Dr. [redacted] stated there was a deformity to the left side of [redacted] head and a fracture on both sides of her head. The medical staff also said [redacted] was dirty and not well taken care of. The father [redacted] was not home and was at work at the time of the incident. The father works at the BP on [redacted] and [redacted] A neighbor went to get the father and told him it was an emergency.

While on scene, LE spoke with the mother. [redacted] stated she was getting the children ready to go to a family members house. [redacted] had the baby swaddled and put the baby in the bassinet. [redacted] states she went to check on [redacted] to do her hair. [redacted] changed her mind and she went to check on [redacted] The mother states [redacted] was limp and pale in color. [redacted] then called the police and ambulance about [redacted] [redacted] was observed by the doctor but not medical examiners at this time. It is unknown the ruled cause of death currently. [redacted] is still at [redacted]. The parents are currently at the home with the other 3 children and LE. It is unknown who the suspected perpetrator of the incident is currently. LE is going to treat this incident as a homicide. The homicide unit will be investigating. There have been no arrests made at this time. The children were not interviewed. There were no known safety concerns in the home. The home was cluttered with clothes, shoes, and crumbs but nothing dangerous for the children. There is no domestic violence, drug/alcohol abuse, or mental health concerns.
[redacted] PD is requesting an immediate response to the home address at [redacted] TN [redacted]

Administrative Review for Case Closure

This investigation was submitted to Team Leader (TL) [redacted] for review for case closure. The Alleged Child Victim (ACV) is [redacted] and the Alleged Perpetrator is Unknown. The allegation of Abuse Death was investigated by Child Protective Service Investigator (CPSI) [redacted]

The autopsy results were received and revealed there was no evidence of lethal trauma and based on available investigative information, autopsy findings and additional tests, the manner/cause of death could not be determined. A follow up visit was made with the family and there were no concerns noted. The family reported they were just trying to move past the death of the baby. Grief services were recommended to the family. This case has been reviewed by upper management and approval for closure has been granted.

The allegation of Abuse Death is classified as Allegation Unsubstantiated Perpetrator Unsubstantiated (AUPU). A closing FAST was completed resulting in Immediate Intervention Not Recommended and No Need/Risk. The case was presented to the Child Protective Investigative Team (CPIT) and the CPIT Partners & the ADA agreed with the classification decision of AUPU. The referent notification has been made through the CARAT System. The 740 has been completed, uploaded in TFACTS, and will be forwarded to the Juvenile Court Judge and the District Attorney for classification.

TL [redacted] has reviewed the case file and is approving the investigation for closure.

Narrative Type: Original Entry Date/Time: 03/12/2024 10:57 AM Entered By: [redacted]

On March 20, 2022, the Department of Childrens Services (DCS) received a referral for an allegation of Abuse Death regarding Alleged Child Victim (ACV) [redacted] The Alleged Perpetrator (AP) is unknown. This investigation was assigned to Child Protective Services Investigator (CPSI) [redacted] by Lead Investigator (LI) [redacted] This case was worked in conjunction with [redacted] Police Department ([redacted]PD) Officer, Detective [redacted]

[redacted] lived at home with birth parents [redacted] and [redacted] Also in the home are siblings; [redacted] (6), [redacted] (6) and [redacted] (1).
On March 20, 2022, [redacted] Police Department responded to the home of an unresponsive child. It was reported that a two-month-old was found unresponsive by her mother. When LE arrived-on scene, paramedics and birth mother, [redacted] were trying to get the child to respond. Miss [redacted] reports swaddling [redacted] and putting her down for a nap. When Miss [redacted] came back to check on [redacted] she was non-responsive. EMS transported [redacted] to [redacted] Childrens Hospital [redacted]CH) in critical condition. Dr. [redacted] at [redacted] reports observing a deformity on [redacted] head as well as a fractures on both sides of her head. [redacted] was pronounced deceased at 5:06pm on March 20, 2022.

CPSI [redacted] interviewed Miss [redacted] Miss [redacted] provided a timeline for the weekend. She reported that on Saturday 03/19/21 she got off work at 3pm and when she arrived home, [redacted] was observed to be sleeping. Miss [redacted] stated that [redacted] had been sleeping since she left for work. Miss [redacted] stated that she fed, burped, and changed [redacted] and then laid the child back down. Miss [redacted] stated that she was back up at around 2 am at which time [redacted] was fed again. Miss [redacted] stated that [redacted] went back to sleep after that. Miss [redacted] stated that [redacted] woke up Sunday around 6 am, was fed, and laid back down. She stated that she went to work, she got off at 3pm, and then she came home to pick up her husband and drop him off at work around 4pm. She then stated that she thought her brother, [redacted] was home however he was not. Miss [redacted] then stated that she returned home and began getting the children ready for a get together later that day. Miss [redacted] stated that 20 minutes later she noticed that the child was limp and pale. Miss [redacted] and sibling, [redacted] contacted emergency services.

