The investigation was assigned to Child Protective Services Investigator (CPSI) [redacted] by Child Protective Services Reader [redacted] The case was transferred to Child Protective Services Investigator (CPSI) [redacted] This case was worked in conjunction with CM [redacted] Police Department Detective [redacted] Police Department Officers [redacted] and [redacted] and EMS [redacted] who were all also on scene.

[redacted] was in the custody of [redacted] her mother, who was not supposed to be at the home due an Immediate Protection Agreement completed by CPSI [redacted] on February 22, 2022, and with her father [redacted] at [redacted] TN [redacted]

On February 22, 2022, Detective (Det.) [redacted] and Officer [redacted] with [redacted] Police Department interviewed the father, [redacted] at the family home. Mr. [redacted] reported that around 10:00pm he gave [redacted] a bottle, and Ms. [redacted] asked for her. Mr. [redacted] said he saw Ms. [redacted] place [redacted] on Ms. [redacted] chest, and he went to sleep. Mr. [redacted] said when he awoke around 5:30 AM, Ms. [redacted] had found [redacted] under the covers between Ms. [redacted] knees laying on her back. Mr. [redacted] contacted 911 and initiated CPR until the fire department arrived.

Detective [redacted] Officer [redacted] and Officer [redacted] interviewed the mother [redacted] at the [redacted] Hospital-[redacted]. Ms. [redacted] reports that last night around 10 PM, she and Mr. [redacted] laid down with [redacted] (Other Involved Child & twin), with [redacted] on Mr. [redacted] chest. Around 11 PM, [redacted] was crying and fussy, and the parents fed both babies. Ms. [redacted] said they laid back down with [redacted] on her chest, and [redacted] in the crib. Ms. [redacted] said they woke up around 5:30 AM, and [redacted] was underneath her knees. Ms. [redacted] said she grabbed [redacted] laid her on the couch, and told Mr. [redacted] to call 911. Mr. [redacted] did as she asked, and EMS and Fire came to take the baby. Ms. [redacted] also reported that this is how the children sleep normally with them. Ms. [redacted] admitted that she was told by CPSI [redacted] on February 22, 2022, that she could not be at the family home until she passes two drug screens, and Ms. [redacted] said she came over to the family home when she knew nobody would be there.

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

On March 1, 2022, the autopsy on [redacted] was completed by [redacted] M.D. The Pathologic Diagnoses: I. Unsafe sleeping conditions: 1. Co-sleeping on sofa with mother 2. Found wedged beneath mothers knees 3. Covered with adult blankets. II. Pleural, pericardial and epicardial petechiae. The cause of death is listed as undetermined, and the manner of death could not be determined.
On May 26, 2022, the investigation was reviewed by the [redacted] Judicial Child Protective Investigative Team (CPIT). Present for this meeting was Executive Director of the Children's Advocacy Center for the [redacted] Judicial District - [redacted]; Assistant District Attorney for the [redacted] Judicial District, [redacted] Police Detective [redacted] Mental Health Professional [redacted], [redacted] County Detective [redacted]; Child Protective Services Investigator [redacted] and Department of Children's Services Team Leader [redacted] The team agreed to classify the allegation of Abuse Death as Allegation Substantiated, Perpetrator Substantiated against [redacted] and the allegation of Lack of Supervision as Allegation Substantiated, Perpetrator Substantiated against [redacted]
On July 28, 2022, the investigation was reviewed again by the [redacted] Judicial Child Protective Investigative Team (CPIT). Present for this meeting was Executive Director of the Children's Advocacy Center for the [redacted] Judicial District [redacted]; Detective [redacted] County Sheriffs Department; [redacted] Mental Health; Detective [redacted] Police Department; Detective [redacted] Police Department; Detective [redacted] Police Department, and Department of Children's Services Team Leader [redacted] Non-voting members include: [redacted]- CAC Forensic interviewer and [redacted]: CAC Family Advocate: via Zoom. The case was re-presented regarding the alleged child victim [redacted] for Lack of Supervision allegations by [redacted] and [redacted] the Alleged Perpetrators, and for Child Death allegations against [redacted] the Alleged Perpetrator. [redacted] was found not breathing between Ms. [redacted] legs. Ms. [redacted] admitted that she came to the home at night when she wasnt supposed to be there. As a result, there is a lack of evidence to support any other classification decision than of Allegation Substantiated Perpetrator Substantiated (ASPS) for both [redacted] and [redacted] for Lack of Supervision Allegations, and Allegation Unsubstantiated Perpetrator Unsubstantiated (AUPU) for Child Death allegation. All voting members present were in agreement to classify the allegation as both Allegation Substantiated Perpetrator Substantiated (ASPS) and Allegation Unsubstantiated Perpetrator Unsubstantiated (AUPU).

