-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (2) and [redacted] (3) reside with their mother, [redacted] (34), in [redacted] County. The children's father is [redacted] (37) and he is believed to be homeless. [redacted] has custody of the children. There is an order of protection against [redacted] so he is not allowed to be around the home.

[redacted] (34) is believed to be the children's aunt and her current address is unknown. It is believed that [redacted] may live next door to the family.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
Immediate response is not being requested and will be left up to DCS to determine.

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
On October 18, 2022 at around 2:54 am ([redacted]), Law Enforcement received a call from [redacted] reported that there was an unresponsive two year old female (identified as [redacted] at the home and [redacted] was doing CPR on [redacted] Law Enforcement responded to the home and [redacted] continued CPR until Law Enforcement responded to the home. The initial Law Enforcement officer arrived about 2-3 minutes after the call was received. Additional officers arrived one or two minutes later. [redacted] was turning purplish/blue when Law Enforcement observed her at the home. [redacted] was completely unclothed and her hair was wet when she was observed at the home. Law Enforcement grabbed [redacted] and put her in Law Enforcement vehicle and rushed to Emergency Room at [redacted] Law Enforcement did not feel that they needed to wait for an ambulance. [redacted] had a gray pulse (very slow) when she arrived at the hospital. [redacted] lost her pulse for about two minutes before hospital staff were able to get it back. [redacted] is currently in route to [redacted] Hospital in [redacted] via helicopter. It is believed that [redacted] is currently in route to [redacted] Hospital so she can be there when [redacted] arrives. A neighbor is taking [redacted] to the hospital. It is unknown at this time if [redacted] will survive. It is believed that [redacted] was without oxygen for approximately ten minutes. The paramedics stated that due to [redacted] being without oxygen for approximately ten minutes it is expected that there will be lasting impact to [redacted] related to the incident.

[redacted] was interviewed to gain information about what happened and she stated that she put both children into the bathtub and ran about six to eight inches of water. [redacted] stated that she went into the kitchen to start washing dishes. [redacted] stated that she went back two or three minutes later and found [redacted] on her side with her face under water. [redacted] stated that she picked [redacted] up and ran outside hollering for help. [redacted] came out from next door and called 911. [redacted] stated that she started CPR and did the best that she could but that she did not really know how to do CPR. [redacted] stated that the reason she put the children in the tub was because [redacted] had a fever on and off all night. [redacted] stated that

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

she gave [redacted] ibuprofen (5 ml) at around 12:30 pm and her fever went down less than a full degree, but then it increased again. [redacted] stated that she put [redacted] in the tub to try to decrease her fever. [redacted] reported that the fever was "low grade" and it is assumed that this means 99-100 degrees. [redacted] was extremely hysterical while speaking with Law Enforcement. [redacted] was not asked if it was normal for her to be bathing the children at the time of night that the incident took place. When [redacted] was interviewed it was not a criminal interview.

[redacted] has bruises all over her face and arms and possibly on her fingertips. It is unclear if there are bruises on [redacted] fingertips because the discoloration could be from [redacted] still being purplish blue from lack of oxygen. It is not known what the bruises on [redacted] face and arms look like but the paramedic, [redacted] (last name unknown, supervisor at [redacted] EMS), stated that the bruises looked like abuse.

It is believed that [redacted] injury is at least caused by neglect because [redacted] left the children unsupervised in the bathtub. There is a detective with [redacted] County Sheriff's Department assigned to the case ([redacted], [redacted] and ask to speak with Detective [redacted] There have not been any arrests at this time but there will be an investigation. The police report number is not available currently. The report will be completed by the initial officer on scene, Deputy [redacted]

[redacted] stated that [redacted] was in the care of [redacted] but this is not clear. [redacted] was not observed by anyone at the home. It is not known if he has any marks or injuries at this time. [redacted] has not been spoken with at this time.

There is an order of protection against [redacted] so he is not allowed near the home. The order of protection was initially related to a domestic assault. [redacted] has been arrested approximately twenty times in the last five years for domestic assault and drug charges. It is believed that the last domestic assault was around six months ago and [redacted] was the victim. The children were present during the incident six months ago. The details of the incident are not known. It is not known if DCS was contacted after that incident. [redacted] and [redacted] have had several domestic altercations. [redacted] has a history of being charged related to methamphetamine possession. [redacted] is believed to be the type of person who lives on the street and will "do whatever he can get." It is not known how long it has been since [redacted] had contact with the children. [redacted] states that he has mental issues every time he is arrested. [redacted] states he is suicidal every time he is arrested. It is not known if [redacted] is diagnosed with any mental health issues. Only the living room of the home was observed. The living room was a little cluttered and could be cleaner but did not appear to be a safety hazard. There is no known history of abuse to the children in the home.

