Reporter's Name/Relationship: [redacted]

-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (2) and [redacted] (3 months old) live with their parents, [redacted] and [redacted] in [redacted] County. The father is called [redacted] The couple is not legally married, but [redacted] is the father to both children.

-Does the child have any special needs or disabilities?
The children do not have any known special needs or disabilities.

-Please describe in detail what has prompted your call today.
Law enforcement was called to assist EMS for CPR on a child and then the call was changed to a choking child and then back to unresponsive/request for CPR. When law enforcement arrived at the home, [redacted] was found on the stairwell and neighbors were trying to perform CPR on him. [redacted] was covered in his own vomit. EMS arrived at this time and due to the small amount of space in the area on the stairwell, the responding officer grabbed him up and took him to the ambulance. EMS took over his care at that time. The responding officers went back to the child's parents and asked if there were any drugs or prescription medications out in the home that the child could have gotten into. [redacted] said no. His mother, [redacted] was too upset to respond. She had been shopping at Walmart and [redacted] called her before he called 911. She arrived at about the same time law enforcement arrived. His father, [redacted] said that he gave the child a bite of his tuna sandwich and he then went to the bathroom. [redacted] said when came back from the bathroom, he saw [redacted] lying in the floor watching television. [redacted] said he thought [redacted] was asleep. He had been previously sitting on the floor watching television. [redacted] said he went to check on the other child, [redacted] and when he went back to check on [redacted] he was unconscious.

Neighbors heard [redacted] start screaming for help and they went outside and found [redacted] and [redacted] outside on the stairwell. Neighbors said that [redacted] was unconscious and turning blue. Neighbors called 911 and started CPR. Law enforcement arrived about two minutes after they began performing CPS. After EMS had been working on [redacted] for about five to seven minutes, [redacted] had been talking to an officer and he said that the day before "a junkie" had been in the home and had been using fentanyl in the home. He then ran to the ambulance and suggested that the child be given Narcan. He was worried that the junkie had left a bag in the home and [redacted] had gotten into it. [redacted] did not remember the junkie's name. It is unknown if he allowed the junkie to use fentanyl in the home, but he was aware that he had used it in his home.

Detectives from the [redacted] Police Department interviewed [redacted] and the neighbors. At the time of the call to the hotline, [redacted] was listed in critical condition. He had a pulse and he was intubated. [redacted] said he thought that about eight minutes had lapsed between his going to the bathroom and his calling 911. It is unknown if [redacted] was without oxygen for eight minutes or if it was for a longer period of time. There was no odor of alcohol on [redacted] and it is not believed that he was under the influence of any substances. Officers did not know there was a second child in the home until additional officers arrived to help and cleared the home. [redacted] was found on the couch inside the home and was unharmed. He was turned over to his paternal grandmother. The paternal grandmother's name was not provided.

-Does the child have any injuries from the abuse or neglect?

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

It is unknown if [redacted] had any physical injuries to his body. He was unconscious and has been intubated at the hospital.

-When did the abuse or neglect occur?
May 5, 2023. The 911 call was received at 7:59 pm.

-Where did the abuse or neglect occur?
At the home address in [redacted] County.

-Has the child made a disclosure of the abuse or neglect?
The child was unconscious and is too young to make any statement.

-What do the child's parents/caregivers say about the abuse/neglect?:
[redacted] said he had given [redacted] a bite of a tuna sandwich before he went to the bathroom and that was the last thing he knew had happened before he realized the child was unconscious. [redacted] had been shopping at the time of the incident. She was hysterical and said, "I went shopping and my son is dead." She went to buy diapers for the children and when she arrived, she asked officers, "Is he dead?"

-Are there any concerns for Domestic Violence in the home that pose a danger to the child's safety?
They do not have any previous domestic violence charges or a domestic violence report made in the city.

-Is anyone in the home protective of this child? If yes, who?:
[redacted] is protective of the children. Her parents and [redacted] parents all responded to the home.

-Where is the child currently located?:
[redacted] is at [redacted] Children's Hospital in [redacted] TN. [redacted] is with his paternal grandparents.