Case Status:	Close	Organization:	[redacted] Region

CPSI [redacted] then spoke with the father, Mr. [redacted] privately. Mr. [redacted] was asked to provide a timeline for the weekends. He stated that he worked Friday night and his wife had to be at work at 7 am the following morning. Mr. [redacted] stated that his wife got off work at 3pm on Saturday. Mr. [redacted] stated that he had to be at work at 4pm on Saturday. Mr. [redacted] reported that on Sunday, 03/20/21, he checked on the child that day and she was fine. Mr. [redacted] stated that he picked his wife up at 2:45 pm. Mr. [redacted] stated that when Miss [redacted] returned home, she fed the child and proceeded to drop him off at work for his 4pm shift. Mr. [redacted] stated that the neighbor came to get him from his job and that is when he saw first responders at the home.

On March 21, 2022, an autopsy was completed on [redacted] by Dr. [redacted] Regional Forensics Center, [redacted] TN. The autopsy stated, The decedent was a 2-month-old female infant with a history of premature birth, low birth weight, in utero drug exposure, anemia of prematurity, and feeding difficulties. Autopsy examination showed an emaciated infant girl who was small for adjusted age (less than 1st percentile) by standard growth curves. Findings from the head exam were suggestive of craniotabes. Craniotabes is a nonspecific finding that has been associated with various metabolic bone diseases, including osteogenesis imperfecta and rickets, however, it is also seen in otherwise healthy neonates and is considered a variant of normal. There was no evidence of lethal trauma. There is evidence of malnutrition and possible dehydration. However, the circumstances around this are currently unclear. Based on available investigative information, autopsy findings and additional tests, the manner/cause of death could not be determined.

CPSI [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT) on December 07, 2023. The team agreed that there was not a preponderance to support the allegation of Abuse Death.
Per DCS Policy Work Aid 1 Section E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

During the investigation, siblings [redacted] and [redacted] were placed with maternal grandparents, [redacted] and [redacted] via an Immediate Protection Agreement due to initial statements being made by medical personnel that [redacted] had skull fractures. A Child and Family Team Meeting was held with them family and it was recommended that after gathering additional information, the Immediate Protection Agreement would be dissolved, and the siblings would be able to go back home. Grief services were recommended for both parents and siblings.
There is not a preponderance of evidence to support the allegation of Abuse Death. This case will be closed and classified as Allegation Unsubstantiated, Perpetrator Unsubstantiated for the Abuse Death of [redacted]

Administrative Review

This CPS (Child Protective Services) Investigation was reviewed regarding the allegation of Abuse Death (ABD). Alleged Child Victim (ACV) is [redacted] (2 Mos), the Alleged Perpetrator (AP) is unknown, and parents are [redacted] and The investigation is assigned to Child Protective Services Investigator (CPSI) [redacted] When DCS initially received the referral it was reported the ACV was observed with a deformity to the left side of the ACV'S head. It was also reported the ACV had fractures on both side of her head. It was later determined the ACV had no skull fractures, and the mother was not aware of any deformity of the ACV'S head. The mother stated the deformity was never told of discussed with her.

There were also concerns of the ACV being dirty, and not well taken care of. At initial onset of investigation the ACV'S siblings, [redacted] (1), [redacted] (6), and [redacted] (4) were also dirty. The oldest sibling disclosed his mom's leaves them at home with ACV when she goes to pick up their father from work. The surviving siblings were placed in the temporary custody of the grandmother on Immediate Protection Agreement (IPA). The grandmother got the boys haircuts and cleaned up the children. It was later determined the child did not have any skull fractures, and the deformity is unclear. The siblings have returned to the care of their parents and the IPA was resolved on 03-29-21. The two oldest siblings participated in Forensic Interviews which resulted in no disclosure of abuse or neglect.

CPSI [redacted] has discussed counseling services with the family. The mother is not ready to commit to counseling at this time and wants time to go through her own grieving process. The mother is interested in counseling for [redacted] CPSI will continue monthly contact with family, refer oldest sibling for counseling, request birth and medical records, follow-up with Law Enforcement regarding supporting evidence, upload autopsy once received, classify allegation as AUPU, present to CPIT, and complete closing FAST.

