On April 22, 2023, the Department of Childrens Services (DCS) received a referral for allegations of Abuse Death regarding Alleged Child Victim (ACV) [redacted] age one (1) month, and Drug Exposed Child regarding (ACV) [redacted] age three (3). The Alleged Perpetrator (AP) was listed as Unknown Participant as to the abuse death and [redacted] (mother) as to the drug exposed child. The investigation was assigned to Case Manager (CM) [redacted] and Team Leader (TL) [redacted] The case was worked in conjunction with the [redacted] Police Department ([redacted] PD), Detective [redacted] lived at home with his mother, Ms. [redacted] alleged father Mr. [redacted] and sibling [redacted]

On April 22, 2023, [redacted] was transported via [redacted] Medic [redacted] to [redacted] Hospital after Emergency Medical Services (EMS) was dispatched in reference to a cardiopulmonary resuscitation (CPR) in progress on a one-month-old. [redacted] Police responded to the family home and found [redacted] unresponsive. Ms. [redacted] reported [redacted] was on the left corner of her bed when [redacted] jumped on the bed. Ms. [redacted] reported it was unknown if [redacted] hit his head on the bouncy chair near the bed. Ms. [redacted] stated she put cold water on [redacted] slightly moved but he did not wake up. [redacted] time of death was 11:33 a.m. on April 22, 2023. There was marijuana and alcohol observed on the bed where [redacted] was located and in Ms. [redacted] bedroom closet.

CM [redacted] interviewed Ms. [redacted] on April 22, 2023. Ms. [redacted] reported [redacted] usually woke up every two (2) to three (3) hours to eat. Ms. [redacted] reported [redacted] woke up around 06:00 a.m. on April 22, 2023, and ate all his bottle. Ms. [redacted] stated [redacted] woke up again around 08:00 to 08:30 a.m. and did not really want his bottle. Ms. [redacted] stated she went to change [redacted] placing him on the edge of the bed. Ms. [redacted] stated [redacted] came running into the bedroom from the living room and cannonballed on the bed landing next to [redacted] Ms. [redacted] reported [redacted] fell off the bed. Ms. [redacted] reported when she picked [redacted] up, he looked dazed. Ms. [redacted] reported she placed [redacted] in his bathtub seat and began running cool water over him in an attempt to elicit a response. Ms. [redacted] reported [redacted] was making cooing sounds. Ms. [redacted] reported she began doing chest compressions. Ms. [redacted] reported she placed [redacted] back into the bathtub this time holding his head up with the rest of his body in the tub with the drain stopper in place. Ms. [redacted] reported she wrapped [redacted] up and attempted to call her mother, Ms. [redacted] at 10:25 a.m. Ms. [redacted] reported when her mother did not answer she called her friend, Ms. [redacted] at 10:27 a.m. Ms. [redacted] reported Ms. [redacted] told her to run her fingers

around [redacted] mouth/lips to see if he would suckle. Ms. [redacted] reported she called 911 at 10:37 a.m. Ms. [redacted] confirmed there was marijuana and alcohol present in the family home and reported Mr. [redacted] drank often. Ms. [redacted] reported the marijuana was usually kept in her bedroom closet away from [redacted] Ms. [redacted] reported she last drank a glass of wine around 10:00 p.m. on April 21, 2023. Ms. [redacted] consented to a urine drug screen and tested positive for THC on April 22, 2023. Ms. [redacted] consented to an oral alcohol screen on April 22, 2023, and was negative. When speaking about [redacted] temperament, Ms. [redacted] stated [redacted] would have his moments of being calm. Ms. [redacted] stated she would call her mother and Ms. [redacted] because it was like [redacted] did not want to be here. Ms. [redacted] stated [redacted] was a pretty good baby but reported he would have his moments where he was like "leave me alone." Ms. [redacted] stated the morning of the incident he was not extra fussy and was a bit more content more than normal. Ms. [redacted] stated [redacted] was crying but was not super fussy.

