dirty. It is unsafe for children to live in this home. There was a dog inside the home. No animal urine or feces was seen in the home. [redacted] is currently in the home with [redacted] and [redacted] is currently in the back of a police car at the residence. She is currently detained. It is unknown if [redacted] has been interviewed by Law Enforcement. Law Enforcement is requesting immediate response from DCS to the familys home.

On November 7, 2023, CM [redacted] responded to the familys home to conduct interviews. Ms. [redacted] grandmother reported that she was in her room most of the evening and did not see [redacted] much that day. Ms. [redacted] reported that [redacted] and [redacted] have been sick with a cold. She reported today, both children went to the doctor due to them having a cold. Ms. [redacted] reported she is unsure if [redacted] was given medication, but [redacted] was provided with Amoxicillin. Ms. [redacted] reported there were no other medical problems noted with the children. Ms. [redacted] reported around 9 p.m., their mother brought chicken and fries home for dinner. [redacted] did not wake-up to eat dinner. Ms. [redacted] expressed that this was unusual because [redacted] is always eating. She reported no other unusual behavior with [redacted]

Case Manager [redacted] spoke with sibling [redacted] about her and [redacted] day. [redacted] reported today her, and [redacted] went to the doctor because they have been sick with a cold. She reported when they went to the doctor, [redacted] was not feeling well and was laying on their mothers lap. She reported they came home, and she went into her aunt [redacted] room while [redacted] was in the room with her father. [redacted] reported later her dad was leaving to go to a friends home and he brought [redacted] into [redacted] room and laid her in the bed before he left. [redacted] stated [redacted] was asleep when her father brought her into [redacted] room. [redacted] reported her mother and father left and when her mother returned home, [redacted] would not wake-up. [redacted] reported her mother put [redacted] in a blanket and placed her on the floor, then started pushing [redacted] chest.

Ms. [redacted] aunt reported that about 3:00 p.m. [redacted] mother of [redacted] and [redacted] them to the doctor because they had been sick with a cold. Ms. [redacted] reported after they came back with dinner and ate, she went to her room and was sitting in the chair when [redacted] came into the bedroom and was climbing into her bed. She reported shortly afterwards, [redacted] father of the children came into her room carrying [redacted] He placed her on the bed due to her being asleep. Ms. [redacted] stated after [redacted] brought [redacted] into her room, he and [redacted] left the home. She reported when [redacted] returned home. She tried to wake [redacted] up, thats when they found she was unresponsive. She reported [redacted] attempted CPR while she called 911. Ms. [redacted] reported the last time she observed [redacted] to be alert was when they returned home from the doctor, before she and [redacted] left the home to go to Lowes.

Ms. [redacted] mother reported that she took [redacted] to the doctor today and [redacted] rode with them. Ms. [redacted] reported both children had recently been sick with only a minor cold, but [redacted] had to be taken to the doctor to be medically cleared to return to school. Ms. [redacted] reported after returning from the doctor, sometime between 5 p.m. and 6 p.m., she and [redacted] went to Lowes looking for a new refrigerator. Ms. [redacted] reported they returned back home between 8 p.m. and 9 p.m. [redacted] was in the bedroom with [redacted] asleep. Ms. [redacted] reported after they returned with dinner, [redacted] wanted her to take him to a friends home. She reported that she stepped outside to wait for him, and [redacted] took the kids to [redacted] room before they left. Ms. [redacted] reported about 9:30 p.m, she left to take Mr. [redacted] to his friends house and stopped at Kroger on the way back home. Ms. [redacted] reported she got home around 10:45 p.m. or 11:00 p.m., she took a shower. Ms. [redacted] reported after she finished showering, she then checked on her kids, who were still in the room with [redacted] Ms. [redacted] expressed that she realized that something was wrong with [redacted] when she would not wake up and was cold to the touch. Ms. [redacted] stated that she told [redacted] to call 911.

