-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (6 months), [redacted] (7), [redacted] (8) and [redacted] (2/spelling unknown) reside with their step grandmother/legal guardian [redacted] and grandfather/legal guardian [redacted] in [redacted] County. Their mother [redacted] (29) and her paramour [redacted] (24) reside in [redacted] County. [redacted] is not believed to be the father to any of the children. [redacted] father is unknown. The mother reported to law enforcement that she does not know who his father is. The father(s) is/are unknown for the other children.

The mother has temporary custody on the weekends. She has [redacted] on the weekends. It is believed

Tennessee Department of Children's Services

that she has all the children on the weekends as they were all with her today (12/04/2022). It is believed the step grandmother was heard stating the mother has visitation Friday through Sunday.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call? No. DCS is already on scene. The CM advised law enforcement to contact the CAH. It is believed the CM's name is [redacted] DCS CM [redacted] (contact unknown) will have the name of the responding CM.

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
On 12/04/2022, [redacted] Police department received a medical call of a 6 month old in cardiac arrest at 10:56am at the [redacted] Room [redacted] ([redacted], [redacted] TN). While en route, the caller, believed to be [redacted] had stated that they did not know CPR and [redacted] was cold to the touch. Upon law enforcement arrival, [redacted] was laying on the bed face up, with clear signs of being deceased. He was discolored, cold to touch and stiff. There does not appear to be signs of foul play. The mother, her paramour [redacted] and all 3 children were in the room. The mother stated that [redacted] woke up and found [redacted] to be unresponsive. [redacted] [redacted] and [redacted] were all sleeping in the same bed. It was a full-size bed. [redacted] had a barrier with a comforter to keep him from rolling off. [redacted] was positioned toward the foot of the bed where he was asleep on his stomach. [redacted] found [redacted] in this position. He tried waking [redacted] up while [redacted] was still on his stomach. [redacted] was not responding. This is when [redacted] picked him up. It is unknown why [redacted] tried waking [redacted] up. It is unknown if [redacted] was aware that [redacted] was deceased. It is unknown if [redacted] was able to see discolored while he was laying on his stomach. EMS and law enforcement arrived on scene at the same time. EMS hooked [redacted] up to the defibrillator. It read code zero at 11:03am. Once it was indicated, the detective was called to the scene for an investigation. The detective is lieutenant [redacted] ([redacted]). It is unknown at this time if [redacted] death is from abuse or neglect. Co-sleeping could be the cause of his death. There is a chance that his medical condition could be the cause of his death. [redacted] was dealing with a respiratory infection. He had several medical problems. He was premature. He was born 4 weeks early. He had hydrocephalus. [redacted] was deemed disabled due to the hydrocephalus. It is believed Hydrocephalus causes seizures. He was on Keppra for seizures. It is a generic brand. He has a home therapist. The therapist is unknown. They have been switching him back and forth to different formulas, trying to find one for his digestion. His physician is Dr. [redacted] ([redacted]) at [redacted] Health in [redacted] TN.

The hotel room had 2 full size beds. According to the mother, the mother and [redacted] were in the other bed. [redacted] reported to the other officer, [redacted] that the mother and [redacted] were sleeping in the other bed. The reason they were staying at a hotel is due to "drama." The mother reported that her ex (unknown) resides on her same road. [redacted] was uncomfortable staying there due to the mother's ex. The reason [redacted] is uncomfortable about the mother's ex is unknown. It is believed the mother stated that her ex's last name is [redacted] It was not very clear as the mother was emotionally "all over the place" due to the circumstances. She did not appear to be under the influence. It is unknown if there is a history of drugs, alcohol or domestic violence in the home as the mother's criminal history has not been checked. The mother reported that there have not been any previous instances of a child fatality or children suffering serious injuries in the family or in the home. It is unknown why the mother does not have full custody of her children. The mother has a history with DCS. The details are unknown. There is currently an open case. The DCS CM is unknown. The responding DCS CM from today is not the open DCS CM. The step grandmother reported that the mother was on her way to getting her children back into her custody.