Sibling, [redacted] was brought into the [redacted] Child Advocacy Center for a forensic interview. [redacted] stated the following, "[redacted] told the interviewer that he came in the house one day after being outside due to hearing his mother screaming. [redacted] said that when he came inside his mother was screaming and crying saying that the baby ([redacted] wasnt breathing. [redacted] told the interviewer that he ran to a neighbors house beating on the door to tell her that his sister wasnt breathing. He said that his mother went to the neighbor across the street from them. [redacted] denied seeing anyone do anything to harm his sister prior to this day. He told the interviewer that his sister wasnt mobile and that she had her own vibrating bed to sleep in. There was no disclosure of abuse."

Sibling [redacted] was not able to be interviewed due to child being to young to speak clearly.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Managers (CM) [redacted] and [redacted] and Team Leaders (TL) [redacted], and [redacted]. Also present was Team Coordinators (TC) [redacted] and [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 3/21/22 concerning the death of ACV [redacted] (2mo). It was reported [redacted] resided with her birth mother [redacted] birth father [redacted] and three siblings [redacted] 1yo, [redacted] 4yo, and [redacted] 6yo] in [redacted] County.

On 3/20/22 911 was called to the family home at approximately 5:06pm upon the mother finding [redacted] unresponsive. The other children were present at the home and the father was at work. [redacted] was transported to [redacted] and pronounced deceased at 5:36pm. Medical initially reported a deformity to the left side of [redacted] head and fractures on both sides of her head. [redacted] has since reported fractures are not present and the initial report was inaccurate.

The mother and father both work at a BP gas station, but different shifts. On 3/20/22 the mother had worked an earlier shift, getting of work at approximately 3pm and then taking the father to work to begin his shift at 4pm due to the family having one vehicle. The parents initially reported a family member had watched the children during their shift change and commute, but later admitted they had left the children home and unsupervised during this time. The mother reported when she returned from taking the father to work, she fed and changed [redacted] and put her down to sleep in her bassinet while she tended to the other children. She reported she checked on her within 20 minutes she found [redacted] unresponsive, pale, and limp and sent the 6yo sibling to a neighbor for help. 911 was called at that point. The parents reported no health concerns with [redacted] other than she seemed to be sleeping for longer periods recently.

Currently cause of death is unknown and autopsy is pending. An IPA was completed for the surviving siblings to stay with the maternal grandparents. The family had a recently closed investigation concerning allegations of

DEC at the time of [redacted] birth as she and the mother were positive for THC. There was no evidence of drugs or drug use in the home or impairment reported by LE/first responders. More information regarding the head deformity mention in the referral in unknown at this time.

Next Steps:
-- CM will request current birth and PCP records for the ACV. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will follow-up regarding ACV head deformity through medical record review, PCP collateral, and family interviews.
-- CM will schedule CFTM and continue safety and service support with the family.
-- CM will scheduled FI for the 6yo sibling and complete collateral with school.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Child Protective Services Investigator (CPSI) [redacted] scheduled a Child and Family Team meeting regarding the allegation of Abuse Death, naming the Alleged Child Victim (ACV) [redacted] naming Alleged Perpetrator (AP) Unknown Participant.

The CFTM was scheduled as a potential removal for the ACV.

During this meeting, next steps for the family were identified. It was discussed that the family was open to services and that the IPA would be dissolved, and a safety plan would be put in place. The safety plan that was discussed that for future there would have to be clear communication with whoever is to watch the children for any period prior to them leaving the home. A physical copy of the safety plan will be signed by 04/04/2023. Services will be placed in the home for parents and children as needed.

On 3/20/22 the Department received a P1 intake reporting 2 month old [redacted] had been transported to [redacted] in Critical condition. The mother reported the victim being swaddled and put in bassinette. The mother reported returning to check on victim and found victim pale and limp. The mother called the ambulance. The birth father was reported to be at work at the time of the incident. There are 3 additional children in the home.
[redacted] 6, [redacted] 4, and [redacted] 1. The victim was pronounced deceased 3/20/22 5:36pm at [redacted] Children Hospital.

According to intake Dr. [redacted] reported victim had a deformity and skull fractures to both sides of face. It was also reported the victim was dirty and not taken care of. The mother and father have been interviewed by [redacted]PD Homicide. It was also reported that an Uncle was staying in the home and was helping watching the children during this transition. According to CPSI [redacted] the father and Uncle had an argument earlier regarding rent monies. It was reported the Uncle left the home and left the children unsupervised. They were found alone.

