Yes, Medical Center (County) and to the residence located at TN (County).

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
Law enforcement was dispatched to the helicopter pad in TN (County) on an unresponsive 7-day old. Upon arrival, EMS had the infant in the ambulance and one of the workers stated they had been dispatched to the address of , TN (County) on an unresponsive infant. After speaking with EMS personnel, officers observed the infant to have several holes on the left side and left rear side of the head consistent with dog bites. The infant was also observed to have a place in the front left side of the head that seemed to be pushed in. The infant's body had numerous bruises on the chest area near the belly, bruises on the face, bruises on the arms, and there was bleeding out of the head from the dog bites. The bruises were purplish and appeared to be pretty fresh. It was learned by officers that the event occurred at the residence located at where the infant had been living with and Officers left the location of the helicopter pad in and proceeded to the residence. No one was at the residence when officers arrived. While officers were knocking on the door, showed up in a black Mitsubishi 4-door vehicle. She was asked who all lived in the residence and stated it was her, and another adult female, all lived in home. It's reported that also owns a home located , TN (TN). It was determined by officers that is the owner of the black and white Pitbull that is responsible for the bites to the child. left the scene with the dog and had to be called to come back to the scene. She has returned to the home and brought the dog back. DCS CM has already responded to the scene and is present at this time.

On [redacted] 6, 2022, the Department of Childrens Services (DCS) received a referral with the allegation of Abuse Death concerning Alleged Child Victim (ACV) [redacted] (DOB: [redacted]; 8 days) with the Alleged Perpetrator listed as Unknown. The investigation was assigned to Case Manager (CM) [redacted] by Team Leader (TL) [redacted] The case was worked in conjunction with the [redacted] County Sherriffs Department, Detective [redacted]

At the time of the alleged incident, ACV [redacted] resided with custodian, [redacted] was placed with Ms. [redacted] after birth through an open CPS investigation concerning allegations of Drug Exposed Child regarding the birth parents, [redacted] and [redacted] An IPA was completed with Ms. [redacted] who resides in the home of [redacted] It was unreported to DCS that other individuals, [redacted] and [redacted] were also staying at the home.

The referral stated that law enforcement was dispatched to the helicopter pad in [redacted] on an unresponsive 7-day old. After speaking with EMS personnel, officers observed the infant to have several holes on the left side and left rear side of the head consistent with dog bites. The infant was also observed to have a place in the front left side of the head that seemed to be pushed in. The infants body had numerous bruises on the chest area near the belly, bruises on the face, bruises on the arms, and there was bleeding out of the head from the dog bites. The bruises were purplish and appeared to be fresh.

[redacted] was pronounced deceased on [redacted] 6, 2022, at 1:34 pm.

On [redacted] 6, 2022, CM [redacted] interviewed [redacted] at the home. Ms. [redacted] was also interviewed on [redacted] 22 and [redacted] 26, 2022, by Lieutenant [redacted] with the [redacted] County Sheriffs Department, and Special Agent [redacted] with the Tennessee Bureau of Investigation Ms. [redacted] reported that [redacted] had only been in her custody for 3 days. Ms. [redacted] reported that the only residents of the home were herself and [redacted] She reported that custody was given to her by DCS. Ms. [redacted] reported that DCS was unaware that [redacted] and [redacted] were staying in the home as when custody was given to her, it was reported that she and [redacted] were the only residents in the home. Ms. [redacted] reported that the dog that bit [redacted] belonged to [redacted] and was not here when DCS

placed custody with her.

Ms. [redacted] reported working the previous evening from 6:00 pm-4:30 am. She arrived at the home around 6:00 am. When she arrived, [redacted] was in the bassinet asleep. Ms. [redacted] reported that she fed and changed [redacted] and took her in her room. Ms. [redacted] was in her bed and [redacted] was in the bassinet. Around 12:00 pm, Ms. [redacted] came in and asked to get [redacted] Ms. [redacted] told Ms. [redacted] that they were fine and continued to sleep. Ms. [redacted] reported that she later woke up to Ms. [redacted] holding [redacted] and her saying that [redacted] was bleeding and that the dog had scratched her. Ms. [redacted] reported that she immediately ran into the living room and called 911.