[redacted] was transported to [redacted] Forensic Center. It is 99.9% believed that an autopsy will be performed, but it is unknown. The family was still at [redacted] but it is believed they were leaving. It is believed the children are going back to the grandparents' house.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home? No

-Anything additional to add to this initial report for the responding worker to know prior to response? No

Team Leader (TL) [redacted] re-staffed this case with Case Manager (CM) [redacted] Since the last staffing there have been a couple of screen outs that CPS CM [redacted] in [redacted] did follow up on, engage and observe the children as well as engage the mother with no reported concerns. The children have been seen at the time of the new referrals to have no marks or bruises. The mother has not been observed to be impaired and has submitted to random drug screens and been negative. The case is justified to be overdue due to being a death investigation. The autopsy report is pending. The grandparents, [redacted] and [redacted] continue to have custody of the children. The mother, [redacted] has unsupervised visits with the children per court order. The father, [redacted] and the mother's paramour, [redacted] are ordered to have no contact with the children. CM [redacted] will continue to monitor the situation and engage the children monthly. The mother has acquired a home but it is still in need of maintenance. CM [redacted] reported that the adjudicatory hearing is set for 3/16/23 in [redacted] County Juvenile Court.

Team Leader (TL) [redacted] re-staffed this case with Case Manager (CM) [redacted] CM [redacted] reported that all hair follicle test results have been received. The mother, [redacted] and children, [redacted] and [redacted] were positive for Methamphetamine and Amphetamine and [redacted] was negative. CM [redacted] has maintained contact with the family. There have been screen outs since receiving this case alleging physical abuse and drug use and none have been founded so far on the screen outs received. The children have not been observed to have any marks, bruises, or injuries. CM [redacted] engaged legal and the mother can submit to random drug screens but Ms. [redacted] attorney will need to be notified before hand. TL [redacted] did staff with legal to restrict the mother once learning of the hair follicle results but due to the mother having a negative urine screen at court, this was not an action taken. The autopsy results are pending and case will continue to be monitored pending autopsy results. CM [redacted] reported having no safety concerns at this time. CPS CM [redacted] did conduct a follow up on 2/6/23 after receiving a referral alleging that the mother was smoking meth on 2/6/23 and provided the meth pipe to the minor child, [redacted] causing [redacted] to fall off the porch and break his arm and elbow. [redacted] was observed to have no marks, bruises, or injuries and appeared to be well when observed. Ms. [redacted] was not observed to be impaired and submitted to a random drug screen and was negative.

Team Leader (TL) [redacted] re-staffed this case with Case Manager (CM) [redacted] CM [redacted] reported that the family attended court on 1/4/23 regarding the restraining order against the mother, [redacted] paramour, [redacted] and supervised visits with no overnights with the mother. Some concerns came up that the grandparents, [redacted] and [redacted] have violated the court order at which time Mr. and Mrs. [redacted] reported that Mr. [redacted] showed up at church one Sunday and [redacted] did run up to him. CM [redacted] explained to Mr. and Mrs. [redacted] that no contact means no contact and they need to work to ensure that this isn't violated. Mr. [redacted] and Ms. [redacted] was also engaged. CM [redacted] engaged Mr. and Mrs. [redacted] to ensure that they are willing to continue to be the custodians for the children and they both stated that they were in agreement to be a long term placement but do need assistance with daycare for [redacted] CM [redacted] will engage the family about the Relative Caregiver Program. Mr. and Mrs. [redacted] asked if Ms. [redacted] mother could baby-sit and CM [redacted] reported that she conducted a TFACTS check and didn't find any substantiations and explained to Mr. and Mrs. [redacted] that they are the custodians and whoever they use for child care was up to them but to know that it needs to be an appropriate individual or facility as they would be held responsible. CM [redacted] reported that court was reset to 1/12/23. CM [redacted] reported that [redacted] hair follicle results came back and were negative. CM [redacted] reported that all hair follicle CSR's have been approved and they are still waiting on [redacted] and Ms. [redacted] test to be completed. A screen out came in on the children and family which was addressed as the children were observed on the date of the screen out referral to have no marks or bruises and CM [redacted] has been to the home and observed no concerns with the home. CM [redacted] will continue to staff this case with supervision.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leader (TL) [redacted] Also present was Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted]