-When will the alleged perpetrator have access to the child again? Is the child currently safe for the next 24 hours to 3 business days?:
[redacted] is in [redacted] at the hospital with [redacted] was at the home address when law enforcement left the scene. It is assumed that the children will be safe for the next three business days.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?:
There are no safety hazards in the home. There were no drugs found in the home when it was searched by law enforcement. The police report number on file with the [redacted] Police Department is [redacted].

CM Notation: Law enforcement is not requesting an immediate response.
Screener Notation: Intake [redacted] is screened out as a duplicate to this report.

Narrative Details

Narrative Type: Original Entry Date/Time: 08/15/2024 07:45 AM Entered By: [redacted]

On May 5, 2023, the Department of Children Services (DCS) received a referral with allegations of Drug Exposed Child regarding Alleged Child Victim (ACV) [redacted] (Date of Birth: [redacted]) and his sibling, ACV [redacted] The Alleged Perpetrator (AP) was listed as [redacted] (Father). During the course of the investigation, the allegation of Abuse Death was added regarding ACV [redacted] against APs [redacted] (Father) and [redacted] (Mother). The allegation of Drug Exposed Child was added regarding ACVs [redacted] and [redacted] against AP [redacted] (Mother). The case was assigned to Child Protective Services Case Manager (CM) [redacted] by Team Leader (TL) [redacted] Child Protective Case Manager (CM) [redacted] assisted in the investigation. The case was worked in conjunction with the [redacted] Police Department Detective [redacted] (age 2) resided in the home with his father [redacted] mother [redacted] and sibling, [redacted] (age 3 months).

On May 5, 2023, Law Enforcement and Emergency Medical Services (EMS) responded to the home of [redacted] and [redacted] for a choking child. When EMS arrived neighbors of the family had already started administering Cardiopulmonary Resuscitation (CPR) to [redacted] Due to lack of space one of the officers grabbed the child and took him to the ambulance. [redacted] was transported to [redacted] Childrens Hospital and intubated.

0n May 5, 2023, Officer [redacted] of the [redacted] Police Department interviewed [redacted] Mr. [redacted] reported that he gave [redacted] a bite of a sandwich and went to the bathroom and he believes that [redacted] choked on the piece of the sandwich. Mr. [redacted] reported that another male had been living in the home and had used Fentanyl the day or the night before.

On May 6, 2023, CM [redacted] interviewed [redacted] Ms. [redacted] reported that she had asked a friend to take her to the store to get diapers and wipes for [redacted] She had stopped to buy a vape and received a phone call from [redacted] to return home. When she arrived back home Emergency Medical Services (EMS) was performing Cardiopulmonary Resuscitation (CPR) on [redacted] Mr. [redacted] told her that he had given [redacted] a bite of his sandwich and went to use the bathroom and when he came out of the bathroom [redacted] was unresponsive on the floor. Ms. [redacted] reported there was a concern for Fentanyl exposure because a friend had stayed over and had used Fentanyl and there was a concern that [redacted] had got into something in the friends backpack. Ms. [redacted] would not give the name of the friend. Ms. [redacted] consented to a Urine Drug Screen and was positive for Fentanyl.

On May 6, 2023, CM [redacted] interviewed [redacted] Mr. [redacted] reported that he had made a sandwich and

Tennessee Department of Children's Services

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: [redacted] Region

had given a piece to [redacted] was dancing in front of the television and Mr. [redacted] went to the bathroom. When he came out of the bathroom [redacted] was on the floor and was unresponsive. Mr. [redacted] reported that he tried to get the food out of [redacted] mouth and started yelling for help and the neighbor called 911. Mr. [redacted] reported that [redacted] vomited when he was trying to the food out of his mouth. Mr. [redacted] consented to a Urine Drug Screen and tested positive for Fentanyl.
On May 6, 2023, [redacted] and [redacted] submitted to a urine drug screen and were positive for THC, Methadone and Fentanyl.
On May 11, 2023 [redacted] was pronounced deceased by Dr. [redacted] at 12:33am.