CM [redacted] and TL [redacted] interviewed Mr. [redacted] on April 25, 2023. Mr. [redacted] reported he sleeps on the couch in the family home. Mr. [redacted] stated he woke up on the morning of April 22, 2023, between 06:00 - 07:30 a.m. Mr. [redacted] stated that before he left that morning, he saw [redacted] in bed with Ms. [redacted] and [redacted] in his bassinet. Mr. [redacted] reported [redacted] did not look abnormal. Mr. [redacted] estimated he had been at work for around thirty (30) minutes when he received a phone call from Ms. [redacted] Mr. [redacted] reported when he got back to the family home [redacted] was already headed to the hospital via ambulance. Mr. [redacted] denied getting frustrated with [redacted] and reported he would cry when he was gassy. Mr. [redacted] stated due to work he was not able to bond with his children like he would like to. Mr. [redacted] stated from what he knew about what happened on April 22, 2023, Ms. [redacted] had [redacted] on the side of the bed but reported he did not know why she would place him there as he had a pillow he could lay in. Mr. [redacted] reported [redacted] jumped on the bed causing [redacted] to fall. Mr. [redacted] stated Ms. [redacted] tried putting [redacted] in cold water and then called him saying it was not looking good. When asked what he thought happened to [redacted] Mr. [redacted] stated he did not know and stated he did not know if what Ms. [redacted] was saying was the truth and stated he did not know what would happen to a baby that fell.

CM [redacted] received the autopsy report on December 6, 2023, from [redacted] Police Detective [redacted] Per the report, an autopsy of one (1) month old [redacted] James [redacted] was completed by Forensic Pathologist [redacted] on April 23, 2023, at 09:40 a.m. Per the report, the proposed scenario of how injury occurred in the decedent is that he had a short fall from a bed onto a carpeted surface after a sibling jumped on the bed near the decedent. The sibling did not land on the decedent and it is reported that he did not hit his head on anything during the fall. The investigative reports and interviews do not provide a scenario that is consistent with the trauma noted at the time of autopsy. Therefore, based on the circumstances and the collective findings, it is my opinion that the cause of death in this case is blunt force trauma; the manner is homicide. Per the report, Blunt force trauma of the head: dermal contusions and abrasion of the face. Scalp contusions. Subarachnoid and subdural hemorrhage of brain. Subdural and epidural hemorrhage of spinal cord. Optic nerve sheath hemorrhage, bilaterally. Retinal hemorrhages, bilaterally. Blunt force trauma of the torso: Pericardial sac hemorrhage. Blunt force trauma of the extremities: Dermal contusion.

On December 19, 2023, CM [redacted] and TL [redacted] presented the investigation to the [redacted] County Child Protective Investigative Team (CPIT). Those in attendance were: CM [redacted] TL [redacted] Assistant District Attorney (ADA) [redacted], Child Advocacy Forensic Interviewer [redacted], and [redacted] Police Detective [redacted] The team agreed with classification of Allegation Substantiated/Perpetrator Substantiated as to the allegation of Abuse Death by Alleged Perpetrator [redacted] and Allegation Unsubstantiated/Perpetrator Unsubstantiated as to the allegation of Abused Death by Alleged Perpetrator Unknown Participant.

On December 29, 2023, at 09:00 a.m. CM [redacted] observed [redacted] PD Detective [redacted] interview Mr. [redacted] and Ms. [redacted] at the [redacted] Police Department. Detective [redacted] shared the autopsy findings with Ms. [redacted] who denied hurting [redacted] Ms. [redacted] repeated she would not hurt her children. Mr. [redacted] stepped into the interview room and was told the autopsy findings. Mr. [redacted] asked to participate in a polygraph with Ms. [redacted] also agreeing. Detective [redacted] scheduled polygraphs for Ms. [redacted] and Mr. [redacted] for January 05, 2024, at the [redacted] Police Department. Ms. [redacted] and Mr. [redacted] rescheduled.