Work Aid One defines Abuse Child Death as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.
2. A near death, per Tennessee Code Annotated (TCA) 37-5-107(c)(4) is defined as a serious or critical medical condition resulting from abuse, neglect or child sexual abuse, as reported by a physician who has examined the child subsequent to the abuse or neglect.
NOTE: Preliminary near deaths are always treated as severe child abuse.
Work Aid One defines Lack of Supervision as:
Lack of supervision:
Failure to provide adequate supervision, by a parent or other caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day, or has inadequate parenting knowledge or skills).

TL [redacted] staffed this case with Child Protective Services Case Manager (CM) [redacted] The previous AR was reviewed. Since the last meeting, CM has continued to monitor the case, but she will not be entering attempted face to face notes on the deceased ACV. [redacted] continues to be doing well at the foster home. The abuse death summary was sent to TC [redacted] and Director [redacted] for approval. It was advised that the Abuse Death allegation should be classified AUPU due to the cause of death being unsafe sleep, and the Lack of Supervision allegation should be classified ASPS for both parents. The case was re-presented to CPIT as such and received agreement. The summary was modified to reflect this.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Managers (CM) [redacted] and [redacted] and Team Leaders (TL) [redacted] and [redacted]. Also present was Team Coordinator (TC) [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 2/28/22 concerning the death of ACV [redacted] (1mo). It was reported [redacted] resided with birth mother [redacted] birth father [redacted] and twin sibling [redacted] 1mo] in [redacted] County.

[redacted] and [redacted] were born premature on 12/30/21 with a CPS investigation opening on 1/4/22 concerning allegations of Drug Exposed Child for both infants and the mother listed as the Alleged Perpetrator. It was reported the mother tested positive for THC and buprenorphine upon admission. The twins were in the NICU being monitored for NAS and prematurity. The mother also had complications due to infection of her c-section incision and underwent two surgeries after birth. [redacted] was ready to discharge on 1/14/22; however, the hospital allowed her to remain until 1/24/22 when both babies were ready for discharge. CM stayed in contact with the hospital and PCP to ensure follow-up appointments were scheduled and kept. A home visit was completed at the familys apartment prior to discharge to ensure appropriate and safe sleep was available. The father was drug screened on 1/14/22 and negative for all substances tested. CM had difficulty contacting and scheduling follow-up visit with the family after discharge. On 2/22/22 CM was contacted by PCP stating the parents brought the babies to be seen on 2/21/22 due to concerns the babies were not waking up and eating normally and were vomiting. PCP directed the parents to take the babies to [redacted] ER, where blood work and tests were completed, and they were sent home. They were supposed to follow-up with the PCP on 2/22/22 but they did not, and the PCP could not get in contact with them. CM went straight to the home on 2/22/22. The father was present with [redacted] and stated the mother was at a friends home with [redacted] The father contacted the mother and she returned to the home, appearing under the influence [talking fast, biting lip]. She admitted to using THC initially and agreed to a drug screen, which she then stated she would fail for methamphetamines and had used the day prior. The father was drug screened and negative for all substances. A safety plan was

developed in which the mother agreed to leave the home with no contact with the children until she could pass two clean drug screens. The father agreed to the plan. The maternal grandmother agreed to the plan and help the father while the mother was out of the home. CM reviewed safe sleep again with the family during the visit, removing bumper pads, blankets, and stuffed animals. Additionally, CM followed-up with the pediatrician on 2/24/22 and it was reported the babies were gaining weight, clean, and there were no immediate concerns regarding their well-being.