According to CPSI [redacted] she observed a picture of the victim and reported the victim as being small in size. CPSI [redacted] reported observing the victims ribs and she looked underweight. It is unknown at this time if the victim was premature or if the mother was breast feeding. According to [redacted]PD the Uncle is a primary suspect and the parents are as well. There were no charges filed against the parents at this time. The Uncle whereabouts are unknown at this time. The siblings were observed to be free of any marks, injuries or bruises according to CPSI [redacted]

CPSI [redacted] spoke to homicide detective immediately upon being assigned this case. CPSI [redacted] introduced herself to Det. [redacted] as the permanent assigned case worker to this case. CPSI [redacted] inquired with Det. [redacted] regarding an update on the case. Det. [redacted] shared with CPSI [redacted] that she had received information that the doctor in the ER that was treating ACV [redacted] made a mistake when she stated that the child had skull fractures. Upon further review Det. [redacted] stated that medical personnel had stated that the child has some kind of skull deformity that had not been identified at birth and it was now being diagnosed. Det. [redacted] stated that they would be closing their case and not pursuing this as a homicide.

CPSI [redacted] met with [redacted] at the Homicide Bureau. Sgt. [redacted] reported that the acv, [redacted] (2 Mos) had a fractured skull on the right and left side of her head at the time of death. She reported that at approximately 04:28pm the mother, Ms. [redacted] sent her son, [redacted] (6) to the neighbors home at [redacted] TN [redacted] The neighbor did CPR and he reported that the baby was warm to the touch.

CPSI [redacted] observed the crime scene photos of the deceased child. She was observed to be very small and her bones where visible in her chest. She was reportedly 4 pounds at the time of death. The home was unkept however no safety hazards were observed. A bassinet was observed in the photos.

Sgt. [redacted] reported that the mother stated that she laid the child down for 20 minutes before she found the child unresponsive. She reported that there was no food or formula observed in the home and she was advised the child was premature. The remaining children are [redacted]), [redacted] ([redacted]), and [redacted] ([redacted]). She reported that the father, [redacted] was at work at the time. She reported that the children are currently with their maternal aunt Ms. [redacted]). Sgt. [redacted] then advised that the parents are about to be interviewed privately. She reported that they did not know at this time that [redacted] was deceased.

After the parents were interviewed by law enforcement, CPSI [redacted] interviewed Ms. [redacted] Ms. [redacted] provided a timeline for the weekends. She reported that on Saturday 03/19/21 she got off of work at 3pm and that [redacted] was sleeping. She stated that the child had been sleeping since she left for work. She stated that she fed, burped, and changed her and laid the child back down. She stated that she was back up at around 2 am and the child was then fed again. She stated that the child went back to sleep after that. She stated that she woke up Sunday around 6 am fed the baby and laid the child down and went to work. She stated that she got off at 3pm and she came home and dropped her husband off at work around 4pm. She then stated that she thought her brother was home however he was not home. She then stated that she returned home and began getting the

children ready for a get together later that day. She stated that 20 minutes later she noticed that the child was limp and pale. She stated that she could not find her phone, so she sent her older son [redacted] to the neighbor house. She stated that she then went over to the neighbor house and knocked. She stated that her brother, Mr. [redacted] left the home yesterday, (Saturday 03/26) around 3 pm.

Ms. [redacted] stated that she feeds the child every 2 hours, and the child was drinking formula. She stated that the child sleeps in a bassinet. Ms. [redacted] reported that she does not know how the injuries occurred. She stated that her brother, Mr. [redacted] has been in the home for 2 or 3 weeks. She stated that she had words with her brother Friday and that is probably why he left Saturday. She stated that he agreed to give her money to rent the room however he did not. She stated that her brother is left with the children when she is taking her husband to work and when he is picking her up from work and he does not hold or change the baby.

CPSI [redacted] then spoke with the father, Mr. [redacted] privately. Mr. [redacted] was asked to provide a timeline for the weekends. He stated that he worked Friday night and his wife had to be at work at 7 am the following morning. He stated that his brother-in-law, Mr. [redacted] has been in the home for a few weeks. He stated that Mr. [redacted] stays with the children while he drops the children off at home. He stated that the child was fine and breathing and moving around when he left for work.

He stated that on Saturday he and his wife had a conversation about Mr. [redacted] because he was supposed to pay however, he had not. He stated that his wife got off of work at 3pm. He stated that he has to be at work at 4pm. He stated that Ms. [redacted] stated that child had been sleeping all day. He then stated that Mr. [redacted] left the home Saturday (03/19/22) after he left for work and he had not returned. He stated that he thinks he overheard him and his wife speaking about the money. He stated that on Sunday (03/20/21) he checked on the child that day and she was fine. He stated that he picked his wife up at 02:45 pm. He stated that when his wife returned home, she fed the child and she then dropped him off at work for 4pm. He stated that the neighbor came to get him from his job and that is when he saw AMR at the home. He reported that he did not know how the injuries occurred.

CPSI [redacted] spoke with Sgt. [redacted] and she reported that no criminal charges are being filed at this time. She reported that the parents did leave the children home alone while they were picking and dropping each other off at work. The uncles whereabouts are unknown at this time. She reported that a forensic interview would be completed for the oldest child [redacted]
