CPSI was advised that the mother and birth father are still not engaging and learning the care skills needed:

update you both on the status of [redacted] parents since dad ([redacted] has reentered the picture. The past few weeks we have seen parents about once a week (even though it was agreed upon 3x a week for at least 2 hours at a time). We have been very patient and hopeful since dad has now come with mom 3 times. However, when they visit, they stay for a very short period of time and per the nursing staff "check off the box of being there" then do not engage in his care times and leave. Mom will read [redacted] a book but will not engage in his medical care. She has done 3 trach changes over the past 3 months, but will not change his diaper/g-tube care/learn his feeds/learn his meds.

Dad will say "hi" to [redacted] but has not completed any medical care. Dad took the trach 1 class, but failed the trach 2 class last week. (required classes) He is supposed to retake that class again today. I will let you know if he passes or not. The teacher shared with me that dad seemed to not grasp the concept of a trach and did not remember any information from the trach 1 class he took the previous week. The nurses are extremely concerned with both parents' ability to care for [redacted] They have not demonstrated any form of competence, and we have continued to give them chance after chance.

Aside from still not engaging in full medical care and not passing the required classes (which by the way I have never had a family fail before), they remain VERY hard to get in contact with on the phone or in person. Mom will only email me. They have absolutely no transportation. The only way I have been able to make them visit is to schedule a TennCare ride and lie to TennCare saying that [redacted] has an outpatient appointment that they need a ride to. TennCare does not approve rides for hospital visits, so we have had to work the system to get them here. There are no family or friends to help otherwise. Despite not paying for the ride here, they are consistently asking me for gas gift cards and food vouchers. There has never been one time they have visited and not begged me for food or gas money. I have been giving it to them previously, because it was incentivizing them to visit. But I shared with them that we do not have the funds to keep doing this. They asked me to request they get a "sleep room" in the NICU last week so that they could practice his care and spend time with him. They got the sleep room. However, the nursing staff reports that parents were in the sleep room the majority of the time

Tennessee Department of Children's Services

Case Recording Summary

Case Status:	Close	Organization:	[redacted] Region

and did not engage with [redacted] at his bedside for long. This makes me very worried for how they are going to take care of themselves and [redacted] They were literally down the hall and could not spend more than an hour with him all night.

[redacted] remains ready for discharge aside from parents' education and competence in his care. Since they only visit 1 time a week and do not fully engage in his medical care when here, it is completely dragging out the process and they are showing no improvements. They are apparently going to be at [redacted] tonight and tomorrow ([redacted] birthday) if you need to meet with them. I have a good feeling they might leave if they expect you though.

Please help us figure out a plan to get this baby home. The medical team and I are happy to attend a CFTM or whatever you need from us. He no longer needs ICU care and is just needing loving, competent caregivers to learn his care and take him home.

Next Steps: Attempt to set up a CFTM and put a plan in place to assist with getting the child into the home.

Closing Summary:

The Department of Childrens Services (DCS) received a referral on October 29, 2023, for an allegation of Drug Exposed Child regarding Alleged Child Victims (ACV) [redacted] and [redacted] The alleged perpetrator was identified as birth mother, [redacted] passed away due to prematurity due to Drug Exposure. The Abuse Death allegation was added November 27, 2023, with [redacted] as the perpetrator. This investigation was initially assigned to Child Protective Service Investigator (CPSI) [redacted] by Lead Investigator (LI) [redacted] When the Abuse Death allegation was added, the case was transferred to CPSI [redacted] and LI [redacted]

[redacted] (4 months) lived at home with his birth mother, [redacted] Also in the home are siblings; [redacted] (4 months) and [redacted] (9).

On October 29, 2023, the [redacted] County Region received a referral stating that a set of twins had been born premature at [redacted] Hospital and both were positive for THC. The names of the twins were [redacted] and [redacted] Subsequently on November 18, 2023, the department was notified that [redacted] had died.

On December 1, 2023, CPSI [redacted] interviewed [redacted] Ms. [redacted] reports she resides at the home with son [redacted] (age 9), newborn [redacted] and sibling [redacted] was her child that passed away two weeks ago. Ms. [redacted] has 2 daughters [redacted] (16) and [redacted] (13) who both reside with their fathers and have not lived with their mother in 2 years. Ms. [redacted] reports not knowing she pregnant at the time while using marijuana. She reports not using often. She reports being around family and friends who had been smoking marijuana but reports as for herself she was not smoking. Ms. [redacted] was drug screened during the initial interview and results were negative except for what was prescribed by the hospital at discharge. Throughout the entirety of the case the mother has not engaged totally with either the department or the hospital for the ongoing extended care of surviving twin. Ms. [redacted] has not shown any additional signs of substance use. Ms. [redacted] has continued her mental health care. CPSI has offered additional services such as grieve counseling, an A&D assessment due to past THC use and mental health services but, Ms. [redacted] continues to decline them.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

CPSI [redacted] continues monthly visits with surviving twin [redacted] His condition has not improved, and he has not been released from [redacted] Childrens Hospital as of this date.