On 2/27/22 DCS received the referral regarding [redacted] death, which informed the mother was also in the home. The father called 911 at approximately 5:08am. EMS transported [redacted] to the [redacted] Hospital ER where pronounced deceased. CMs observed reenactment with law enforcement at the family home. The mother reported [redacted] was colicky and due to this she placed [redacted] to sleep on the mothers stomach, with her head on the mothers right arm. At some point during the night, it is believed the mother rolled over and [redacted] slid between her and the back of the couch, under the mothers leg with a blanket over head. The mother reported waking at 5am and realizing the baby was underneath her leg when she went to get up. The mother alerted the father and it was observed [redacted] mouth and feet were blue and 911 was called. The home was observed as cluttered with clothes, cigarettes in ashtray on the bathroom floor with pill bottle adjacent, and several other pill bottles laying out on a table that appeared to be prescribed. LE reported evidence of marijuana upstairs and took that into evidence. Several blankets were noted in the crib with the sibling and removed with a discussion again regarding safe sleep. Drug screens were completed on the parents. The father was negative for all substances, and the mother was positive for THC.

Both parents initially lied regarding the grandmothers knowledge of the mother being present in the home and non-compliant with the safety planned agreed upon; however, then admitted the grandmother was in fact aware the mother was coming to the home. The mother and father stated the mother would come to the home at night and when they knew no one would be coming to check.

Following [redacted] death the sibling was placed with a paternal aunt in [redacted] There were concerns following the placement due to [redacted] vomiting and not having bowel movements. PCP advised the aunt to take [redacted] to [redacted] ER on 2/28/22. Tests have been completed and medical is currently reporting [redacted] is failure to thrive and surgery may be forthcoming due to a bowel obstruction with NICU aftercare. CM has been in contact with Safety Nurse for assistance in review of the case. Currently it is unknown if [redacted] condition is related to neglect or a turn in health that can occur naturally. Since placement, the aunt has expressed she will not be able to continue caring for [redacted] long-term with his ongoing medical needs and the needs of her own family. At this time the parents and grandmother have agreed to no contact through IPA.

Next Steps:
-- CM will request current ACV and sibling medical records to include birth, PCP, ER treatment Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will complete hair follicle/drug screen for sibling if possible.
-- CM will complete petition for custody and CFTM.
-- CM will continue safety assessment and update IPA regarding parents and grandmother contact with sibling to supervised contact while hospitalized if possible.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Initial abuse death referral ([redacted] summary: 2/27/22
This P1 CPIT referral was received at 6:59am on 2/27/22 with the allegations of Abuse Death against an Unknown Participant on [redacted] almost two months old. The birth mother is [redacted] the birth father is [redacted] and the deceased childs twin brother is [redacted] The family lives at [redacted], [redacted] TN. The maternal grandmother is [redacted] It was reported to Case Manager [redacted] that 911 received a call at 5:08am regarding a call about an unresponsive child. [redacted] was transported to [redacted] Hospital [redacted] and pronounced deceased at 5:53am.

Team leader (TL) [redacted] dispatched Case Manager (CM) [redacted] to respond at 7:12am. At 7:20am, TL [redacted] spoke to [redacted] Police Department Lieutenant [redacted] who stated that officers and the coroner had already taken photos of the deceased child, [redacted] and they were about to go to the family home to reenact the incident. TL [redacted] informed him that CM [redacted] was on his way and would join them there. TL [redacted] contacted CM [redacted] who has an open case on the family (inv ID [redacted] at 7:30am. She informed TL [redacted] that the childrens pediatrician had concerns about the family, and Ms. [redacted] had admitted to using meth on 2/22/22, so she completed an Immediate Protection Agreement (IPA) for the mother to have no contact with the children. She was supposed to be staying at her mothers house, and Mr. [redacted] was going to continue to care for the children with the maternal grandmothers assistance because his drug screen was negative. CM [redacted] stated she would go to the family home to assist CM [redacted]

At 7:46am, TL [redacted] spoke to the referent who had already left the scene and referred him to [redacted] Police Department Detective [redacted] TL [redacted] made contact with Detective [redacted] who informed him that she had observed [redacted] to not have visible suspicious marks for bruising. TL [redacted] informed her of the recent IPA for Ms. [redacted] to have no contact with the children and pointed out that both parents and the maternal grandmother had knowlingly violated the IPA. TL [redacted] then contacted TC [redacted] at 8:19am and informed her of the child death referral in [redacted] County.

