-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
Today, June 8th, 2023, Law Enforcement responded to a call on a drowning of a one-year-old. The incident was reported around 5:03pm. The child that drowned was identified as [redacted] There were reports that the family was not performing CPR on [redacted] Law Enforcement arrived and began CPR until EMS arrived. It is unknown if [redacted] has any injuries, she was blue, pale, and unresponsive. EMS loaded [redacted] up and transported her to Children's Hospital in [redacted] It is unknown if [redacted] will survive, she was unresponsive and not breathing. EMS thought they may have a pulse, but they were unsure. It is unknown where the other children were at the time of the incident. The house is a mess and there about 4 dogs that do not seem aggressive. The home is very dirty and there is garbage everywhere. The family does not know how long [redacted] was in the pool. The above ground pool is in the backyard and there was no fence around the pool.

It is unknown if Law Enforcement will make any arrests. Child abuse and neglect allegations are pending. Law Enforcement is interviewing everyone involved at this time. The other children in the home will be interviewed. Detective [redacted] is going to investigate the incident. [redacted] is at the home and has not left to go to the hospital. [redacted] did not disclose what happened to Law Enforcement, but she will be interviewed. It is unknown if there are any known patterns of abuse in the home, Law Enforcement does not see any history on the address. It is assumed that [redacted] was unsupervised. It is believed that [redacted] came to the home after the incident, he is currently on work release from the jail. [redacted] was mowing the yard at the time of the incident. It is unknown where the other adults or children were at during the incident. It is unknown who found [redacted] in the pool. The children are inside the home at this time.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?
There are a lot of non-aggressive dogs.

-Anything additional to add to this initial report for the responding worker to know prior to response?
No

sees [redacted] three to four times a week and that he has told [redacted] that she needs to be watching all the children more closely and he has been dreading this day.
On June 8, 2023 ACV [redacted] was forensically interviewed. [redacted] reported that her sister turned blue and that she was in the pool with no floaties. She reported that she saw her sister go to the bottom of the pool on the cameras from inside the home. [redacted] stated that her sister was in the pool by herself.
On June 8, 2023, CM [redacted] interviewed [redacted] Ms. [redacted] reported that a friend and her daughter came over for a pool play date with [redacted] around 2:30 PM. Ms. [redacted] reported that all four of the children and her friend [redacted] got into the pool to play while she observed from outside of the pool. Ms. [redacted] reported that her friend and her daughter left the home around 3:30 PM and she and the children went inside to get something to eat. She reported that around 4:00 PM, [redacted] noticed her grandmother outside by the garage so she took [redacted] outside to ride the lawnmower with her grandmother. Ms. [redacted] reported that her mother and [redacted] had hit something with the mower and broke it so [redacted] was coming back inside. Ms. [redacted] reported that her grandmother was on the porch and that she left the children with her and walked inside to get the children something to drink. She reported that [redacted] had found a hole in the gate and had tried to use it to get off the porch so she was trying to fix the hole in the gate. Ms. [redacted] stated she then saw [redacted] in the pool and she jumped over the side of the pool to get [redacted] out. Ms. [redacted] reproted that her grandmother called 911 and that she blew in [redacted] mouth and that [redacted] threw up. She and her mother began CPR. Emergency responders arrived and took [redacted] to the hospital. CM [redacted] drug screened Ms. [redacted] and she was positive for Amphetamines and Methamphetamines.
On June 9, 2023, CM [redacted] met with [redacted] maternal great grandmother. Ms. [redacted] stated that the children were outside in the pool with the mothers friend. The friend left around 3:45 PM and the kids were on the deck with her. Mrs. [redacted] reported that [redacted] got out of the gate and that she thought she was with her mother. She reported that [redacted] told her mother that [redacted] was in the pool with no swimmies. [redacted] jumped into the pool to retrieve [redacted] She reported that CPR was started, and she called 911.
On June 9, 2023, CPSI [redacted] interviewed [redacted] maternal grandmother. Mrs. [redacted] stated that she had been mowing the yard when the incident happened. She admitted to a past history of substance abuse and recent relapse and she admitted that she would test positive for Methamphetamines if drug screened.
On June 9, 2023, CM [redacted] interviewed [redacted] (cousin/household member). Ms. [redacted] stated that she was in her room taking a nap when the incident happened. She heard [redacted] scream to give her CPR. She went outside and [redacted] was lifeless on the ground and [redacted] was giving her CPR. Law Enforcement and an Ambulance arrived on scene. Ms. [redacted] stated she has been concerned that [redacted] does not give the children enough attention and is not bonded with them. Ms. [redacted] stated that [redacted] has lost 40 lbs. in the last three months and that she can tell when she is using drugs but that she has never seen her use them. [redacted] was drug screened and she was negative for drugs.
On June 12, 2023, CM [redacted] received notification [redacted] had passed away at 6:42PM.
On June 17, 2023, an autopsy was completed on ACV [redacted] by Dr. [redacted] County Regional Forensic Center, [redacted] TN. The cause of death was classified as drowning. The manner of death is classified as accident.
On October 12, 2023, CM [redacted] presented the case to [redacted] County Child Protective Investigative Team (CPIT). Present was: TL [redacted] Assistant District Attorney [redacted], Detective [redacted] Juvenile Court Representative [redacted], Child Advocacy Center staff [redacted] and [redacted] The team agreed to classify the allegation of Abuse Death, Lack of Supervision, and Drug Exposed Child as Allegation Substantiated, Perpetrator Substantiated against APs [redacted] and [redacted] and [redacted]