The home was observed to be unkempt and in need of a clean. A noncustodial permanency plan was created with the family agreeing that they will clean the home and keep it clean.

[redacted] was interviewed on November 7, 2023. He reported that on November 6, 2023, around 3:00 p.m., he fixed [redacted] and [redacted] something to eat. Mr. [redacted] reported both children were sleeping in [redacted] room (cousin). Mr.

[redacted] reported calling the children to eat, but only [redacted] entered the kitchen. Mr. [redacted] reported that [redacted] remained asleep. Mr. [redacted] stated once he finished in the kitchen, he went into his bedroom with [redacted] and observed her sleeping. He reported hearing her snoring and continued to check in on her. Mr. [redacted] reported shortly afterwards, [redacted] came home from Lowe's, and he began to get ready to leave for his friend's house. Mr. [redacted] reported that he woke [redacted] up to go into [redacted] room, and she got up and walked out. Mr. [redacted] reported leaving the house and arriving at his friend's home around 9:30 p.m. Mr. [redacted] reported that 30 minutes later, he received a phone call from [redacted] stating that [redacted] was not breathing.

An immediate protection agreement was put into place with Mr. [redacted] stating that he would only have supervised contact with [redacted] and he would leave the home.

The family showed some concerns regarding the ambulance giving [redacted] [redacted] Narcan. Mr. [redacted] reported that [redacted] was too young to be given Narcan. Mr. [redacted] stated that the police did not have permission from her parents to administer her Narcan. Mr. [redacted] reported that he believes the Narcan may have caused [redacted] death. Mr. [redacted] reported he did not like how everyone speculated that [redacted] was given drugs.

On November 7, 2023, an autopsy was completed at the [redacted] Regional Forensic Center by Dr. [redacted] [redacted] MD cause of death fentanyl intoxication. Toxicology results showed presence of fentanyl in the iliac blood and gastric fluid. Dr. [redacted] notes that medical records were reviewed, and no fentanyl was administered to the child, so it is unknown how she came to have fentanyl in her system.
During a home visit on April 1, 2024, Case manager [redacted] [redacted] asked the family to comply with a urine drug screen. Due to the autopsy reporting that the cause of death was a fentanyl overdose. Ms. [redacted] completed a drug screen, and the results were negative for all substances. Mr. [redacted] completed a drug screen, and he was positive for THC and fentanyl. Mr. [redacted] denied any drug usage. Grief counseling was offered to the family; family declined needing grief counseling.

CM [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT). The team agreed that there was a preponderance of evidence to support the allegation of Abuse Death. Those in attendance were ADA [redacted] [redacted] (CAC) Data Coordinator [redacted], and Child Advocacy Center (CAC) CPIT Coordinator [redacted].

On August 18, 2025, CM [redacted] [redacted] attempted to complete a final visit with the family at the last known address, [redacted] TN. There was another family that appeared to be moving into the home and confirmed [redacted] [redacted] and family no longer resided there. Contact was made with sibling, [redacted] [redacted] on August 25, 2025. During that contact, [redacted] denied being abused or mistreated at home. She disclosed that she feels safe at home and reported that the home has food, utilities, and has a bed to sleep in at home. No marks or bruises were noted. [redacted] was noted to be clean and properly groomed.

A home visit was completed on August 25, 2025, with [redacted] [redacted] (mother) and [redacted] [redacted] (father) at the home. Ms. [redacted] reported she and [redacted] have been living at the home of [redacted] [redacted] She reported Ms. [redacted] is the mother of [redacted] and she allowed them to move in after things did not work out at her mother's home. Ms. [redacted] reported Ms. [redacted] is currently living with her boyfriend so she is not at the home. Ms. [redacted] reported [redacted] is in and out of the home. Mr. [redacted] reported that he has completed drug treatment and grief counseling services, so he does not feel a need for any additional services at this time.