Child Protective Services Case Manager (CM) [redacted] met response and staffed the case with TL [redacted] at 9:20am. He reported that, when he arrived at the home, he observed [redacted] in a sleeper outfit lying in a crib

with blanket at the bottom and toys at the top. Once law enforcement had taken photos, CM [redacted] asked that these items be removed, and he encouraged safe sleep at all times. [redacted] was not observed to have any suspicious marks or bruises on him at that time. CM [redacted] also observed the home to be cluttered throughout with family belongings, dirty ashtrays, dirty dishes, dishes with old food still in them, cigarette butts on the bathroom floor, and a bottle of over-the-counter pills on the floor. CM [redacted] will upload his photos to Tfacts. He will also obtain any photos taken by law enforcement and upload those as well. Detective [redacted] informed him that evidence of THC was collected from the upstairs bedroom. Both parents were administered urine drug screens. Mr. [redacted] was negative for all substances, and Ms. [redacted] was positive for THC. She admitted to using THC on 2/21/22.

CM [redacted] reported that the [redacted] Police Department conducted a reenactment of the child's death that proceeded as follows: Mr. [redacted] reported that, around 11pm, he made [redacted] a bottle and placed the child on her mother's stomach with [redacted] head on her right arm. He later recanted this statement and stated that Ms. [redacted] had made the bottle. After [redacted] was placed on her mother's stomach, both the infant and mother fell asleep. Ms. [redacted] then awakened around 5am and found [redacted] buried in the couch between her leg and back of the sofa with a blanket covering her head. Mr. [redacted] called 911, and when the firefighters arrived, they started CPR on [redacted] with her lying on the reclining part of the couch.

CM [redacted] met with each parent separately to get their statement regarding the last 24 hours. Mr. [redacted] reported [redacted] was crying about 10 minutes before getting her a bottle. He then placed [redacted] with her mother and went to sleep on the couch. Mr. [redacted] stated that the maternal grandmother was not aware that Ms. [redacted] was at the home. He said he last saw Ms. [redacted] use THC on 2/21/22, and he denied ever seeing her use Meth. Ms. [redacted] first attempted to lie to CM [redacted] and told her the maternal grandmother didnt know she was there, but then she let it slip in her interview with CM [redacted] and admitted that she did know. Ms. [redacted] also told CM [redacted] that she had been sneaking into the home with the children at night after they thought no one would check on them. Ms. [redacted] reported that she had called her mother to pick up [redacted] earlier that morning, and that she, Mr. [redacted] and [redacted] left home together and went to pick up [redacted] from the grandmothers house. Ms. [redacted] stated they got back home and settled down to watch a movie, but before 11:00pm, [redacted] began to cry and acted like she could not burp. She said they tried laying her down in the crib, but she would not stop crying, so Mr. [redacted] made a bottle and placed her on her mother's stomach on the couch. Ms. [redacted] reported she then fell asleep with [redacted] on her stomach, and when she awoke around 5:00am, she realized that [redacted] was underneath her. Mr. [redacted] took [redacted] and placed her on the bed then went to turn the light on. When the lights were turned on, Ms. [redacted] noticed that [redacted] lips and feet were blue, but she was still warm to the touch. Mr. [redacted] then called 911, and then started CPR.