Child Death is defined as:
Per DCS Policy Work Aid 1
Child death:
Child death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct

action that resulted in the death of the child. Child deaths are always treated as severe abuse.
a) Any child death caused by abuse or neglect. b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report. c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
Lack of Supervision is defined as:
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).
Drug Exposed Child is defined as:
This allegation pertains to a person under the age of eighteen (18) who:
Has been exposed to or experiencing withdrawal from use, sale, or manufacture of a drug or chemical substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the childs physical, mental, or emotional functioning as a result of the actions or behaviors of the parent/caregiver; or
Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or
Has a parent/caregiver that has current addiction issues that could adversely affect the childs physical, mental, or emotional functioning. Drug Exposed Child (Severe) Severe forms of this allegation include but is not limited to:
♦ The manufacturing of methamphetamine where children are present, or in close proximity;
♦ Infants born with a diagnosis of Fetal Alcohol Spectrum Disorder (FASD);
♦ Infants born with a diagnosis of Neo-Natal Abstinence Syndrome (NAS) where the diagnosis is not based on the mothers prescribed and appropriately followed Medication-Assisted Treatment;
♦ Knowingly or with gross negligence allowing a child under eight (8) years of age to ingest an illegal substance or a controlled substance that results in the child testing positive on a drug screen, except as legally prescribed to the child; and/or
♦ Knowingly allowing a child to be within a structure where a Schedule I controlled substance under TCA 39- 17-406, cocaine, methamphetamine and/or fentanyl are present and accessible by the child.

At the time of the incident, an Immediate Protection Agreement was entered between all the parties regarding ACVs [redacted] and [redacted] The case was presented to the [redacted] County Juvenile Court and the court ordered that [redacted] to be placed in the custody of [redacted] (Paternal grandmother) and [redacted] to be placed in the custody of [redacted] (family friend). Custody of [redacted] was later placed with [redacted] and [redacted] was restricted to supervised visits with the children. [redacted] was charged with felony Child Endangerment and these charges were later dismissed.

There is a preponderance of evidence to support the allegation of Abuse Death and Drug Exposed Child. This case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated regarding ACV [redacted] against AP [redacted] There is a preponderance of evidence to support the allegation of Lack of Supervision. The Preliminary Near Death (PND) investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Team Leader (TL) [redacted] Team Coordinators (TC) [redacted] and [redacted] CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted]

The CPS investigation was assigned on 6/9/23 concerning allegations of Lack of Supervision for ACV [redacted] (1yo) and allegations of Environmental Neglect for [redacted] and siblings ACV [redacted] (2yo) and [redacted] (4yo). It was reported [redacted] resided with her birth mother [redacted] and two siblings [redacted] 2yo and [redacted] 4yo] in [redacted] County. Also residing in home is the maternal grandmother [redacted] maternal great grandmother [redacted] maternal cousin [redacted] and the cousins boyfriend [redacted] The birth father [redacted] of [redacted] and [redacted] is on the birth certificate with informal visitation. The birth father [redacted] of [redacted] is on the birth certificate with informal visitation and currently residing in a sober living house.

On 6/8/23 at approximately 5pm a 911 call was made from the family home regarding the drowning of [redacted] in the above ground pool located in the familys backyard. LE and EMS responded with EMS taking over CPR efforts initiated by the family and transporting [redacted] to Childrens Hospital for care and placed on life support. Currently [redacted] reamins on life support, with little to no brain activity or response, and poor prognosis. Brain testing has been ordered and the family has signed DNR orders.