Ms. [redacted] reported she will eventually participate in grief counseling, but she is not ready to do services at this time because that would force her to process things. CPSI asked about services for [redacted] Ms. [redacted] stated she explored counseling at [redacted] this summer, however, [redacted] has been doing well without counseling, and she does not want to force her into participating in anything at this time. She reported when [redacted] is ready for counseling, she will place her in services. The family denied needing any additional services. No hazards or concerns were noted during the walk-through of the home. The home was noted to have food, working utilities, and appropriate furnishings.

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

CM [redacted] met with Mr. [redacted] and completed a urine drug screen, and results were negative for all drugs. Mr. [redacted] noted there were no restrictions involving his visitation with his children in his plea agreement. Mr. [redacted] provided a certificate of drug treatment completed and provided contact information for his probation officer. Mr. [redacted] stated he does reside at [redacted] however due to him having no transportation, he mostly resides outside of the home, in the [redacted] area to be closer to his place of employment.

Child death is defined as:

a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Environmental Neglect is defined as:
A living situation either inside or outside the residence that is dangerous or unhealthy. The situation described can cause harm or significant risk of harm to the child(ren) in the home. The childs age and developmental status is considered when evaluating the impact of the environmental condition of the child. The following are some examples of environmental situations as they relate to the childs age and developmental status:

♦ Leaking gas from stove or heating unit;
♦ Substances or objects accessible to the child that may endanger health/safety;
♦ Open/broken/missing windows;
♦ Structural hazards such as caving roof, holes in floor or walls;
♦ Exposed electrical wires;
♦ Children that lack clothing so that they are dangerously exposed to the elements, i.e., not having shoes or warm clothing for winter, etc.;
♦ Excessive garbage or rotted or spoiled food, which threatens health;
♦ Evidence of human or animal waste in the living quarters; ♦ Insect or rodent infestation; and ♦ Lack of or inability to obtain appropriate hygiene which threatens the health and well-being of a child, including the refusal to allow the child to bathe. Note: In its most severe form, serious illness or significant injury has occurred due to living conditions and these conditions still exist (e.g., lead poisoning, rat bites).

There is a preponderance of evidence that supports the substantiation of Mr. [redacted] Sane for Abuse Death. Mr. [redacted] completed a urine drug screen and tested positive for fentanyl. Allegation will be classified as Allegation Substantiated Perpetrator Substantiated.

There is not preponderance of evidence that supports the substantiation of Ms. [redacted] for abuse death. Ms. [redacted] was given a urine drug screen and tested negative for all substances. Allegation will be classified as Allegation Unsubstantiated Perpetrator Unsubstantiated.

The allegations of environmental neglect were also classified as Allegation Unsubstantiated Perpetrator Unsubstantiated. The family complied with the non-custodial permanency plan and kept the house clean.

On November 7, 2023, the Department of Childrens Services (DCS) received a referral for an allegation of Abuse Death regarding Alleged Child Victims [redacted] (3). Also, an allegation of environmental neglect regarding alleged child victim [redacted] (5). The Alleged Perpetrators (AP) was listed as Birth Mother [redacted] and Birth Father [redacted] The case was worked in conjunction with [redacted] County Sheriffs Office.

Residing in the home was [redacted] (maternal grandmother), [redacted] (maternal aunt), [redacted] (mother), and [redacted] (father).

Ms. [redacted] reported that she was in her room most of the evening and did not see [redacted] Case Manager [redacted] asked Ms. [redacted] if she observed anything unusual with [redacted] behavior today. Ms. [redacted] reported both [redacted] and [redacted] have been sick with a cold. She reported today, both children went to the doctor due to the cold. Ms. [redacted] reported she is unsure if [redacted] was given medication, but [redacted] was provided with Amoxicillin. Ms. [redacted] reported no other medical problems. Ms. [redacted] reported around 9pm, the mother brought chicken and fries home for dinner, and [redacted] did not wake-up to eat dinner. Ms. [redacted] expressed that this was unusual because [redacted] is always eating. She reported no other unusual behavior with [redacted]