Child Protective Services Case Manager (CM) [redacted] observed [redacted] Police Detective [redacted] interview [redacted] at the [redacted] Police Department at 09:10 a.m. on 12/29/2023. CM summarizes:

Mr. [redacted] stated he had asked when he would get to speak to the detective. Mr. [redacted] stated the night before the incident he had been watching a movie with [redacted] and stated he took her to her room to go to bed. Mr. [redacted] stated [redacted] slept in her bed for a little but reported she would go into the other bedroom if she was scared or had a nightmare. Mr. [redacted] estimated he laid [redacted] down around 08:00/08:30 p.m. and he went to bed around 09:00/09:30 p.m. that night. Mr. [redacted] stated once the children are asleep he will play video games on the couch. Mr. [redacted] stated Ms. [redacted] left the family apartment that night for around an hour. Mr. [redacted] state during this time [redacted] stayed at home with him. Mr. [redacted] stated around 10:00 p.m. he thought Ms. [redacted] was trying to feed [redacted] Mr. [redacted] stated he works for [redacted] and stated he does not usually work on the weekends but reported he occasionally did. Mr. [redacted] stated around 01:00/02:00 a.m. he heard Ms. [redacted] get up to give [redacted] a bottle. Mr. [redacted] stated on the morning of April 22, 2023, he woke up to get ready for work around 08:00 a.m. Mr. [redacted] stated he went into the bedroom and observed [redacted] and Ms. [redacted] to be in the bed and for [redacted] to be in his bassinet. Mr. [redacted] stated he gave [redacted] a kiss on the forehead and stated [redacted] seemed alright. Mr. [redacted] stated thirty (30) minutes after being at work he received a phone call from Ms. [redacted] saying something was wrong with the [redacted] and he needed to come home. Mr. [redacted] stated he kind of got an attitude with Ms. [redacted] and reported Ms. [redacted] would regularly call him to come home and help. Mr. [redacted] stated he did not want to think anything was wrong with [redacted] and stated he was supposed to spend time with his father that day and reported he thought it was Ms. [redacted] trying to get him home. Mr. [redacted] stated on the way home it felt like he had been punched in the stomach. Mr. [redacted] stated when he arrived home he grabbed [redacted] who was crying and stated he asked an officer how [redacted] was doing. Mr. [redacted] stated the officer told him it was not looking good and [redacted] had already changed colors. Mr. [redacted] stated once at the hospital he knew it was not good and stated he knew he should have told Ms. [redacted] what the officer said but did not. Mr. [redacted] stated Ms. [redacted] told him that [redacted] fell off the bed after [redacted] jumped on the bed, she put him in water, called him and a friend and the friend said to call 911.

Mr. [redacted] stated they were supposed to get DNA testing on [redacted] but reported he did not really care about it. Mr. [redacted]

stated he had been there since [redacted] was born. Mr. [redacted] stated there was a gap in his and Ms. [redacted] relationship and stated he moved to [redacted] TN for a little. Mr. [redacted] stated they wanted to get DNA testing done before [redacted] took his last name.

Mr. [redacted] stated he helped with [redacted] more and reported little babies were fragile and they scared him because he was a larger guy. Mr. [redacted] stated it was the same thing when [redacted] was a baby. Mr. [redacted] stated he would help with feedings and changing when he was home. Mr. [redacted] stated he thought Ms. [redacted] needed someone else at home to help with the children but reported she would not ask for help. Mr. [redacted] stated he would not say Ms. [redacted] had postpartum. Mr. [redacted] stated when he was at work Ms. [redacted] was constantly on the phone asking him to come home. Mr. [redacted] stated most of the time Ms. [redacted] would allow him to finish the job and then come home. Mr. [redacted] stated most of the time when he came home Ms. [redacted] would be calmed down and [redacted] would be watching television/ playing jumping on the bed and [redacted] would be calm. Mr. [redacted] stated Ms. [redacted] was great with [redacted] and stated she would stay up with him.

When asked if he believed the fall from the bed could have killed [redacted] Mr. [redacted] stated he did not know and stated the only thing he could think of was if [redacted] hit the metal thing around the bed and said there was a spike thing around the box frame. Mr. [redacted] stated he could only go off of what he had been told. Mr. [redacted] stated Ms. [redacted] put [redacted] in water and said maybe it was maternal instinct. Mr. [redacted] stated he did not know what he would do if he was in that situation. Mr. [redacted] denied Ms. [redacted] ever being rough with [redacted] Mr. [redacted] stated he and Ms. [redacted] would get into normal arguments about bills. When asked about Ms. [redacted] getting rough with [redacted] Mr. [redacted] stated it was not possible and said he only had to go off of what he had been told. Mr. [redacted] stated the story of what happened has stayed the same with [redacted] falling off the bed after [redacted] jumped on it, putting him in water, and calling 911. Mr. [redacted] stated he trusted Ms. [redacted] and stated he did not think she would harm [redacted]

