

Duval County – VERIFIED

Date of Death – 5/5/2023

Nearly 2-year-old child was pronounced deceased 8 months after she was admitted to the hospital when she sustained severe burns to over 50% of her body while in the care of her mother and her mother's paramour. Prior to that incident, there had been no prior reports involving the child. Because CPT opined that the burns were consistent with immersion burns and were the result of physical abuse, this fatality will be reflected under the Inflicted Trauma causal factor.