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?
None known

-Anything additional to add to this initial report for the responding worker to know prior to response?
No

The case has been reviewed and accepted for closure.

Justification of the classifications:

For the allegation of lack of supervision (LOS) against Mrs. [redacted] it was agreed by CPIT partners that the appropriate classification is ASPS based on the following facts: Mrs. [redacted] left the children unattended for approximately 10 minutes in waist deep water in the bathtub around 2:30 AM. When Mrs. [redacted] returned to check on them, [redacted] was found faced down in the water, and she was unresponsive. [redacted] would later be pronounced deceased at the [redacted] Hospital.

For the allegation of physical abuse against an unknown perpetrator, the CPIT members agreed the case should be classified as AUPU. Though marks are mentioned in the referral, there were not marks observed at the hospital later. It is believed the discoloration was due to [redacted] having a lack of oxygen. CM [redacted] reports not observing marks while [redacted] was at the [redacted] Hospital. CM also spoke with the Hospital Social Worker [redacted] at [redacted] Hospital, who reports not seeing any bruises on [redacted]

For the allegation of abuse death against Mrs. [redacted] the CPIT partners agreed the case should be classified as AUPU. It does appear to be a tragic accident and not intentional. Mrs. [redacted] the children had been sick and running a temperature, reporting she gave them medicine, but their temperature started to rise again. Mrs. [redacted] stated she placed the children in the bathtub in hopes of reducing their temperature. Mrs. [redacted] did leave the children unattended, but once she found [redacted] to be unresponsive, she immediately found help and CPR was administered and 911 was notified. [redacted] did have an autopsy completed, and the ruling was accidental drowning. LE and the DAs office are not pursuing charges. There is not a ponderance of evidence to support the allegation of abuse death.

County protocol is being followed to notify the judge and DA's office.

Per DCS Policy Work Aid 1 Section E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse

Per DCE Policy Word Aid 1 Section C:
Lack of Supervision:
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e.g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).
c) Any registered sex offender residing in the home with unrelated minor children or victim of offender and/or caregiver knowingly resides with and/or allows children to be unsupervised with a registered sex offender
d) d) Concerns that children in a juvenile justice facility were able to engage in sexual activity that raises lack of appropriate supervision, regardless of age of children and/or if initially reported as consensual. Sexual activity in a juvenile justice facility that falls outside this provision are referred to the Prison Rape Elimination Act (PREA) Coordinator

Case was staffed with CM [redacted] The ACV's brother was interviewed at the CAC, and there weren't any disclosures made. No new information was obtained from the FI. The autopsy is still pending. No children are in the mother's care as the paternal grandmother who resides in AL obtained custody of the ACV's sibling. The hospital has ruled the drowning as accidental. The case needs to be presented at CPIT. LOS will be added as allegation against the mother.

NEXT STEPS:

CM will work on completing the closing summary.

On 2-2 @ 10:16am CM [redacted] called Mrs. [redacted] (grandmother of the [redacted] Children), CM asked if she was busy, she stated no. CM asked if they had court last month, she stated yes, it was on 1-23, CM asked what happened, she stated I was granted full custody of [redacted] She told CM she is waiting on the papers from her attorney so she could get his insurance transferred. CM asked what about visitation with Ms. [redacted] she stated Sunday 10-6pm. Mrs. [redacted] stated Ms. [redacted] I have told her and her parents not the sister, are welcome to her home to visit with [redacted] She stated as a matter of fact I gave her the SUV, she is driving.

Mrs. [redacted] told CM that [redacted] is doing well in daycare and learning and speaking well, CM stated that is good to hear. She went onto tell CM that [redacted] was to wear braces on his legs and [redacted] have not been putting them on him at night as she should. CM told Mrs. [redacted] she did not know anything about [redacted] having to wear leg braces, she stated he has club feet, his left foot is worse. Mrs. [redacted] told CM that [redacted] had a doctors appointment on 1-11 with Dr. [redacted] at [redacted] Hospital, since she has been putting them on him at night, his right leg is getting better, CM stated that is good.