On [redacted] 6, 2022, [redacted] the homeowner, was interviewed by Detective [redacted] and [redacted] was interviewed by Detective [redacted] outside the family home.
When Ms. [redacted] and Ms. [redacted] were interviewed, they reported Ms. [redacted] was preparing to feed [redacted] because [redacted] had woken up and Ms. [redacted] was still asleep. Ms. [redacted] placed [redacted] on the couch and began fixing her bottle. While she was making a bottle, both dogs came to her wanting to go outside. Ms. [redacted] reported that she went to the sliding door and let the dogs out of the home. She stood on the porch while the dogs went to the bathroom. The large pit bull came back inside the house and went to his kennel while she stayed on the porch to watch the second dog. When the second dog came back inside the residence, she checked on [redacted] on the couch and went back into the kitchen to finish making the bottle. Ms. [redacted] reported that Ms. [redacted] was sitting on the couch near [redacted] Ms. [redacted] reported that while Ms. [redacted] made the bottle, Ms. [redacted] asked her to watch [redacted] while she went to the bathroom. Ms. [redacted] stated that she was gone for approximately two minutes, and when she came back the dog was on the couch standing over [redacted] Ms. [redacted] reported that she slung the dog off [redacted] Ms. [redacted] and Ms. [redacted] then began to wash the blood off [redacted] at the kitchen sink. Ms. [redacted] came into the room and called 911. EMS arrived a short time later.

On [redacted] 07, 2022, an autopsy was completed on ACV [redacted] by [redacted] MD, Regional Forensic Center, [redacted] TN. The report indicated the cause of death was blunt force injuries to torso and the manner of death was classified as homicide. Law enforcement spoke with Dr. [redacted] who did confirm that based upon her medical expertise, she did not feel that the dog could have killed the child, and that the cause of death was blunt force injuries caused by another human.

Law enforcement conducted follow up interviews with each of the parties in the home April 16, 2022, and again, all parties deny harming or witnessing anyone harm [redacted] Ms. [redacted] was not able to take a polygraph due to some of her medication for heart issues, and Ms. [redacted] had a stroke in the past, and due to pain was not able to sit comfortably for a polygraph. Therefore, polygraphs were never scheduled.

In 2023, The District Attorneys office reached out to the [redacted] engineering department to see If they could give an idea on the probability of if the weight and force exerted from the dog was enough to cause the blunt force trauma which resulted in the death of the child. At this time, the answers to this still remain inconclusive.

On May 19, 2025, CM [redacted] presented the case to [redacted] County Child Protective Investigative Team (CPIT). The team agreed to classify the case as Allegation Substantiated, Perpetrator Substantiated for the allegation of Abuse Death on an unknown perpetrator. Law Enforcements case remains open.

On July 28, 2025, CM [redacted] presented the case to [redacted] County Child Protective Investigative Team (CPIT) to also add Lack of Supervision allegations to each of the parties in the home. This allegation was classified as Allegations Substantiated, Perpetrator Substantiated on all adults who were residing in the home at the time of [redacted] death.

Per DCS Policy Work Aid 1 Section E:
Child death is defined as:
a) Any child death caused by abuse or neglect

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Lack of Supervision
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).
c) Any registered sex offender residing in the home with unrelated minor children or victim of offender and/or caregiver knowingly resides with and/or allows children to be unsupervised with a registered sex offender.

There is a preponderance of evidence to support the allegation Abuse Death against Unknown Perpetrator on ACV [redacted] There is a preponderance of evidence to support the allegation of severe Lack of Supervision against [redacted] and [redacted] on ACV [redacted]

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leader (TL) [redacted] Also present was Team Coordinator (TC) [redacted], Statewide CPS Director (SCPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 4/7/22 concerning the death of ACV [redacted] (7 days). [redacted] was placed with her current custodian [redacted] after birth through an open CPS investigation concerning allegations of Drug Exposed Child. The placement was necessary due to safety concerns regarding the birth parents [redacted] and [redacted] The mother was positive for meth and opiates upon delivery of [redacted] on [redacted]. The parents also appeared to be transient. An IPA was completed with Ms. [redacted] who resides in the home of [redacted] The placement was approved following background checks and walkthrough. It was unreported that another individual [redacted] dog owner] was also staying at the home.

CM received call from LE regarding a 7-day old bitten by a dog, then informed ACV passed away. Ms. [redacted] reported coming home from work and [redacted] being in the care of Ms. [redacted] that morning. Ms. [redacted] reported she laid down and the baby was in the bassinet beside the bed. She reported later in the morning Ms. [redacted] came to the house at some point and around 12pm came into the room and asked if she could get [redacted] and Ms. [redacted] stated no, shes sleeping. Ms. [redacted] reported Ms. [redacted] must have gotten the baby anyway, as she woke up later to Ms. [redacted] standing in the doorway stating [redacted] was bleeding and the dog had scratched her.