CPSI [redacted] has continued to see surviving sibling [redacted] monthly. He consistently denies his mother using any substances. He consistently denies any concerns or evidence of substance use. The child does not appear to need any additional services. The mother has not requested any additional needs from the department.

An autopsy was not performed on [redacted] due to the cause of death being prematurity.

On December 12, 2023, CPSI [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were ADA [redacted] CAC Representative [redacted] The team agreed that there is a preponderance of evidence that does not support the substantiation of the Abuse Death.

Per DCS Policy Work Aid 1 Section E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

There is not a preponderance of evidence to support the allegation of Abuse Death. This case will be closed and classified as Allegation Unsubstantiated, Perpetrator Unsubstantiated for the Abuse Death of [redacted] and Allegation Substantiated, Perpetrator Substantiated for Drug Exposed Child for [redacted] and [redacted]

Content CPSI was advised by [redacted] the social worker in the NICU at [redacted] Childrens of the following information:

9/16- Myself, the medical team, and mother were able to sit down today and set/agree upon the following expectations:
Mom needs to be present at the hospital at least 3x/week from now on for at least 2 hours at a time.
Mom will be available for phone calls between 7am-3pm otherwise.
Dad '[redacted] (new identified second caregiver) will have to take the trach1, trach 2, and g-tube classes.
Mom is also aware that 2 caregivers need to be present with patient at all times and they will have frequent outpatient follow up appointments that require planning transportation in advance (this one is more for the future when he discharges).
Dad did not show up to the meeting like mom said he was going to. We still need him to come to the hospital and prove that he is willing and able to do this (no one has talked to him directly or met with him before). Given that the patient is medically ready to discharge, there are limited chances we can give mom to show us she can do this. Now we have clear expectations of her that our medical team is enforcing and mom has agreed upon. If the above expectations are not met, or dad never shows up, we will keep clear documentation of non-compliance - and I will be following up with you guys

Observation This appears to be a step in the right direction to work towards discharge.

Planning/next steps CPSI will follow up with the mother and encourage her to stay engaged and see if there are any resources she needs to be successful.

CPSI Spoke with the mother this date. [redacted] is still in [redacted] His discharge date is still a long way off. CPSI questioned the mother about her involvement to make sure she knows how to care for her son. she seems to give verbal support but, both the hospital and CPSI have concerns because the mother still is very sporadic ion her visits and participating in his care. His prognosis still could go either way.

CPSI did observe the child and he currently is not discharging as there still is multiple medical issues that are having to be dealt with and corrected based on his prematurity. CPS I spoke with medical staff and they still are not getting 100% cooperation from the mother as she still just not call or come as often as is indicated in the treatment plan for the child. sheeps I spoke briefly with the mother and she states that she's ears cooperating she just cannot be up there at the beck and call of medical staff continuously she has other children that she still does have to take care of and her transportation options are very limited there are times when she has to wait for a neighbor or a friend to be able to take her she does take she monitors and stays in contact closely with the hospital

CPSI made contact face to face with the mother [redacted] she stated that she resides at the home with her daughters [redacted] age 16 and [redacted] age 13 and her son [redacted] age 9. she also has a newborn [redacted] who had a twin sibling that passed away two weeks ago. at this time belief still is in the hospital and we'll be so until late January early February. she stated that she was not aware of any previous DCS history. she denied any alcohol or drug use. she was drug screened and with the exception of the two prescriptions that were verified as medications that were administered and prescribed to her at the hospital at the time of the birth of the twins, she was clear for any other substances and was clear for any illegal substances. She stated there was no domestic violence issues within the home and the only type of court activity that she had was in regard to traffic tickets and an issue with driver's license several years ago. she stated that she is maintaining well at this time she does state she does have period of sadness due to the death of the child. an offer for grief counseling was extended to her and she said she would be interested so CPS will send some resources that she can explore.

AP [redacted] stated that she was not aware that she was pregnant at the time of her use of marijuana which was not a constant thing. She stated that she had been around family and friends who had been smoking but she stated that As for herself she was not smoking. at the time of interview, she was drug screened and was negative for any substances with the exception of prescribed medications that were issued at her discharge at the time of the birth of the twins.