CM [redacted] collected information to begin a Genogram and, at approximately 10am, requested an IPA to place [redacted] out of the home with Mr. [redacted] brother, [redacted], since the prior IPA had been violated. It was found that [redacted] and his wife, [redacted] are willing to take [redacted] They live in public housing in [redacted] TN with their two children, a one year old male and a three year old female. Mr. [redacted] is a stay at home dad, and Mrs. [redacted] works at a veterinary clinic. Tfacts, internet history, and CodeX checks were clear on both. CM [redacted] received an emergency response for a deceased infant. The infant child is [redacted] resided with [redacted] (biological father), [redacted] (birth mother), and [redacted] (Twin Brother). The family is located at [redacted] TN. [redacted] was lying in the crib with blankets at the bottom and toys at the top; CM asked for these items to be removed, but the Detective requested them to be left for pictures. CM was able to remove the items after the photos. was dressed in joggers and a loose shirt. Mr. [redacted] was dressed in sweatpants and a shirt. [redacted] was dressed in a sleeper outfit.

The home presented with clutter. CM found dirty dishes and dishes with food in the kitchen. Cigarettes were found on the bathroom floor with a bottle of over-the-counter pills. CM [redacted] collected photos of the home, and these will be uploaded into TFACTS.

It was reported to Case Manager [redacted] that 911 received a call at 5:08 a.m. regarding a call about an unresponsive child. [redacted] was transported to [redacted] was pronounced deceased at 5:53 a.m. 02/27/2022.

CM [redacted] meets with the DET. [redacted] at the location. Det. [redacted] advises that some evidence of THC was collected from the upstairs bedroom. CM [redacted] asked Ms. [redacted] & Mr. [redacted] to provide a urinary drug screen based on these findings and previously failed drug screens. Mr. [redacted] tested negative for all substances. Ms. [redacted] tested positive for THC and had admitted to using THC on 2.21.22

[redacted] police department conducted a reenactment of the child's death. Mr. [redacted] reported that around 11 p.m., he made [redacted] a bottle and placed the child on her mother's stomach with [redacted] head on her right arm. Mr. [redacted] later recanted this statement and stated that Ms. [redacted] had made the bottle. After [redacted] was placed on her mother's stomach, both the infant and mother fell asleep.

The mother then had awakened around 5 a.m. and found the baby buried in the couch between her leg and back of the sofa with a blanket covered over her head. At this point, a 911 call was placed.

When the firefighters arrived, CPR started on [redacted] with her lying on the reclining part of the couch.

CM then met with each parent separately to get their statement on the last 24 hours.
Mr. [redacted] reported that nothing out of the ordinary was happening that day. Mr. [redacted] said that [redacted] was crying about 10 mins before getting her a bottle. He then placed [redacted] with her mother, and he went to sleep on the couch. CM [redacted] asked if Ms. [redacted] mother knew she was here and violated the IPA agreement, and Mr. [redacted] said she was not aware. CM [redacted] asked if he felt well leading up to the event, and he responded that he did. Next, CM [redacted] asked when he had seen Ms. [redacted] do THC, and he answered that he saw her use on Monday (2.21.22). CM [redacted] then asked Mr. [redacted] when he had last seen her use Meth, and Mr. [redacted] denied ever seeing her due Meth.
CM [redacted] then met with Ms. [redacted] for her statement for the last 24 hours.
Ms. [redacted] reported that she had called her mother to pick up [redacted] earlier that morning. Ms. [redacted] said that she, Mr. [redacted] and [redacted] left home together and went to pick up [redacted] Ms. [redacted] stated that when they got back home [redacted] TN), the family began to settle down to watch a movie. Before 11:00 p.m., [redacted] began to cry and acted like she could not burp, so they tried to lay her down in the crip. [redacted] would not stop crying, so Mr. [redacted] made a bottle and placed her on her mother's stomach. At this time, Ms. [redacted] reported that she fell asleep with [redacted] on her stomach. Ms. [redacted] stated she then woke up around 5:00 placed her feet on the floor and realized that [redacted] was underneath her. Mr. [redacted] at this time, placed [redacted] on the bed and went to turn the light on. When the lights were turned on, Ms. [redacted] noticed that [redacted] lips and feet were blue, but she was still warm to the touch. Mr. [redacted] placed the 911 call. Ms. [redacted] stated Mr. [redacted] then started CPR.
CM [redacted] then collected information to begin a Genogram.
CM then staffed the case with TL [redacted] and requested an IPA to place [redacted] out of the home since the prior IPA order was violated. TL [redacted] then staffed with the on-call TC, who granted the request for the IPA.
The IPA read as follows. [redacted] would reside with [redacted] and [redacted] (Paternal Aunt and Uncle). [redacted] shall have no contact with his parents or the maternal grandmother, who also violated the prior order.
Code X report was run with verbal permission from [redacted] and [redacted]. The code x results were clear with no match.
CM [redacted] will conduct the custodial home study.
[redacted] Police department collected pictures, evidence from the scene. CM [redacted] will collect a copy of these items from Det. [redacted]