When Ms. [redacted] and Ms. [redacted] were interviewed, they reported Ms. [redacted] was preparing to feed baby because she had woken up and Ms. [redacted] was still asleep. Ms. [redacted] was holding [redacted] on the couch and put her down and asked Ms. [redacted] to watch her while she went to the bathroom. Ms. [redacted] maintained line of sight with [redacted] lying on the couch. When Ms. [redacted] came pack from the bathroom she screamed, and Ms. [redacted] looked over and the dog had [redacted] head in its mouth. Ms. [redacted] woke at this point and immediately called 911. They reported taking the baby to the sink to wash the blood of her face and EMS arrived shortly after. [redacted] was unable to be stabilized and passed away.

CM has been unable to contact the parents despite numerous attempts through other family members. LE completed a

search warrant of the house where marijuana was found. Blood drawls were completed on the adults. The parents had no other children and no other minors resided in the home.

Next Steps:
-- CM will request medical records for ACV, to include birth records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS, to include blood drawl results.
-- CM will continue efforts to locate and engage the birth parents.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

The Child Protective Investigative Team (CPIT) was convened on this date via phone. CM [redacted] spoke with Detective [redacted] with the [redacted] County Sheriffs Department who reported that the Criminal Investigation Division had been requested to respond to the scene of a 7 day old infant who had been allegedly bitten by a pit bull. Detective [redacted] reported that [redacted] was attempting to fly the child out to [redacted] Hospital, however, they were not able to get her stable and she was already deceased. Detective [redacted] reported that the child had been removed from her birth parents by DCS, and had been placed with her current custodians. He reported that he was currently headed to the home of the custodians, and requested that CM [redacted] meet him at the house.

A copy of the CPS Intake will be emailed to the District Attorney's Office in [redacted] County, [redacted] County Childrens Advocacy Center, [redacted] County Sheriffs office and [redacted] County Juvenile Court. CM will meet response and continue all other investigative tasks alongside with law enforcement.

This is still an open investigation. According to case notes, [redacted] did admit to using methamphetamine and hydrocodone while pregnant with [redacted]

Reporter states:
Law enforcement was dispatched to the helicopter pad in [redacted] TN ([redacted] County) on an unresponsive 7-day old. Upon arrival, EMS had the infant in the ambulance and one of the workers stated they had been dispatched to the address of [redacted], [redacted] TN ([redacted] County) on an unresponsive infant. After speaking with EMS personnel, officers observed the infant to have several holes on the left side and left rear side of the head consistent with dog bites. The infant was also observed to have a place in the front left side of the head that seemed to be pushed in. The infants body had numerous bruises on the chest area near the belly, bruises on the face, bruises on the arms, and there was bleeding out of the head from the dog bites. The bruises were purplish and appeared to be pretty fresh. It was learned by officers that the event occurred at the residence located at [redacted] where the infant had been living with [redacted] and [redacted] Officers left the location of the helicopter pad in [redacted] and proceeded to the residence. No one was at the residence when officers arrived. While officers were knocking on the door, [redacted] showed up in a black Mitsubishi 4-door vehicle. She was asked who all lived in the residence and stated it was her, [redacted] and another adult female, [redacted] all lived in home. Its reported that [redacted] also owns a home located [redacted], [redacted] TN [redacted] ([redacted] TN). It was determined by officers that [redacted] is the owner of the black and white Pitbull that is responsible for the bites to the child. C. Disposition Decision

Disposition Decision: Assessed and Closed

Comments: The allegations of lack of supervision will be classified as allegation substantiated, perpetrator substantiated on all parties in the home. The allegation of abuse death will be classified as ASPS on an unknown perpetrator. The child was unsupervised long enough for the dog to bite her head, and have blunt force trauma to her torso which ultimately resulted in her death. If the child had been supervised appropriately, this would not have occurred. The medical examiner, Dr. [redacted] reported that based off of the autopsy, she did not feel the dog had killed the child, but that the cause of death was blunt force trauma to the torso that would have been caused by a human. Despite all the parties in the home being interviewed multiple times, an alleged perpetrator has not been able to be identified at this time. Law Enforcement's case remains open. This case has been presented to CPIT, and everyone is in agreement with the classifications.