TC conducted a 90 day review on this date with TL [redacted] and CPSI [redacted] During this case there has been two CFTM's due to continue concerns for placement stability. There was a placement disruption on 7/12/2023 and the sibling was placed with maternal great grandmother. The sibling has a good relationship with the great grandmother. The autopsy is still pending. The parents completed the parenting assessment. A parent assessment recommended parent education and PSG has been completed. The child care referral has been made and she is currently attending daycare. The parents were recommended to complete grief and family counseling. The PSG was denied due to the family already having insurance. The parents were provided with a resource list. A referral was received on 7/8 for allegations of sexual abuse. It was reports that the child had injury to her vagina. The child was taken to emergency dept. of [redacted] of [redacted] CM spoke with physician and he reports no tears or lesions. It was a fungal infection. The parents and placement is cooperating with the treatment. CM has completed a PSG for the needed medication for the child. CM has received all medical records for the deceased and EMS report for initial call. CM has received the notes from law enforcement.

Next Steps: present to CPIT, await autopsy, follow-up on services for child and family,

On this date and time this investigation was staffed on-call between CM [redacted] and TL [redacted] Allegations of sexual abuse perpetrated against the ACV. Referral alleged that child was seen in a walk in clinic with severe vaginal and anal pain. Treating physician was concerned the child may have been the victim of sexual abuse. Upon staffing investigation it was learned that on-call CM was familiar with the family and child had recently been safety placed with grandmother. Response was met on this date by CM with the help of law enforcement. Due to the age of the child a minimal facts interview could not be completed however a ncpp was developed stating grandmother agreed to
Immediately have the child evaluate in the ER, follow all medical recommendations, and ensure appropriate supervision. Child was taken the the ER and evaluated and ER doctor reported no concerns of sexual abuse reporting that childs symptoms were due to natural causes.

Child Protective Services Case Manager (CM) [redacted] received Ms. [redacted] parenting assessment recommendations on this date. Per the report: "The parent should attend medical and school appointments with the child to learn how to help communication of their development and participate in their care. The parent should participate in individual therapy with a focus on grief as well as on family to assist the family in developing communication skills and learning to process emotions appropriately. The parent should attend parenting classes to further develop parenting skills including discipline, engagement, and setting appropriate boundaries with her child. Sessions should incorporate education on age-appropriate parenting as well. The parent should also attend IOP for acknowledgment of substance use, and to understand the effects use has on self and other family members." The full report has been uploaded to TFACTS.

Child Protective Services Case Manager (CM) [redacted] received Mr. [redacted] parenting assessment recommendations on this date. Per the report: "The parent should attend medical and school appointments with the child to learn how to help them continue their development and participate in their care. The parent should participate in individual therapy with a focus in grief as well as family to assist the family in developing communication skills and learning to process emotions appropriately. The parent should attend parenting classes to further develop parenting skills including discipline, engagement, and setting appropriate boundaries with his child. Sessions should incorporate education on age-appropriate parenting as well." The full report has been uploaded into TFACTS.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leader (TL) [redacted] Also present was Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 4/22/23 concerning the death of ACV [redacted] (1mo). It was reported [redacted] resided with his birth mother [redacted] putative father [redacted] and 3yo sibling [redacted] in [redacted] County.

On the morning of 4/22/23, at approximately 10:30am, the mother called 911 from the family home reporting [redacted] was unresponsive. LE was the first to arrive on scene where the mother was attempting CPR. The mother reported she had initially attempted chest compressions with her whole hand. EMS arrived shortly after, and [redacted] was transported to [redacted] where pronounced deceased. An autopsy was completed with results pending.