Case Manager [redacted] asked [redacted] about her and [redacted] day. [redacted] reported today her, and [redacted] went to the doctor because they have been sick with a cold. She reported when they went to the doctor, [redacted] was not feeling well and was laying on their mothers lap. She reported they came home, and she went into her aunt [redacted] room while [redacted] was in the room with her father. [redacted] reported later her dad was leaving to go to a friends home and he brought [redacted] into [redacted] room and laid her in the bed before he left. [redacted] stated [redacted] was asleep when her father brought her into [redacted] room. [redacted] reported her mother and father left and when her mother returned home, [redacted] would not wake-up. [redacted] reported her mother put [redacted] in a blanket and placed her on the floor, then started pushing [redacted] chest. Case Manager [redacted] asked [redacted] about being disciplined. [redacted] reported they

sometimes get in trouble for being bad. She reported when they get in trouble, they sometimes get whippings with a belt. Case Manager [redacted] asked if she or [redacted] has recently gotten in trouble. [redacted] stated [redacted] got a whipping earlier today by their father. She reported [redacted] was hit with a belt on her hand/arm area. [redacted] reported [redacted] was fine after she got in trouble.

Ms. [redacted] was interviewed. She stated about 3:00 PM, Ms. [redacted] took [redacted] and [redacted] to the doctor because they had been sick with a cold. Ms. [redacted] reported after they came back with dinner and ate, she went to her room and was sitting in the chair when [redacted] came into the bedroom and was climbing into her bed. She reported shortly afterwards, Mr. [redacted] carried [redacted] into her room and placed her in her bed. She reported [redacted] was asleep during that time and did not move or say anything as she was brought into the room. Ms. [redacted] stated after Mr. [redacted] brought [redacted] into her room, he and Ms. [redacted] left the home. She reported when Ms. [redacted] returned home and tried to wake [redacted] up, they found she was unresponsive. She reported Ms. [redacted] attempted CPR while she called 911. Case Manager [redacted] asked Ms. [redacted] about the last time she observed [redacted] awake and alert. Ms. [redacted] reported the last time she observed her alert was when they returned home from the doctor, before she and Ms. [redacted] left the home to go to Lowes.

Ms. [redacted] reported that she took [redacted] to the doctor today and [redacted] rode with them. Ms. [redacted] reported both children had recently been sick with only a minor cold, but [redacted] had to be taken to the doctor to be medically cleared to return to school. Ms. [redacted] reported after returning from the doctor, sometime between 5pm and 6pm, she and [redacted] went to Lowes looking for a new refrigerator. Ms. [redacted] reported they returned to the home between 8PM and 9PM, and at that time, [redacted] was in the bedroom with Mr. [redacted] asleep. Ms. [redacted] reported after they returned with dinner, Mr. [redacted] wanted her to take him to a friends home. She reported that she stepped outside to wait for him, and Mr. [redacted] took the kids to [redacted] room before they left. Ms. [redacted] reported about 9:30 pm, she left to take Mr. [redacted] to his friends house and stopped at Kroger on the way back home. Ms. [redacted] reported she got home around 10:45 pm or 11:00 PM, she took a shower. Ms. [redacted] reported after she finished showering, she then checked on her kids, who were still in the room with [redacted] Ms. [redacted] expressed that she realized that something was wrong with [redacted] when she would not wake up and was cold to the touch. Ms. [redacted] stated that she told [redacted] to call 911.

The home was observed to be unkempt and in need of a clean. A noncustodial permanency plan was created with the family agreeing that they will clean the home and keep it clean.