On May 16, 2023, an autopsy was completed on ACV [redacted] by [redacted] MD, [redacted] Regional Forensic Center, [redacted] TN. The report states that the cause and manner of death in this child death is based primarily on the medical record review and the best interpretation is that his death was caused by complications of choking (admission urine drug screen was negative for all substances including fentanyl.) The manner of death is listed as accident.

On October 26, 2023, this case was presented to [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were Department of Children Services [redacted] Case manager, Team Leader [redacted] Assistant District Attorney [redacted] Child Advocacy Center representative [redacted]r, Child Advocacy Center Forensic Interviewer [redacted] Juvenile Court team member [redacted], Mental Health Team Member [redacted], and Detective [redacted] The team was in agreement that there was not a preponderance of evidence to support the allegation of Abuse Death by the parents, [redacted] and [redacted]

On November 9, 2023 this case was presented to [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were Department of Children Services [redacted] Case manager, Team Leader [redacted] Assistant District Attorney [redacted] Detective [redacted] CAC Director [redacted], Forensic Interviewer [redacted] Counseling Services [redacted], and Juvenile Court Member [redacted] The team was in agreement that there was not a preponderance of evidence to support the allegations of drug exposed child to [redacted] and [redacted] by the parents [redacted] and [redacted] Upon further review of the Department of Childrens Services Executive Director, [redacted], it was determined that there was preponderance of evidence to support the allegation of Drug Exposed Child. The case was presented to the [redacted] County CPIT for further review on February 22, 2024. The team was in agreement to reclassify the case as allegation substantiated, perpetrator substantiated for the allegation of Drug Exposed child against APs [redacted] and [redacted] regarding ACVs [redacted] and [redacted]

Per DCS Policy Work Aid 1 Section G:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Drug Exposed Child is defined as:
This allegation pertains to a person under the age of eighteen (18) who:
Has been exposed to or experiencing withdrawal from use, sale, or manufacture of a drug or chemical substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the childs physical, mental, or emotional functioning as a result of the actions or behaviors of the parent/caregiver; or
Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or
Has a parent/caregiver that has current addiction issues that could adversely affect the childs physical,

mental, or emotional functioning.
Drug Exposed Child (Severe)
Severe forms of this allegation include but is not limited to:
♦ The manufacturing of methamphetamine where children are present, or in close proximity;
♦ Infants born with a diagnosis of Fetal Alcohol Spectrum Disorder (FASD);
♦ Infants born with a diagnosis of Neo-Natal Abstinence Syndrome (NAS) where the diagnosis is not based on the mothers prescribed and appropriately followed Medication-Assisted Treatment;
♦ Knowingly or with gross negligence allowing a child under eight (8) years of age to ingest an illegal substance or a controlled substance that results in the child testing positive on a drug screen, except as
Work Aid 1- CPS Categories and Definitions of Abuse/Neglect 3
Revised: 3/23
Supersedes: : 6/2022
RDA SW22
Abuse/NeglectCategory Definition
legally prescribed to the child; and/or
♦ Knowingly allowing a child to be within a structure where a Schedule I controlled substance under TCA 39-17-406, cocaine, methamphetamine and/or fentanyl are present and accessible by the child.

On May 6, 2023, the family agreed through an Immediate Protection Agreement (IPA) to place ACV [redacted] in the care of his paternal grandmother, [redacted] Additionally, as part of the agreement, [redacted] and [redacted] agreed to have only supervised contact with [redacted] On July 13, 2023, custody of [redacted] was transferred to Ms. [redacted] and the parents were to continue with supervised contact only. [redacted] remains with [redacted] at this time.

There is not preponderance of evidence to support the allegation of Abuse Death. This case will be classified and closed as Allegation Unsubstantiated, Perpetrator Unsubstantiated regarding ACV [redacted] against APs [redacted] and [redacted]
There is preponderance of evidence to support the allegation of Drug Exposed Child. The case will be classified and closed as allegation substantiated, perpetrator substantiated regarding ACVs [redacted] and [redacted] against APs [redacted] and [redacted]

Case reviewed.

