardiac arrest on 1/2/21 and was pronounced deceased.

[redacted] did not have any visible injuries. Hospital staff reportedly suspected abuse.

[redacted] foster mother will not allow her to return to the foster home.

FSW [redacted] could be reached at [redacted].

The intake came to the hotline from foster care. The hospital was also going to make a report.

CPS [redacted] spoke with FSW [redacted] by telephone and confirmed the details of the intake.

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	CPS Special Investigation

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
[redacted] and [redacted] are both currently in DCS custody. [redacted] is currently located at [redacted] Hospital at 848 Adams St, [redacted] TN 38103.

[redacted] was initially admitted to the hospital on 12-27-21 and according to [redacted] brought [redacted] into their room and stated he wasnt breathing, and his eyes had rolled back into his head. At that time [redacted] started CPR and called 911. EMS arrived and according to [redacted] they took him to [redacted] They decided to admit [redacted] It was reported tests were ran (unknown what type) but they couldnt find anything wrong with [redacted] was alert and awake after the tests were ran. There were no injuries apparent on [redacted] this day.

On 12-28-21 [redacted] reported that [redacted] was discharged, and they went home. On 12-30 [redacted] was admitted again. [redacted] stated that the same thing happened again where [redacted] stopped breathing and his eyes rolled back. This time when EMS arrived [redacted] started having seizures. Once [redacted] got to the ER [redacted] had another seizure. More tests were ran (unknown what type). On 12-31-21 they were getting ready to discharge [redacted] [redacted] said no and asked if they could watch him for one more night and they agreed. On 01-01-21 [redacted] and [redacted] were on their way back to the hospital and the hospital called saying [redacted] was doing well and he was given seizure medication (unknown what kind) and it would be sent to Walgreens. [redacted] stated she was going to drop [redacted] off and asked staff to show her how to do the medication. About 30-40 minutes later [redacted] called [redacted] and stated [redacted] stopped breathing again. According to the doctor they worked on [redacted] for 30 minutes until they found a faint pulse. At that time [redacted] was taken to the PICU. At that time [redacted] was placed on a ventilator. As of today, 01-02-21 [redacted] was pronounced dead. It is unknown what the time of death was. [redacted] will be going to the medical examiner to determine cause of death. It is unknown if law enforcement has been notified.

Yesterday [redacted] was a little emotional. Last night, [redacted] just had a blank stare on her face. [redacted] wasnt seen emotional anymore. [redacted] was just on her phone talking to [redacted] was going up to [redacted] and being loving towards [redacted] and supportive but [redacted] never did this. [redacted] doesnt have any other children.

Hospital staff is suspecting abuse or neglect at this time. Staff stated [redacted] was either shaken or thrown. Staff didnt mention any injuries. [redacted] doesnt know that the hospital is suspecting abuse at this time. There are currently sitters with [redacted] at the hospital. Last night [redacted] decided she no longer wanted [redacted] in her home. Currently [redacted] doesnt have anywhere to go. The FSW supervisor is going to be notified and next steps will follow.

-Are there any concerns for the safety of a Department of Childrens Services Case Manager responding to the childs home?
None

-Anything additional to add to this initial report for the responding worker to know prior to response?
The hospital is also going to be making a report. The doctor assisting with [redacted] is Dr. [redacted] phone number: [redacted].

Initial notification was sent to appropriate parties by the SIU Pool Reader.

Referral was sent to juvenile court per regional protocol.

All severe abuse referrals are sent to DAs office per regional protocol.

[redacted] Director of [redacted]
CPS [redacted] spoke with [redacted] by telephone on 01/18/22 regarding sitter services provided at [redacted] hospital for [redacted] Ms. [redacted] said sitter [redacted] had been sitting with [redacted] at [redacted] on 1/1/22. Her shift was not to end until 6:00 pm. Ms. [redacted] notified Ms. [redacted] that a nurse told her that the child was being discharged and that a sitter was no longer needed. It was approximately 8:30 am at the time. Ms. [redacted] told Ms. [redacted] that DCS had not notified the service and that she was to remain at the hospital until the child actually discharged. Ms. [redacted] contacted Ms. [redacted] some time later and asked where she was. Ms. [redacted] said she had left the hospital because the nurse again told him that his services were no longer needed. [redacted] can be reached at [redacted].

Ms. [redacted] was notified later in the day by [redacted] of DCS that no sitter was at the hospital. Ms. [redacted] sent sitter [redacted] to the hospital. By that time the child had been moved to the ICU. Ms. [redacted] remained with the child until he died. She then remained with the child's mother, who is in DCS custody, until DCS picked her up from the hospital.

Ms. [redacted] advised CPS [redacted] that her sitters are trained not to leave the hospital until DCS or a caregiver leaves with the child.

Ms. [redacted] had been notified of reports that [redacted] had a boyfriend with her while she sat with the child in the ICU. Ms. [redacted] spoke with Ms. [redacted] about the matter. Ms. [redacted] said the man, who was another sitter for the service, had brought her a meal. That man was fired because there is a company policy that only one sitter at a time can be in the hospital room.

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

pathological diagnoses of "retinal hemorrhages, acute and bilateral, acute hypoxic-ischemic changes, slight brain swelling, and slight cranial intradural hemorrhage".

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

Initially an alleged perpetrator was not identified, however, after the autopsy came back it was determined the mother would be added as an AP. the mother, [redacted] whereabouts are unknown at this time.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

N/A

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

DCS policy Work Aid 1 (G) defines the following criteria for Abuse Death:
1. Any child death caused by abuse or neglect.
2. Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
3. Any child death caused by abuse or neglect resulting from the parent or caretaker's failure to stop another person's direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