Mr. [redacted] was interviewed on November 7, 2023, and reported on November 6, 2023 around 3:00 p.m., he fixed [redacted] and [redacted] something to eat. Mr. [redacted] reported both children were sleeping in [redacted] [redacted] room (cousin). Mr. [redacted] reported calling the children to eat, but only [redacted] entered the kitchen. Mr. [redacted] reported that [redacted] remained asleep. Mr. [redacted] stated once he finished in the kitchen, he went into his bedroom with [redacted] and observed her sleeping. He reported hearing her snoring and continued to check in on her. Mr. [redacted] reported shortly afterward, [redacted] (mother) came home from Lowe's, and he began to get ready to leave for his friend's house. Mr. [redacted] reported that he woke [redacted] up to go into [redacted] room, and she got up and walked out. Mr. [redacted] reported leaving the house and arriving at his friend's home around 9:30 p.m. Mr. [redacted] reported that 30 minutes later, he received a phone call from Ms. [redacted] stating that [redacted] was not breathing.

An immediate protection agreement was put into place with Mr. [redacted] stating that he would only have supervised contact with [redacted] and he would leave the home.

The family showed some concerns regarding the ambulance giving [redacted] [redacted] Narcan. Mr. [redacted] reported that [redacted] was too young to be given Narcan. Mr. [redacted] stated that the police did not have permission from her parents to administer her Narcan. Mr. [redacted] reported that he believes the Narcan may have caused [redacted] death. Mr. [redacted] reported he did not like how everyone speculated that [redacted] was given drugs.

On November 7, 2023 an autopsy was completed at the [redacted] Regional Forensic Center by Dr. [redacted]

Tennessee Department of Children's Services

Case Recording Summary

Case Id: [redacted] Case Name: [redacted]

Case Status: Close Organization: [redacted] Region

[redacted] MD cause of death fentanyl intoxication. Toxicology results showed presence of fentanyl in the iliac blood and gastric fluid. Dr. [redacted] notes that medical records were reviewed, and no fentanyl was administered to the child, so it is unknown how she came to have fentanyl in her system.

On April 1, 2024, during a home visit, Case manager [redacted] asked the family to comply with a urine drug screen. Due to the autopsy reporting that the cause of death was a fentanyl overdose. Ms. [redacted] completed a drug screen, and the results were negative for all substances. Mr. [redacted] completed a drug screen, and he was positive for THC and fentanyl. Mr. [redacted] denied any drug usage.

CM [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT). The team agreed that there was a preponderance of evidence to support the allegation of Abuse Death. Those in attendance were (CAC) Data Coordinator [redacted], and Child Advocacy Center (CAC) CPIT Coordinator [redacted].

CM [redacted] attempted to complete a final visit with the family at the last known address [redacted]. [redacted] TN. There was another family that appeared to be moving into the home and confirmed [redacted] and family no longer resided there.

Child death is defined as:

a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical condition resulting from abuse, neglect, or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect. When an initial referral or a referral on an open case contains information that suggests the child is in a serious or critical medical condition as a result of the allegation(s) or has been determined to meet the criteria for an allegation of near death as defined above, the Child Abuse Hotline selects Preliminary Near Death (PND) Indicator in the Electronic Records System on the participants tab on a new intake or the investigative persons tab on an active case. The information does not have to come from a physician. Preliminary near deaths are always treated as severe child abuse.

There is a preponderance of evidence that supports the substantiation of Mr. [redacted] Sane for Abuse Death. Mr. [redacted] completed a urine drug screen and tested positive for fentanyl. Allegation will be classified as allegation substantiated/perpetrator substantiated.

There is not preponderance of evidence that supports the substantiation of Ms. [redacted] for abuse death. Ms. [redacted] was given a urine drug screen and tested negative for all substances. Allegation will be classified as allegation unsubstantiated/perpetrator unsubstantiated.

The allegations of environmental neglect were also classified as allegation unsubstantiated/perpetrator unsubstantiated. The family complied with the non-custodial permanency plan and kept the house clean.

This case has been reviewed and staffed with Child Protective Service Investigator (CPSI) [redacted] According to CPSI [redacted] the family has been seen for the month of December and the home has been clean. The father continues to feel the EMS killed his daughter because they gave her Narcan without their permission. CPSI [redacted] will discuss grief counseling again with the father due to his current feelings that someone killed his daughter.