TC [redacted] has discussed this case with CM [redacted] multiple times. The sibling has been in the custody of a grandmother since the start of the case. CM has followed up with the grandmother but there has been some difficulty due to the family being out of state for holidays and a death in the family. Recently the grandmother has started not answering the phone. The parents have supervised visits and grandparents have custody and child lives with them. No safety concerns have been noted for the child in the care of the grandparents.

Narrative Details

Narrative Type: Original Entry Date/Time: 02/15/2024 09:18 AM Entered By: [redacted]

The case was reviewed by [redacted], Executive Director. During the course of the review, it was determined that there is preponderance of the evidence to substantiate the parents due to their positive fentanyl screens and admittance that they allowed a friend to come to their home who they knew was an active fentanyl user. Due to this, the case will be presented to the [redacted] County CPIT team for further review of the team

This was reviewed by [redacted] and the Drug exposed child classification needs to be changed from AUPU to ASPS due to the parents testing positive for Fentanyl. The decease child was not positive and the other child in the home had a hair follicle and it was negative. CM needs to change the classification and then process for closure.

Narrative Type: Addendum 1 Entry Date/Time: 08/12/2024 09:47 AM Entered By: [redacted]

The autopsy came back on the child and the autopsy was consistent with the death being caused by chocked. There was also still food residue in his mouth and it was in the report. There were no signs of abuse on the child. There are not going to be any charges on law enforcement side. This case needs to go to [redacted] CPIT and start processing the case for closure.

TL [redacted] informed the hotline of the child being pronounced deceased on this date.

TL [redacted] was informed by CM [redacted] that the ACV was pronounced deceased at 12:43am on 5/11/23. The hospital is waiting on the family to decide if they want to donate the organs. If they do not, the hospital will then release the body to the funeral home. The grandmother did take the 2 month old for a drug test. The ACV was not able to get a hair follicle test due to not enough hair however an extended urine drug test was conducted and the results are negative. CM has informed the detective of this information as well. The social worker will inform CM [redacted] of the family's decision and where the body will be located.

The Preliminary Near Death (PND) investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Managers (CM) [redacted] and [redacted] Team Leaders (TL) [redacted] and [redacted]; Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted] and Director of Critical Incident Support (DCIS) [redacted]

The CPS investigation was assigned on 5/8/23 concerning PND allegations of Drug Exposed Child for ACV [redacted] (2yo). It was reported [redacted] resides in the family home with his birth mother [redacted] birth father [redacted] and 3mo sibling [redacted] in [redacted] County.

On 5/5/23 911 was called to the family home reporting CPR in progress on a choking child, [redacted] was observed covered in vomit when law enforcement arrived with neighbors in the stairwell helping perform CPR. When asked about any drugs in the home, the father initially reported no, then stated a junkie [could not remember name] had been in the home the day prior and he worried he may have left a bag in the home [redacted] could have gotten into, suggesting [redacted] be giving Narcan on the scene.

[redacted] and the 3mo sibling were in the care of the father at the time of the incident, while the mother had left the home to run errands. The father stated he fixed himself a sandwich and ate part of it while [redacted] was watching cartoons. He then gave [redacted] the remainder of his sandwich and went to use the restroom. Open returning to the living room he observed [redacted] unresponsive on the floor, picked him, and ran outside for help. The father called 911 and the mother to return to the home. When the mother arrived home the ambulance was already there. [redacted] was transported to the hospital where he remains in critical condition on life support with brain scans thus far finding little activity. [redacted] has no gag reflex and response to pain stimulus. Additional brain scans are pending. The initial UDS drug screen on [redacted] revealed no positives; however, this may be due to metabolization times, and a hair follicle has additionally been completed with results pending. Both the mother and father were drug screened and both positive for THC, methadone, and fentanyl. LE found no drugs inside the home.

An IPA and expedited home study were completed for the 3mo sibling at the paternal grandparents home. They have

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

been requested to take the sibling for a medical evaluation, but have not completed this yet.