The CPS investigation was assigned on 12/5/22 concerning the death of ACV [redacted] (6mo). It was reported [redacted] resided with his birth mother [redacted] three siblings [redacted] 2yo, [redacted] 7yo, and [redacted] 8yo], and the mothers boyfriend [redacted] The family was staying at an [redacted] hotel at the time of the incident. The children are in the legal custody of their step-grandmother [redacted] but were allowed unsupervised visits with the mother, with a weekend visit occurring at the time of the incident.

CM received the referral on 12/4/22 stating ACV [redacted] had died at the [redacted] in [redacted] The mother reported she was living with her boyfriend of one month; however, he resides on the same road as the father [redacted] of [redacted] who is a substantiated perpetrator with a no contact order within a separate CPS case involving the family at this time. The mother stated the children did not feel safe staying in Mr. [redacted] home so close in proximity to Mr. [redacted] so they decided to utilize the hotel for her weekend visit with the children. The mother stated [redacted] was born at 26 weeks and in the NICU for 3 months, with several health issues including meningitis, GBS, right frontal lobe bleed, hydrocephalies, and seizures. [redacted] was reportedly prescribed Keppra twice daily to treat the seizures. On 11/28/22 it was reported [redacted] was diagnosed with bronchiolitis and was supposed to have a follow-up for this on 12/5/22. The mother reported the family checked into the hotel between 9:30-10pm on 12/3/22. The mother reported lying down and falling asleep with [redacted] around 10:30-11pm on one bed, with the other children in the other bed with Mr. [redacted] Mr. [redacted] reported going to bed around 2am after watching a movie with [redacted] At that time [redacted] was sleeping at the foot of the bed on his stomach, with a pacifier in his mouth, and the left side of face resting against the bed. Mr. [redacted] reported waking around 4am to [redacted] crying because the pacifier had fallen out of his mouth. Mr. [redacted] reinserted the pacifier and they went back to sleep. The mother reported she woke between 10-11am to get ready for checkout. When she went to wake [redacted] she noted his face appeared blue in color and that he

wasnt beathing. She alerted the boyfriend and reported [redacted] picked up [redacted] to wake him and try to get a response, which was unsuccessful. The boyfriend called 911. The mother reported [redacted] was on Keppra twice daily and had been administered it as prescribed the prior day while at the boyfriends house.

CM interviewed the 7yo and 8yo siblings with no disclosure of abuse or neglect except against [redacted] which was previously mentioned and investigated by DCS. Drug screens were completed on the mother and boyfriend. The mother was negative for all substances. The boyfriend was positive for methamphetamine and ecstasy. A no contact was put into place against the boyfriend and hair follicles were submitted for all three children and the mother. The mother was restricted to supervised visits with no overnights. It was discussed the children were previously removed from the mother in 2017 due to drug use [methamphetamine] after which she moved in with her mother and stopped using drugs and the children were returned in 2018. The mother reports she has been clean since that time; however, the children were removed again in 2022 due to the mother being homeless. The mother has worked services to get the children back and had completed parenting classes a week prior to this most recent incident. LE is waiting on autopsy results/toxicology to determine if any charges will be filed. The children remain in the care of the grandparents at this time with the mother having supervised contact. The children are already receiving therapy through the CAC from the previous CPS case and the mother has access to grief counseling through the service provider with whom she recently finished parenting classes.

Next Steps:
-- CM will request ACVs medical records to include birth and PCP records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS. And follow-up with LE regarding autopsy/charges.
-- CM will complete hair follicles on the children and mother.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Mr. [redacted] have been together for approximately one month.