Case Name : [redacted] **Investigation ID:** [redacted]

On March 1, 2022, the autopsy on [redacted] was completed by [redacted] M.D. The Pathologic Diagnoses: I. Unsafe sleeping conditions: 1. Co-sleeping on sofa with mother 2. Found wedged beneath mother's knees 3. Covered with adult blankets. II. Pleural, pericardial and epicardial petechiae. The cause of death is listed as undetermined, and the manner of death could not be determined.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

Ms. [redacted] reports that last night around 10 PM, she and Mr. [redacted] laid down with [redacted] (Other Involved Child & twin), with [redacted] on Mr. [redacted] chest. Around 11 PM, [redacted] was crying and fussy, and the parents fed both babies. Ms. [redacted] said they laid back down with [redacted] on her chest, and [redacted] in the crib. Ms. [redacted] said they woke up around 5:30 AM, and [redacted] was underneath her knees. Ms. [redacted] said she grabbed [redacted] laid her on the couch, and told Mr. [redacted] to call 911. Mr. [redacted] did as she asked, and EMS and Fire came to take the baby. Ms. [redacted] also reported that this is how the children sleep normally with them. Ms. [redacted] admitted that she was told by CPSI [redacted] on February 22, 2022, that she could not be at the family home until she passes two drug screens, and Ms. [redacted] said she came over to the family home when she knew nobody would be there.

Mr. [redacted] reported that around 10:00pm he gave [redacted] a bottle, and Ms. [redacted] asked for her. Mr. [redacted] said he saw Ms. [redacted] place [redacted] on Ms. [redacted] chest, and he went to sleep. Mr. [redacted] said when he awoke around 5:30 AM, Ms. [redacted] had found [redacted] under the covers between Ms. [redacted] knees laying on her back. Mr. [redacted] contacted 911 and initiated CPR until the fire department arrived.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

911 received a call at 5:08 a.m. [redacted] on February 27, 2022, regarding a call about an unresponsive child. [redacted] said [redacted] was colicky and due to this she did not put her in the crib but put [redacted] in the bed with her and [redacted] said when woke up 5:00 a.m. [redacted] she realized [redacted] was not up, but underneath some blankets, and not breathing. It is believed at this time a call was made to 911. It is unknown at this time if [redacted] or [redacted] performed CPR on [redacted] EMS staff performed CPR on [redacted] after arriving to the home. [redacted] was transported to [redacted] was pronounced deceased at 5:53 a.m [redacted] on 02/27/2022 but it is unknown by whom. The cause of death is unknown at this time, but Officer [redacted] suspects the cause of death is suffocation based on [redacted] statement. Officer [redacted] spoke with [redacted] on the phone. There has been no report of any bruises, marks, or injuries to [redacted] but Officer [redacted] has not seen [redacted] is still in a room. [redacted] is at [redacted] with [redacted] and [redacted] just arrived , but it is unknown if she has [redacted] with her.

This call is being made to "get the ball rolling" so there has been no formal interview of [redacted] or [redacted] It is unknown currently if law enforcement is treating this as a potential homicide. [redacted] a detective with the [redacted] PD is on her way to [redacted] The only witnesses who saw [redacted] body at the family's home are [redacted] and EMS staff. Officer [redacted] has not observed the home, so the condition is unknown. Officer [redacted] responded to [redacted] There is no knowledge of domestic violence, drug/alcohol abuse or mental health concerns that pose a risk to [redacted]

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

There is a preponderance of evidence to support the allegation of Lack of Supervision. This investigation will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for Lack of Supervision. There is a lack of evidence to support the allegation of Abuse Death and will be classified as Allegation Unsubstantiated, Perpetrator Unsubstantiated.