Next Steps:
-- CM will request ACVs birth, PCP, and current medical records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will request a hair follicle screening for the 3mo sibling.
-- CM will follow-up on medical evaluation request for the 3mo sibling.
-- CM will schedule CFTM to explore custody change, services for the parents, and court petition.
-- CM will continue to engage hospital around ACVs health/prognosis. If death occurs, it will be reported to the Hotline ASAP.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

PND Investigation # [redacted] ([redacted] County)
ACV [redacted] 2 yrs-3 mos.
ACV [redacted] 3 mos.
Birth mother: Ms. [redacted]
Birth father: Mr. [redacted]

This CPS investigation (PND) was assigned on 5/6/23 with the allegation of Drug Exposed Child (DEC) for ACVs [redacted] & [redacted] Both [redacted] & [redacted] live with their birth parents, Ms. [redacted] & Mr. [redacted] Both parents were interviewed at [redacted] Hospital by Investigator [redacted] Mr. [redacted] advised Investigator [redacted] that birth mother went to Walmart. He gave [redacted] a bite of a tuna sandwich. He went to check on [redacted] and when he checked back on [redacted] he was unresponsive. Mr. [redacted] began to holler for help and neighbors heard him and called 911. Both law enforcement & EMTs arrived at the home. CPR was administered to ACV [redacted] He was intubated and transported to [redacted] Hospital in [redacted] TN and from there transported to [redacted] Childrens Hospital in [redacted]

Ms. [redacted] was interviewed and basically gave the same story. She stated that she went to Walmart and while there, she received a phone call from Mr. [redacted] regarding [redacted] being unresponsive and she left Walmart and drove home. When she arrived, EMTs and law enforcement was at her home. CPR was being administered to ACV, [redacted] He was intubated and transported to [redacted] and from there transported to [redacted].
M. Grandmother was contacted, and she picked ACV, [redacted] up from the scene.

Investigator [redacted] drug screened both parents at the hospital and both tested positive for THC, Fentanyl & Methadone. There was a faint line for Opiates for Ms. [redacted] and she admitted to relapsing.

Investigator observed both ACVs. [redacted] was being fed by Mr. [redacted] He was in his car seat and was observed to be clean and wrapped in a blanket. No marks on face. [redacted] was observed in the PICU with a heart monitor and was incubated.

CM [redacted] interviewed [redacted] (birth mother).

Ms. [redacted] reported she has had DCS involvement due to being positive at each birth of her children. Ms. [redacted] stated she has not smoked THC in the last month. CM inquired where the newborn baby is currently located. Ms. [redacted] reported he is currently at the hospital, and he is with the maternal grandmother and father [redacted]

CM asked Ms. [redacted] to tell what happened earlier in the day, and why [redacted] is currently at the hospital. Ms. [redacted] reported her car was wrecked about three weeks ago and she called a friend to come and get her and transport her to the store. Ms. [redacted] stated they went and got diapers and wipes for [redacted] Ms. [redacted] stated they stopped to get a vape. Ms. [redacted] stated she get a call from [redacted] and he sounded crazy and all he said was get home, don't stop. Ms. [redacted] stated she got home, and CPR was in progress by EMS. Ms. [redacted] stated [redacted] told her that he gave [redacted] a piece of his sandwich and then he went to the bathroom because he needed to "poop". Ms. [redacted] stated she was told he came back out and [redacted] was unresponsive on the floor.

CM asked why there was concern of fentanyl. Ms. [redacted] stated they had a family friend stay with them for a few days and he had a backpack. Ms. [redacted] stated [redacted] was scared he may have gotten into something in his backpack. Ms. [redacted] stated the friend was over a last week. Ms. [redacted] stated she has cleaned and swept a few times, so she is unsure why he thought to ask for Narcan. CM asked who the friend was, and she stated he is just a friend he needed someplace to stay. Ms. [redacted] would not give a name. Ms. [redacted] stated he is a really good guy just in a bad way. Ms. [redacted] stated she has been around drugs addicts her whole life and does not want that for her children. Ms. [redacted] stated her whole family is meth addicts. Ms. [redacted] stated her mom was a meth addict, but she has been clean for the past 4-5 years. Ms. [redacted] stated [redacted] has not history of drug use. Ms. [redacted] stated her, and [redacted] live together, and he is paying the bills. Ms. [redacted] stated he works at [redacted].