Next Steps:

CPSI will update case recordings to reflect the completed investigation task.
CPSI still needs to request the medical records for the incident, birth records, and PCP records.
CPSI will complete the necessary background checks.
CPSI will need to document the initial CPIT and complete the recommended task.
CPSI will conduct monthly visits throughout the duration of this investigation to continuously assess the safety and well-being of the Alleged Child Victim(s) and adhere to investigation protocols.

CPSI [redacted] met with [redacted] (5) (sibling) privately at school. She was seen wearing a grey shirt and pink pants with black boots. She had no visible marks or bruises. [redacted] reported that she has a school Christmas program today. [redacted] stated that she enjoyed the singing and seeing her friends participate. [redacted] reported that she is very excited about Christmas and can not wait until Santa brings her toys. [redacted] stated that she had no questions or concerns.

CPSI [redacted] met with [redacted] (father) and [redacted] (mother). The family showed some concerns regarding the ambulance giving [redacted] (ACV) Narcan. Mr. [redacted] reported that [redacted] was too young to be given Narcan. He stated that the police did not have permission from her parents to administer her Narcan. Mr. [redacted] reported that he believes the Narcan may have caused [redacted] death. Mr. [redacted] reported he did not like how everyone speculated that [redacted] was given drugs. Mr. [redacted] reported that he is frustrated about the whole process. Ms. [redacted] reported that she had no questions or concerns. Ms. [redacted] reported that the family has been taking things one day at a time.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] CM [redacted] Team Leader (TL) [redacted], TL [redacted] Team Coordinator (TC) [redacted] TC [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 11/7/23 concerning the death of ACV [redacted] (3yo). It was reported [redacted] resided with her birth mother [redacted] birth father [redacted] sibling [redacted] 5yo], maternal grandmother [redacted] and maternal aunt [redacted] in [redacted] County.

On 11/6/23 at approximately 11:45pm the aunt called 911 from the family home upon the mother finding [redacted] unresponsive and cold to the touch. The mother initiated CPR and EMS responded. [redacted] jaw was reportedly locked and an oxygen tube was unable to be inserted. Narcan was also administered with no response. [redacted] was pronounced deceased on scene in the ambulance and transported to [redacted] Pediatric Hospital. [redacted] reportedly had not observable injuries or marks and cause of death is unknown. An autopsy was ordered.

The household members were each interviewed with consistent timelines. The children had both had colds and the 5yo sibling had missed school requiring medical clearance to return. The mother took the sibling to the PCP for medical clearance at 3pm on 11/6/23, with [redacted] accompanying them. The mother reported returning home after the appointment and then leaving with the maternal aunt to shop for a refrigerator at Lowes. The mother stated the father watched the children while they were gone and they were sleeping in the parents room at that time. The mother and aunt picked up dinner before returning home that evening around 9pm. The family ate, although the aunt reported [redacted] did not wake up to eat which was unusual for her. The father then asked to go to a friends house and mother drove him there. The mother stated she waited outside while the father took the children to the aunts room to place them in bed with her. The father stated [redacted] walked to the aunts room on her own at this time; however, the aunt and mother both reported the father carried [redacted] into the room. The mother went to Kroger after dropping off the father and then returned home. She stated the children were still sleeping at that time so she spoke to the grandmother then took a shower. The mother then checked on the children around 11:45pm finding [redacted] unresponsive. The grandmother reported last

seeing [redacted] alert at 3pm but otherwise being in her room that evening.

The parents reported no health concerns for [redacted] other than her recent cold. They stated the sibling has a heart murmur. Although the referral reported unlivable conditions in the home due to ENN concerns such as trash, upon walkthrough of the home, clutter and disorganization was observed by the CM, but not conditions that were immediately unsafe and that could be addressed withing a couple hours of cleaning. A NCPP was completed with the parents to address the cleanliness of the home. LE reported no observation of drugs or impairment on scene and the parents denied drug use. The family has no history with DCS. Grief counseling was discussed.