CM interviewed the mother who stated the family typically starts their bedtime routine at 9pm with the 3yo sibling getting on pajamas, TV of at 9:30pm, and asleep by 10pm. She reported [redacted] would typically wake every 2-3 hours for a feeding, recalling he woke at 6am on 4/22/23 and finished all 3 ounces of his bottle. He woke next around 8:15am, but during this feeding he did not finish his bottle and acted like he didnt want it. The mother got the 3yo sibling up at this time and she prepared breakfast. The mother stated she then went to tend to [redacted] placing him on the corner edge of the bed to change his diaper. When she went to another area of the room to get a new diaper and wipes, the 3yo sibling allegedly ran in from the living room, did a cannonball onto the bed near where [redacted] was placed, although did not land on him, and [redacted] was thrown to the carpeted floor. The measurement from top of mattress to floor is 1 foot 11 inches. It was unknown if he hit his head during the fall. The mother reported she picked [redacted] up and he looked dazed/sleepy, and she put him in his bath seat in the in cool water in an attempt rouse him. She then took hm out started chest compressions with her whole hand, she then placed in back in the tub and he appeared to be breathing a making cooing sounds. She then called her mother at 10:25am and there was no answer. Next, she called her friend [redacted] at 10:27 who recommend she run her finger around [redacted] mouth to see if he would suckle. EMS was called at 10:37am with the first officer arriving at 10:40am. It was noted LE observed marijuana and alcohol in the home in open access to the children. The mothers explanation of where

[redacted] landed on the floor has been inconsistent, but she reported he landed on his side on the floor. The mother reported when asked about [redacted] temperament he acted like he didnt want to be here. The mother was drug screened and tested positive for THC only, admitting to smoking marijuana in the closet, but not around the children. The mother additionally consented to an oral mouth swab due the alcohol containers observed in the home with results pending. The mother stated 2-3 weeks prior there was previous incident where [redacted] appeared dazed, but was acting fine soon after. The mother reported she planned to bring this up to the PCP at their next scheduled appointment on 4/20/23 but they overslept and didnt go.

CM interviewed the father who reported he typically goes into work between 6:30-7:30am. He reported he sleeps on the couch in the living room and the mother sleeps in the bed with [redacted] in the bassinet. He left that morning and kissed the mother on head, observing the 3yo in bed with the mother and [redacted] sleeping in the bassinet with a blanket. He did not go over to [redacted] or observe him closely at that time. HE got a call from the mother at work at the time of the incident but reported he didnt want to believe anything was wrong. When he arrived at the home [redacted] had already left ambulance. The father reported regarding temperament [redacted] was good baby only crying when gassy. The father questioned whether the mother was telling the whole truth.

LE reported ME stated preliminary findings indicate significant head trauma [subdural hematomas] to multiple side of the head with tests results pending for retinal hemorrhaging. An IPA was completed voluntarily placing the 3yo sibling with the maternal grandmother, restricting unsupervised contact with the parents currently an no overnight visits. The 3yo sibling has a speech delay and was active in both occupational and speech therapy at the time of the incident. The mother reported the 3yo also has an autism assessment scheduled at the end of May.

Next Steps:
-- CM will request ACVs birth and PCP records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will complete interview with the maternal grandmother to inquire about timeline of last time she observed ACV or if any concerns with the parents.
-- CM will complete collateral interview with the mothers friend who she contacted by phone during the incident.
-- CM will help ensure therapies 3yo is currently receiving transfer and continue under the grandmothers care.
-- CM will provide resource information to the family regarding daycare assistance.
-- CM will develop NCPP with the family to address any identified needs and engage family members in services.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

TL [redacted] staffed investigation with CM [redacted] Investigation received with allegation of Abuse Death to ACV [redacted] by Unknown AP, and allegation of Drug Exposed Child to ACV [redacted] by AP/mother [redacted] CM met response with the mother at the maternal grandmother's home. Ms. [redacted] reported child fell from the bed onto the carpet after his sister jumped on the bed. After, he became "dazed." She put him under cold water to try to elicit a response. She called her mother and a friend, then attempted CPR, then called 911. She admitted to smoking marijuana but denied use around the children. Father was at work at the time of the alleged incident. Due to the concerns found and the unknown cause of death, an IPA was put in place for sibling [redacted] who was placed with maternal grandmother. CM informed by law enforcement that the autopsy was completed. LE reports medical examiner found significant head trauma. CM interviewed father, who did not provide any other explanation to child's death. CM has provided grief counseling resources to the parents. CPIT convened and Detective [redacted] with [redacted]PD assigned. FAST completed, high risk.
