---

**Child's Name:** Torres,Camilia

**Current Report(s) of Abuse/Neglect:**

**Intake Date(s):** 06/05/2025

**Summary of Allegation(s)/Investigation:**

The Department received a report stating the deceased child was in the bathtub with her siblings, ages 3 and 2 alone while their father went to the kitchen to clean. The deceased child's father heard the 3-year-old call out and rushed to the bathtub and the 3-year-old was holding the deceased child and the tub was overflowing. The father took the deceased child to the bed and started to perform cardiopulmonary resuscitation, called an aunt, who then called 911. The deceased child was currently alive and stable but was in critical condition. The deceased child's mother is allegedly in a psychiatric facility.

The Department's investigation determined that the deceased child's father left all three children unattended in a bathtub with running water while he was in another room cleaning and cooking. During this time, the 3-year-old clogged the drain with a rag, causing the tub to overflow and the deceased child drowned. Although the deceased child was taken to the hospital, she was brain dead and passed two days later on 06/07/2025 after being taken off the ventilator. The deceased child's mother was receiving mental health treatment and not in the home at the time of the incident. Upon her release, she was residing with the maternal grandmother.

The medical examiner conducted an autopsy that was still pending at the time the Department's case closed. Preliminary findings were consistent with a drowning.

Law enforcement conducted an investigation however no charges or arrests were made.

**Investigation Findings:**

The Department confirmed the deceased child's father committed neglectful supervision of the deceased child, which led to her death.

The Department confirmed the deceased child's father committed neglectful supervision of the deceased child's 2- and 3-year-old siblings.

**Safety and Risk Assessment Factors Identified:**

Structured Decision Making Safety Assessments:
1.) 06/07/2025: Safety Assessment - Reassessment: Safe with plan