Next Steps:
-- CM will request ACVs birth and PCP records, and siblings most recent PCP record. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will follow-up with family regarding ENN concerns being addressed and grief counseling.
-- CM will complete collateral with siblings school.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

CPSI [redacted] interviewed the mother, [redacted] Ms. [redacted] reported that she took [redacted] to the doctor today and [redacted] rode with them. She reported both children had recently been sick with only a minor cold, but [redacted] had to be taken to the doctor to be medically cleared to return to school. Ms. [redacted] reported [redacted] had a minor cough but was okay and did not seem to need medical attention. Ms. [redacted] reported before going to the doctor and while at the doctors office, [redacted] seemed fine. Ms. [redacted] reported she and the children returned home from the doctor about 5:00 PM.

Ms. [redacted] reported after returning from the doctor, sometime between 5pm and 6pm, she and [redacted] went to Lowes looking for a new refrigerator. Ms. [redacted] reported that both kids stayed with the Mr. [redacted] while they were gone. Ms. [redacted] reported on the way home from Lowes, they stopped and picked up food for dinner. She reported they returned to the home between 8PM and 9PM, and at that time [redacted] was in the bedroom with Mr. [redacted] asleep.

Ms. [redacted] reported after they returned with dinner, Mr. [redacted] wanted her to take him to a friends home. She reported that she stepped outside to wait for him, and Mr. [redacted] took the kids to [redacted] room before they left. Ms. [redacted] reported about 9:30 pm, she left to take Mr. [redacted] to his friends house and stopped at Kroger on the way back home. Ms. [redacted] reported she got home around 10:45 pm or 11:00 PM. She stated that [redacted] and [redacted] were in [redacted] room when she returned, so she went to her mothers room and spoke with her mom. Ms. [redacted] stated after speaking with her mother, she took a shower. She reported after she finished showering, she then checked on her kids, who were still in the room with [redacted] Ms. [redacted] expressed that she realized that something was wrong with [redacted] when she would not wake up and was cold to the touch. She stated that she told [redacted] to call 911 and yelled for her mother at that time.

CPSI asked Ms. [redacted] if [redacted] had any medical problems. Ms. [redacted] stated outside of having a minor cold, [redacted] was a healthy 3-year-old. She reported [redacted] has a heart murmur but there are no medical concerns for it at this time.

CPSI [redacted] met with [redacted] (maternal aunt) at the home. CPSI asked what occurred with [redacted] today. Ms. [redacted] stated about 3:00 PM, Ms. [redacted] took [redacted] and [redacted] to the doctor because they had been sick with a cold. She reported shortly after they returned home from the doctor, she and Ms. [redacted] went to Lowes and to get dinner. She reported both children stayed at home with Mr. [redacted] while they were gone and when they left both children were in the bedroom with him.

Ms. [redacted] reported after they came back with dinner and ate, she went to her room and was sitting in the chair when [redacted] came into the bedroom and was climbing into her bed. She reported shortly afterwards, Mr. [redacted] carried [redacted] into her room and placed her in her bed. She reported [redacted] was asleep during that time and did not move or say anything as she was brought into the room. Ms. [redacted] stated after Mr. [redacted] brought [redacted] into her room, he and Ms. [redacted] left the home. She reported when Ms. [redacted] returned home and tried to wake [redacted] up, they found she was unresponsive. She reported Ms. [redacted] attempted CPR while she called 911.

CPSI asked Ms. [redacted] about the last time she observed [redacted] awake and alert. Ms. [redacted] reported the last time she observed her alert was when they returned home from the doctor, before she and Ms. [redacted] left the home to go to Lowes.

CPSI asked Ms. [redacted] if she had observed [redacted] physically disciplined within the last 48 hours. Ms. [redacted] stated no. CPSI asked Ms. [redacted] if she had observed [redacted] to be in any medical distress over the last few days. Ms. [redacted] stated no. CPSI asked if [redacted] had any known medical problems. Ms. [redacted] stated no.