The mother reported she and the children slept in late on 6/8/23 due to the 2yo sibling being up until 4am. She reported the got up around 1pm and then her friend [redacted] brought her daughter over to swim. [redacted] and all the children got in the pool around 2pm. The pool has no deck around it with the ladder being the only way to enter or exit. The ladder is one-sided and has to flipped around to enter or exit the pool. The pool was described as not deep with the walls low enough that an adult could reach over the sides easily. They swam for about an hour and the friend and her child left the home around 3:30-3:45pm. Around 4pm the grandmother went outside to mow and [redacted] rode with her on the mower. The great grandmother was supervising the siblings on the back porch which was located near the pool. The porch was described as two levels with gates to access each level. The mother reported she was working on the fence nearby. During this time the 4yo yelled that [redacted] was in the pool without her floaties and the mother looked and saw her bottom bobbing in the water.

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

The mother jumped in over the side and pulled [redacted] out. The grandmother who was still mowing noted the commotion and came over to help. 911 was called immediately and the family was instructed on CPR. The adult cousin residing in the home was present but inside in her room during the incident and not a witness. The cousins boyfriend was not at the home. The mother, grandmother, and great grandmother all gave similar accounts. The great grandmother stated she thought [redacted] was with her mother working on the fence as she was supervising the siblings. All statements and evidence currently indicate this was an accidental drowning. It us unknown how [redacted] got into the pool unless she climbed the ladder; however, it was noted on scene at time of response the ladder steps were inside the pool.

Environmental concerns were noted with the home. The family has four dogs kept inside and feces, urine, and garbage were noted throughout the home. The mother and grandmother both have history with drug use. The mother consented to a urine drug screen and tested positive for methamphetamine and amphetamine. She admitted to relapsing stating she had been clean the last 3 days. The grandmother also admitted to relapse and stated she positive for meth if screened. The great grandmother was positive for benzodiazepines which was contributed to her Rx meds. The cousin was drug screened and negative for all substances. She reported she is currently pregnant and will be looking for somewhere else to stay. A forensic interview was completed on the 4yo sibling who was very talkative when LE arrived on scene, however, no pertinent information was gathered from the FI. An IPA was completed for the two siblings. The 2yo will be staying with the mothers current boyfriends mother. The 4yo will be staying with her paternal grandmother. Both placements and backgrounds were cleared, and both are potential long-term placements if needed.

Next Steps:
-- TL will request ACVs birth, PCP, and current incident medical records. Records will be reviewed and uploaded to TFACTS
-- TL will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- TL will follow-up with the hospital regarding positive drug screen and possible testing for ACV.
-- TL will request hair follicle screens for the siblings.
-- TL will prepare transfer of custody paperwork for the siblings.
-- TL will address services/safety in the home with the mother.
-- TL will continue to follow-up with hospital/medical regarding ACV prognosis.
-- TL will complete Closing FAST prior to case closure.
-- TL will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

This case was presented at the [redacted] County CPIT Meeting and the classifications were agreed on my all in attendance.

Per policy and Work Aid 1, the definition of Drug Exposed Child is: a person, under the age of 18 who: Has been exposed to or is at risk of exposure to a drug or chemical substance (including but not limited to alcohol, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamine, heroin, inhalants) that could adversely affect the child's physical, mental or emotional functioning; or Has a parent/caregiver that uses drugs or chemical substances that impacts or is at risk of impacting their ability to adequately care for the child.

Per policy and Work Aid 1, the definition of Environmental Neglect is: A living situation either inside or outside the residence that is dangerous or unhealthy. The situation described can cause harm or significant risk of harm to the child(ren) in the home. The child's age and developmental status must be considered when evaluating the impact of the environmental condition of the child. The following are some examples of environmental situations as they relate to the child's age and developmental status: a) Leaking gas from stove or heating unit; b) Substances or objects accessible to the child that may endanger health/safety; c) Open/broken/missing windows; d) Structural hazards such as caving roof, holes in floor or walls; e) Exposed electrical wires; f) Children that lack clothing so that they are dangerously exposed to the elements, i.e., not having shoes or warm clothes for winter, etc.; g) Excessive garbage or rotted or spoiled food, which threatens health; h) Evidence of human or animal waste in the living quarters; i) Insect or rodent infestation; and Lack of or inability to obtain appropriate hygiene which threatens the health and well-being of a child, including the refusal to allow the child to bathe.

Per policy and Work Aid 1, the definition of Lack of Supervision is: Failure to provide adequate supervision, by a parent or other caretaker, who is able to do so. A lack of supervision allegation or determination means that: a) The child has been placed in a situation that requires actions beyond the child's level of maturity, physical ability, and/or mental ability; or b)