CM requested a UDS due to the reaction of Mr. [redacted] asked for [redacted] to have Narcan. Ms. [redacted] consented. Ms. [redacted] was

positive Methadone (MTD), THC, and fentanyl. CM asked when the last time she used, fentanyl. Ms. [redacted] stated she relapsed and used a few weeks ago. CM asked about the Methadone. Ms. [redacted] stated she has a prescription. CM asked what the name of the prescribing doctor is. Ms. [redacted] stated her baby is dying and CM wants too much information. CM stated it was part of the case. Ms. [redacted] stated she has had an opiate addiction and was prescribed Methadone October 2022. Ms. [redacted] stated she has relapsed a few times, has never been to any IOP classes she just asked her doctor. Ms. [redacted] stated normally after a relapse she can stop taking them right away. CM asked how many times she has relapsed. Ms. [redacted] did not answer.

CM asked after the UDS if [redacted] would pass a drug screen, she stated he would. CM asked if he passes where would she go and stay due to her drug screen. Ms. [redacted] stated she would prefer her mother to get the children. CM asked about her history with the drug use. Ms. [redacted] stated she herself was in foster care until she aged out, but her mom is clean now. CM stated most of the time she would not qualify as placement. CM asked about [redacted] parents Ms. [redacted] stated [redacted] mom would qualify but she has [redacted] nephew.

CM walked Ms. [redacted] back to [redacted] bed side and went and got Mr. [redacted] Mr. [redacted] is the putative father of [redacted] and [redacted] Mr. [redacted] stated there is no court action completed, and never been married to the mother. Mr. [redacted] stated he is on the birth certificate.

CM asked for him to explain what happened to [redacted] Ms. [redacted] stated he had made a chicken salad sandwich and he gave a piece to [redacted] Mr. [redacted] stated he was dancing in front of the TV. Mr. [redacted] stated nothing unusual happened. Mr. [redacted] stated he had to go to the bathroom, he needed to "poop" Mr. [redacted] stated he feels like he was gone for a few minutes, and he came back to [redacted] was on the floor unresponsive. Mr. [redacted] stated he tried to get the food out of his mouth, and he could not. Mr. [redacted] stated he started screaming for help and the neighbor called 911. Mr. [redacted] stated [redacted] vomited when he was digging out the food.

CM asked why he said to Narcan [redacted] Mr. [redacted] stated a friend asked to stay with them for a few days and gave him money to stay. Mr. [redacted] stated he knows he has a drug problem, but they really needed to money. CM asked who the "guy" was. Mr. [redacted] stated it was a friend of his brothers and he is a really good guy. Mr. [redacted] stated he knew he was a user of fentanyl. Mr. [redacted] stated he left for most of the day and came back earlier today to get his backpack. CM asked about his drug history. Mr. [redacted] stated he has been addicted to opiates for 3-4 years but is now on Methadone. Mr. [redacted] stated he would also be positive for THC. Mr. [redacted] stated he does not think Ms. [redacted] would be positive for anything. Mr. [redacted] stated he was in a car accident and had taken hydros for his back but that has been about 2 weeks ago. Mr. [redacted] stated Ms. [redacted] used pills a while back, but she is not using anymore.

Mr. [redacted] consented to a UDS and was positive for THC, Methadone MTD, and fentanyl.

CM stated that we need to go and get Ms. [redacted] and have a conversation and he needs to tell her what his drug screen was.

CM had Mr. [redacted] and Ms. [redacted] in the room together. Mr. [redacted] informed Ms. [redacted] of his drug screen and she informed him of hers.

CM went over family supports. Ms. [redacted] stated she wanted her mother, [redacted] Mr. [redacted] stated his parents [redacted] and [redacted] Ms. [redacted] stated what about his sister. CM asked her name. CM was informed [redacted] Mr. [redacted] stated she is not in good health; she has been in the hospital due to Type 1 diabetes.