On 12/4/22 [redacted] Police Department, Det. [redacted] and Chief [redacted] responded to a child death at the [redacted] in [redacted] TN. 911 was called by the mother's paramour, Mr. [redacted] at 10:57 am. EMS pronounced [redacted] deceased at 11:03 am. [redacted] was transported from the [redacted] to the Regional Forensic Center in [redacted] TN on this date for autopsy.

Per Ms. [redacted] was born at 26 weeks gestation, in the NICU for 3-months, and was diagnosed with Meningitis and GBS causing a right frontal lobe bleed. [redacted] also developed Hydrocephalus and developed seizures and is prescribed Keppra twice a day and his last dose was on 12/3/22. [redacted] was last seen at [redacted] Health on 11/28/22 and diagnosed with Bronchiolitis and was scheduled to have a follow up appointment on 12/4/22 with a neuro appointment at [redacted] on 12/7/22.

CPS CM [redacted] responded to the scene and engaged all children and adults. CM [redacted] reported that neither Mr. [redacted] nor Ms. [redacted] were observed to be impaired. Both submitted to urine drug screens. Ms. [redacted] was negative and admitted to meth use approximately 5-years ago. Mr. [redacted] denied drug use and was positive for Meth, Amp, and MDMA and continued to deny use. Ms. [redacted] denied ever seeing Mr. [redacted] use drugs. A timeline was obtained from Mr. [redacted] and Ms. [redacted] Both reported separately that they checked into the [redacted] on 12/2/22 with all children except for [redacted] who wanted to stay with the grandparents, [redacted] and [redacted] Ms. [redacted] reported that she doesn't have a home of her own and had been staying with the grandparents but she and her mother got into an argument so she left and she typically gets the children on Fridays and takes them back on Saturday afternoons. Both reported that they rented the motel room because Mr. [redacted] resides on the same road as Mr. [redacted] who has a no contact order against him and [redacted] is scared that she may see him since he lives on the same road. The family reported playing at Mr. [redacted] home twice on the day of 12/3, went to eat, went to a couple of different locations in [redacted] County to get free coats and shoes, cashing a child support check. Both reported that on 12/3/22 that they checked back in around 10:00 pm, got something to eat, watched a movie, and went to bed. Ms. [redacted] went to bed early with [redacted] as she was complaining of an earache. Mr. [redacted] reported that he, [redacted] and [redacted] slept in the other bed with [redacted] sleeping on his left side due to having a shunt on the ride side. Both reported that [redacted] was last fed when they checked in to the motel and per Mr. [redacted] he put [redacted] to bed with his pacifier around 2 am, he woke up crying at 4 am, he put the pacifier back in his mouth and he went back to sleep. Between 1030 and 11 am this morning, Ms. [redacted] noticed [redacted] looked blue and found that he was not breathing. Ms. [redacted] began to scream waking everyone up and prompting Mr. [redacted] to call 911. Det. [redacted] and Chief [redacted] reported that the room appeared to be trashed no longer than the family had been there with lots of food bags and trash but there was no evidence of drug or alcohol use. Both reported observing no signs of trauma to [redacted] or the other children. At this time, abuse doesn't appear to be suspected.

Mr. and Mrs. [redacted] were engaged and did confirm [redacted] health issues as well as allowing the mother to be with the children unsupervised on Friday and Saturdays.

Mr. [redacted] is currently on probation for Aggravated Assault for 3 years and reports he was accused of pulling a gun on someone but said that he didn't but felt that taking a plea with a diversion would be better for him since it will come off of his record once he completes probation.
Ms. [redacted] has a Domestic Assault charge from 2013 but successfully completed probation. Ms. [redacted] reports that she completed parenting classes with [redacted] last Tuesday but still doesn't have a stable home.

[redacted] and [redacted] were all engaged and observed to be clean and healthy with no visible marks or bruises. [redacted] and [redacted] made no disclosures of alcohol or drug use, abuse or neglect against Mr. [redacted]