Mrs. [redacted] told CM that [redacted] has 10 days to appeal the hearing, CM stated well, I am sure your attorney would let you know if that does happen. CM asked who is [redacted] attorney, she stated [redacted]. CM asked Mrs. [redacted] if she could bring [redacted] to the CAC once she gets it set up, she stated sure just let her know. CM asked has [redacted] mention [redacted] she stated no, he do not ever ask about her. CM told Mrs. [redacted] she wanted to check on them, she stated [redacted] claims she has a copy of the autopsy, CM stated according to our detective it is not completed. CM stated, I am curious to what she has. CM stated she would check with Det. [redacted] she stated okay. CM stated again, glad to hear [redacted] is doing well.

CM [redacted] received a call from Mrs. [redacted] informing her that Mrs. [redacted] husband passed away a couple hours ago. CM stated, she was sorry to hear that, it is a lot going on, she stated yes. Mrs. [redacted] asked since Mrs. [redacted] husband has died will there still be court on Monday, CM stated yes unless you hear something different. CM stated most likely they would reset it if Mrs. [redacted] is not able to make it due to her husband passing.

Mrs. [redacted] also told CM the doctor has decided to give [redacted] 45ml liquid in he feeding tube, CM stated that is good news. She went onto say her blood pressure is up a little but steady. CM told her if any changes to let her know, she stated, I will.

CM thanked Mrs. [redacted] for calling.

On 10-27 @ 10:04am
CM [redacted] received a call from Mrs. [redacted] (caseworker-hospital) asking if the mother or grandmother have the authority to make a decision of allowing the child to be taken off life support. She went onto say there is nothing much the doctors could do the children has little brain activity and its time to make a decision. CM told Mrs. [redacted] on the petition it stated the grandmother could make medical decision but since the mother has not given up her rights, she is the one to do so.

Mrs. [redacted] stated the doctors want to sit down with the mother and grandmother who is on board with their decision but the mother is still waiting to allow things to be the same. She went onto say they need to talk about taking the child off life support. She stated that she was going speak with their attorney (hospital) and he most likely would call [redacted] (DCS attorney).

A few minutes Attorney [redacted] called CM to ask about the case, she asked CM if she was subpoena for court, CM stated, no. She stated it is a private matter, so you do not have to attend, CM stated she wanted to just to found out what is said. CM told attorney [redacted] court would be in [redacted] Co. at 9am central time, she stated okay, she plans to be there as well.

A few minutes later CM received a call from Mrs. [redacted] stating that Mrs. [redacted] called to say she wanted to get [redacted] today. CM stated most likely she changed her mind which she has a right to do so. CM stated, I will call her and call you back, she stated, okay.

CM then called Mrs. [redacted] asking is it true that she wanted to get [redacted] today, she stated yes, I spoke with my attorney (Mrs. [redacted] and she told me that I could get him. CM stated well, that is your chose, just do not want any arguing among you all, CM stated she would call Mrs. [redacted] to tell her you all need to plan where you all are going to meet for you to get him, she stated okay, thank you.

Calls: 10-26 @ 5:37pm [redacted] and Ms. [redacted]

Mrs. [redacted] called CM to tell her that Mrs. [redacted] (paternal grandmother) filed for custody of the children, an officer just served [redacted] papers at the [redacted]. CM asked if she could send her a copy of the court papers, she stated yes. CM asked if it was signed by a judge, she stated, I have not seen it yet, she was heading to [redacted] now. Then, she told CM that [redacted] had made a statement if it was left up to her, she would allow them to pull the plug on [redacted] and donate her organs. CM stated she does not have to right to decide that Mrs. [redacted] is still the caregiver of the child, it would be up to her and would not have an issues of explaining that to Mrs. [redacted] CM asked for Mrs. [redacted] phone number, she would call her. Mrs. [redacted] asked could she get [redacted] she stated yes if a judge has signed the court paper, there was nothing she could do about it. CM stated in the meantime, again no more arguing, she stated it is not [redacted] is mad at me. Mrs. [redacted] stated court if Monday at 9am.