CM interviewed Ms. [redacted] and Mr. [redacted] They agreed to an IPA and possible transfer of custody. Ms. [redacted] was requested to complete a UDS due to past case. UDS was positive for Opiate, oxy, Fentanyl and they are being prescribed. Ms. [redacted] stated she would be going on Monday to file for custody of the children, she did not want to

go through with DCS for the next several months in court. CM asked if she goes and files to inform CM [redacted]

CM staffed the Case with TL. [redacted] TC [redacted] and the Codex was run. IPA was signed and agreed to that the parents would have supervised visitation. CM was instructed to go to the paternal grandmother's home [redacted] and do a home walk through for the expeditated, and a medication count for prescriptions medication.

CM went and talked with staff hospital staff at 7:30 Am. Staff doctor stated the changes of [redacted] living slim he does not respond to gag reflux, pain stimulant, and there is minimal brain activity. Doctor also reported that if the choking occurred [redacted] was unresponsive for 30-40 minutes before CPR was started. CM requested another UDS to be ran or if the nurse would collect some for the department testing. CM was informed the test had already been completed and it was negative. CM requested a nail bed test or a hair follicle. CM was informed and hair follicle would be conducted.

CM observed [redacted] in the hospital bed on a ventilator tube, with IVs connected. [redacted] was in a diaper; the rest of his body was exposed. CM did not see any marks excepted the bruising for the IV's.

CM observed [redacted] in his car seat he was wrapped in a blanket. CM observed him being fed one time during the interviews with the parents.

CM was informed on her way to Ms. [redacted] home and the 16-hour mark was up and CM [redacted] would be finishing the case, with TL [redacted]

Date: 03/14/2023/Investigation ID#: [redacted] AUPU /AP(s): [redacted] ACV(s): [redacted]
Background and Criminal Background Checks:
CPSI completed an internet records search for [redacted] and [redacted]
This search includes the following databases: Tennessee Felony Offender Database, Meth Offender Registry, TN Sex Offender Registry, National Sex Offender Registry and the Department of Health Vulnerable Persons Check.

The results are as follows: No Findings

The referral states the following:

Law enforcement was called to assist EMS for CPR on a child and then the call was changed to a choking child and then back to unresponsive/request for CPR. When law enforcement arrived at the home, [redacted] was found on the stairwell and neighbors were trying to perform CPR on him. [redacted] was covered in his own vomit. EMS arrived at this time and due to the small amount of space in the area on the stairwell, the responding officer grabbed him up and took him to the ambulance. EMS took over his care at that time. The responding officers went back to the childs parents and asked if there were any drugs or prescription medications out in the home that the child could have gotten into. [redacted] said no. His mother, [redacted] was too upset to respond. She had been shopping at Walmart and [redacted] called her before he called 911. She arrived at about the same time law enforcement arrived. His father, [redacted] said that he gave the child a bite of his tuna sandwich and he then went to the bathroom. [redacted] said when came back from the bathroom, he saw [redacted] lying in the floor watching television. [redacted] said he thought [redacted] was asleep. He had been previously sitting on the floor watching television. [redacted] said he went to check on the other child, [redacted] and when he went back to check on [redacted] he was unconscious.

Neighbors heard [redacted] start screaming for help and they went outside and found [redacted] and [redacted] outside on the stairwell. Neighbors said that [redacted] was unconscious and turning blue. Neighbors called 911 and started CPR. Law enforcement arrived about two minutes after they began performing CPS. After EMS had been working on [redacted] for about five to seven minutes, [redacted] had been talking to an officer and he said that the day before a junkie had been in the home and had been using fentanyl in the home. He then ran to the ambulance and suggested that the child be given Narcan. He was worried that the junkie had left a bag in the home and [redacted] had gotten into it. [redacted] did not remember the junkies name. It is unknown if he allowed the junkie to use fentanyl in the home, but he was aware that he had used it in his home.

Detectives from the [redacted] Police Department interviewed [redacted] and the neighbors. At the time of the call to the hotline, [redacted] was listed in critical condition. He had a pulse and he was intubated. [redacted] said he thought that about eight minutes had lapsed between his going to the bathroom and his calling 911. It is unknown if [redacted] was without oxygen for eight

minutes or if it was for a longer period of time. There was no odor of alcohol on [redacted] and it is not believed that he was under the influence of any substances. Officers did not know there was a second child in the home until additional officers arrived to help and cleared the home. [redacted] was found on the couch inside the home and was unharmed. He was turned over to his paternal grandmother. The paternal grandmothers name was not provided.