Allegations DEC THC. AP is the mother, [redacted] ACV's [redacted] and [redacted] newborn twins (DOB [redacted]). CM [redacted] seen the ACV's at hospital and spoke with the referent Nurse [redacted] regarding the children. It was reported that there was no UDS screen for mom at birth and twin newborns UDS was negative. The twins cord was positive for THC. Mom reported that she didn't know that she was pregnant until she gave birth. She gave birth at 20 weeks. It was CM [redacted] completed a HV/GFA to the home listed on the referral on 11/1 and the resident living there stated that no one at by the name of [redacted] live there. TC was made to number on referral and phone was not in services. It was reported on 11/8/23 at a f2f follow up visit by CM [redacted] that the twins would be look to see if they were eligible to be discharged late January or early February.
Email received 11/17/23 that baby [redacted] was receiving surgery for NEC.
Email received on 11/20/23 that baby [redacted] had passed away.
Debrief regarding case was held on 11/27.

Next Steps:
Case has been transferred to CM [redacted] for further case work.

CPSI made school contact with [redacted] at his school. In speaking with him he stated that he lives with his stepdad [redacted] his mother [redacted] he did state that he had a set of baby brothers but one of them had just recently died. he said that he has two sisters who do not live with them right now because they are at their father's homes. He stated that his 13 year old sister's name was [redacted] and his 16 year old sister is [redacted] ? [redacted] CPS I did a search after the interview and there is no name of either child that comes up in the database. clarification will be obtained once an interview with the mother can be secured. [redacted] stated that there was no alcohol or drug use in the home he did not state that DCS has ever been involved. it must be noted that according to TFACTS there is a previous case. There he is no disclosure of criminal activity or domestic violence within the home. it may be noted that the child was very subdued and his demeanor indicated that he was not fully giving information. it is unknown whether the child was not being forthcoming and truthful with the investigator.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] CM [redacted] Team Leader (TL) [redacted] TL [redacted] CPS Director (CPSD) [redacted] and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 10/30/23 concerning allegations of Drug Exposed Child for ACV [redacted] and twin sibling [redacted] who were newborns at the time. It was reported the twins were born at 25 weeks gestation (estimated). The twins urine screens were negative, but their umbilical cord screen positive for THC. The birth mother [redacted] reported she was not aware she was pregnant and she was not drug screened by the hospital at the time of the birth. The twins have had health complications and [redacted] had to undergo beside surgery, with his death occurring on 11/18/23 at the hospital following kidney and organ failure. Abuse Death allegation was added to the open CPS case at that time and case was reassigned.

Efforts have been made to contact the mother and complete interviews, but she has been evasive and returns calls from various phone numbers. TFACTS history indicates they mother has other children, including a 9yo. CM is completing a clear search and school search to make contact and complete home visit. The hospital reported the mother has made a few calls regarding the twins and made a few visits, but had not been present otherwise. Birth fathers information is unknown. The surviving twin is stable; however, discharge is reported to not be likely until late January or early February.

Next Steps:
-- CM will request ACVs [both twins] birth/hospital. Records will be reviewed and uploaded to TFACTS.
-- CM will complete clear search on the mother.
-- CM will complete school search on any minor children linked to the mother in TFACTS in an effort to establish contact. Global safety assessment will be completed on any minors in the mothers care.
-- CM will complete home and drug screen mother.
-- CM will request criminal history search on mother with LE.
-- CM will complete Closing FAST prior to case closure.

2	[redacted]	[redacted]	Drug Exposed Child	[redacted]	[redacted], 12:00 AM	*Allegation Substantiated / Perpetrator Substantiated	Yes	[redacted]
								12/12/2023
3	[redacted]	[redacted]	Drug Exposed Child	[redacted]	[redacted], 12:00 AM	*Allegation Substantiated / Perpetrator Substantiated	Yes	[redacted]
								12/12/2023

* = This allegation set has been reclassified.

C. Disposition Decision

Disposition Decision: Assessed and Closed

Comments: [redacted] will reside with his mother [redacted] father [redacted] and brother [redacted] in [redacted] County.

D. Case Workers

Case Worker: [redacted]

Date: 10/22/2024

Team Leader: [redacted]

Date: 10/23/2024

E. Investigation Summary

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

The twins were born premature and [redacted] did not survive. Mother had been using THC that possibly had an effect on the premature delivery

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

The twins were born at [redacted] Hospital.

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

Mother stated that she was not aware she was pregnant and stopped using THC upon realization.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

TWINS BORN PREMATURE IN NICU AT [redacted] NO URINE DRUG SCREEN ON THE MOTHER. TWINS URINE DRUG SCREENS NEGATIVE. UMBILICAL CORD DRUG SCREEN POSITIVE FOR THC. MOTHER REPORTED SHE DID NOT KNOW SHE WAS PREGNANT, DIDNT KNOW SHE WAS PREGNANT.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

Based on the evidence the case is classified and closed as Allegation Unsubstantiated Perpetrator Unsubstantiated for Abuse Death and Allegation Substantiated Perpetrator Substantiated for Drug Exposed Child per policy 14.6.