CPSI [redacted] spoke with ACV, [redacted] (5), alone. CPSI asked [redacted] about her and [redacted] day. [redacted] reported today her, and [redacted] went to the doctor because they have been sick with a cold. She reported when they went to the doctor, [redacted] was not feeling well and was laying on their mothers lap. She reported they came home, and she went into her aunt [redacted] room while [redacted] was in the room with her father. [redacted] reported later her dad was leaving to go to a friends home and he brought [redacted] into [redacted] room and laid her in the bed before he left. [redacted] stated [redacted] was asleep when her father brought her into [redacted] room. [redacted] reported her mother and father left and when her mother returned home, [redacted] would not wake-up. [redacted] reported her mother put [redacted] in a blanket and placed her on the floor, then started pushing [redacted] chest.

CPSI asked [redacted] about being disciplined. [redacted] reported they sometimes get in trouble for being bad. She reported when they get in trouble, they sometimes get whippings with a belt. CPSI asked if she or [redacted] has recently gotten in trouble. [redacted] stated [redacted] got a whipping earlier today by their father. She reported [redacted] was hit with a belt on her hand/arm area. She reported after [redacted] was disciplined their father talked to her and told her if she did anything else she would be grounded for the rest of the day. [redacted] reported [redacted] was fine after she got in trouble.

CPSI asked [redacted] if she is afraid of anyone at home. [redacted] denied being afraid or uncomfortable with anyone in the home. She reported she always feels safe at home.

CPSI observed [redacted] dressed well and with no visible signs of concerns.

CPSI observed the home cluttered and slightly unkept, with minor trash and clothing on the floor. CPSI did not observe any hazards or anything in the home that would make the environment unlivable. CPSI observed food and working utilities in the

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

There was no interview with [redacted] due to the ACV being deceased.

ACV [redacted] was interviewed and reported [redacted] was not feeling well, so she went to into her aunt's room while [redacted] went to lay down with their father. [redacted] reported their father was about to leave the home, so he brought [redacted] into her aunt's room and laid her on the bed. [redacted] reported [redacted] was asleep when she was placed into the bed and never work-up. [redacted] reported when her mother returned home, [redacted] would not wake up and her mother started pushing on her chest.

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

An autopsy was completed and reported that the cause of death was a fentanyl overdose.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

Ms. [redacted] was interviewed and reported when she left home [redacted] was alert and when she arrived home she was in the bed with Mr. [redacted] asleep. Ms. [redacted] reported she left the home to take Mr. [redacted] somewhere and when she returned she showered and checked on her children who were in her sister's room. She reported she observed something to be wrong [redacted] and despite attempts she was unable to wake her up. She reported she had her sister call 911 when she could not wake [redacted] up. During the investigation Ms. [redacted] submitted to a drug screen and was negative for all substances.

Mr. [redacted] was interviewed and reported Savanah was asleep in his room and he woke her up to go to Ms. [redacted] room prior to leaving home. He reported as he was leaving to home, [redacted] woke up and walked into Ms. [redacted] room, where she went back to sleep. He reported he left home and went to a friend's home and shortly afterwards he received a phone call from Ms. [redacted] stating that [redacted] was not breathing. Mr. [redacted] submitted to a drug screen and test positive for THC and Fentanyl .

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

The referent reported allegations of environmental neglect and abuse death.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

Child death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another person's direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical condition resulting from abuse, neglect, or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect. When an initial referral or a referral on an open case contains information that suggests the child is in a serious or critical medical condition as a result of the allegation(s) or has been determined to meet the criteria for an allegation of near death as defined above, the Child Abuse Hotline selects Preliminary Near Death (PND) Indicator in the Electronic Records System on the participants tab on a new intake or the investigative persons tab on an active case. The information does not have to come from a physician. Preliminary near deaths are always treated as severe child abuse.

Per the autopsy findings, the cause of death was fentanyl overdose. Mr. [redacted] submitted to a urine screen and tested