-Does the child have any injuries from the abuse or neglect?
It is unknown if [redacted] had any physical injuries to his body. He was unconscious and has been intubated at the hospital.

-When did the abuse or neglect occur?
May 5, 2023. The 911 call was received at 7:59 pm.

-Where did the abuse or neglect occur?
At the home address in [redacted] County.

-Has the child made a disclosure of the abuse or neglect?
The child was unconscious and is too young to make any statement.

-What do the childs parents/caregivers say about the abuse/neglect?:
[redacted] said he had given [redacted] a bite of a tuna sandwich before he went to the bathroom and that was the last thing he knew had happened before he realized the child was unconscious. [redacted] had been shopping at the time of the incident. She was hysterical and said, I went shopping and my son is dead. She went to buy diapers for the children and when she arrived, she asked officers, Is he dead?

-Are there any concerns for Domestic Violence in the home that pose a danger to the childs safety?
They do not have any previous domestic violence charges or a domestic violence report made in the city.

-Is anyone in the home protective of this child? If yes, who?:
[redacted] is protective of the children. Her parents and [redacted] parents all responded to the home.

-Where is the child currently located?:
[redacted] is at [redacted] [redacted] Childrens Hospital in [redacted] TN. [redacted] is with his paternal grandparents.

-When will the alleged perpetrator have access to the child again? Is the child currently safe for the next 24 hours to 3 business days?:
[redacted] is in [redacted] at the hospital with [redacted] [redacted] was at the home address when law enforcement left the scene. It is assumed that the children will be safe for the next three business days.

-Are there any concerns for the safety of a Department of Childrens Services Case Manager responding to the childs home?:
There are no safety hazards in the home. There were no drugs found in the home when it was searched by law enforcement. The police report number on file with the [redacted] Police Department is [redacted]4.

CM Notation: Law enforcement is not requesting an immediate response.
Screener Notation: Intake [redacted] is screened out as a duplicate to this report.

ASPS was approved.

D. Case Workers

Case Worker: [redacted] Date: 08/12/2024

Team Leader: [redacted] Date: 08/12/2024

E. Investigation Summary

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

[redacted] is deceased due to choking.
[redacted] is 2 years old and unable to communicate with CPSI [redacted]

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

Autopsy was received stating the cause of death was accidental choking.
Det. [redacted] reported that he would be closing the case due to cause of death being accidental choking.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

[redacted] reported that he had been feeding [redacted] (ACV) and had went to use the bathroom and to check on his other child and when he returned [redacted] was on the floor and unreponsive.
[redacted] reported that she had gone to the store and when she returned the ambulance was already there.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

Law enforcement was called to assist EMS for CPR on a child and then the call was changed to a choking child and then back to unresponsive/request for CPR. When law enforcement arrived at the home, [redacted] was found on the stairwell and neighbors were trying to perform CPR on him. [redacted] was covered in his own vomit. EMS arrived at this time and due to the small amount of space in the area on the stairwell, the responding officer grabbed him up and took him to the ambulance. EMS took over his care at that time. The responding officers went back to the child's parents and asked if there were any drugs or prescription medications out in the home that the child could have gotten into. [redacted] said no. His mother, [redacted] was too upset to respond. She had been shopping at Walmart and [redacted] called her before he called 911. She arrived at about the same time law enforcement arrived. His father, [redacted] said that he gave the child a bite of his tuna sandwich and he then went to the bathroom. [redacted] said when came back from the bathroom, he saw [redacted] lying in the floor watching television. [redacted] said he thought [redacted] was asleep. He had been previously sitting on the floor watching television. [redacted] said he went to check on the other child, [redacted] and when he went back to check on [redacted] he was unconscious.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

There is no evidence to support the allegation of abused death.
[redacted] and [redacted] tested positive for fentanyl to support the allegations of drug exposed.