A few minutes later Mrs. [redacted] called CM asked if she was aware of the court papers, CM stated I got a call from Mrs. [redacted] but have not seen the papers as of yet. Mrs. [redacted] asked who would be the one to decide the fate of the child, CM stated Mrs. [redacted] she has not signed over her rights, no one else has the authority to give any decision and would not have an issues in telling them. CM told Mrs. [redacted] that she would be calling Mrs. [redacted] and get back to her.

CM called Mrs. [redacted] introducing herself and asking what is going on, she stated my issue is with [redacted] (Mrs. [redacted] is telling her that she could not come in the childs room and the doctors could not tell her anything. CM stated Mrs. [redacted] it is up to Mrs. [redacted] who can and cannot come into the childs room it is not [redacted] decision to make. Mrs. [redacted] told CM that her husband was in the hospital, and she has been staying at the hospital with him. She went onto say [redacted] is the one who is making trouble for people, CM stated you all need to stop bickering among each other the child does not need negativity around her. Mrs. [redacted] stated she retained custody of the children today. CM told Mrs. [redacted] by her having custody still does not give her permission to

make decision for [redacted] is the mother and has have not signed her right over. CM stated that being said you nor [redacted] has any say so over [redacted] again that would be Mrs. [redacted]

Mrs. [redacted] stated maam, I am not trying to start any trouble and would not dare try give permission about [redacted] CM asked are you planning to get [redacted] today, she stated well dont want any trouble, CM stated he does not need to stay at the hospital with you, he need to be in a home. CM asked what is her address, she stated [redacted], [redacted] Ala. [redacted]. Mrs. [redacted] stated the children lived with her before and her home was checked by a worker there before the children went back to [redacted]

Mrs. [redacted] stated her husband is doing better, he has been taken off the ventilator and doing well. Mrs. [redacted] stated they have court on Monday, CM asked if she could make a suggestion, she stated yes, CM stated how about [redacted] stay with Mrs. [redacted] until Monday, that way you could get some rest, she stated okay, I agree with that, will keep the plan as is until Monday. CM stated she would call everyone to let them know, the plan will remain which you agree until Monday, she stated yes maam. CM told Mrs. [redacted] to save her number and get some rest, she stated that she has relative coming to sit with her husband while she goes home.

A few minutes later CM called Mrs. [redacted] asking who was with her, she stated our mother, [redacted] and the caseworker Mrs. [redacted] CM asked to put the phone on speaker so everyone would be on the same page. CM told them that Mrs. [redacted] agreed to leave the plan in place until Monday for court. CM stated in the meantime Mrs. [redacted] you are not to make any decision to who can and cannot be in the room with [redacted] it would be up to Mrs. [redacted] since she is the mother, she has not signed over her rights and has all authority to make decisions for her child is that understood, she stated yes maam. CM stated, she has been getting calls about you Mrs. [redacted] telling people what they can do and cannot, you have no right doing that, she stated Ms. [redacted] I have not [redacted] has been allowing [redacted] to see [redacted] CM stated the doctor only has to speak with Mrs. [redacted] no one else, period.

Again, the arguing must stop, she stated we have not been arguing but Mrs. [redacted] is upset because I told her the doctor is not to tell her anything. CM stated, you had no right to tell her that, that was not your decision to make. CM told Mrs. [redacted] any decisions about the child needs to go through Mrs. [redacted] and her only, she stated okay, thank you.

A preliminary near death (PND) case was received due to the ACV having drowned in the bathtub. The family does have a history in TFACTS. The mother and father lost custody during a case that was opened October 2021. The parents lost custody due to domestic violence concerns and drug concerns. The case was closed as services needed, court ordered, and custody was transferred to the maternal grandmother. Both parents were arrested due to a domestic incident and LE found marijuana (THC) and paraphernalia to be in reach of the children. There is currently a no contact order in place with the father. The mother regained custody in July. The ACV is still in the hospital and brain scans are being completed. The mother reports the children had been sick and were running a fever, so she placed them in the tub to try to get their fever down. The mother reported leaving the children to wash dishes, and reports she was gone for approximately 10 minutes. The mother reported to CM [redacted] that the water was waste deep and when she came back the 2 year old ACV was laying in the water, the incident in question occurred around 2:00 AM. CM [redacted] administered a urine drug screen (UDS) on the mother who tested positive for THC, she reports she last used on 10/08/22. CM [redacted] attempted to interview the 3 year old sibling, however, he would not talk. An IPA was established with the maternal grandmother stating the mom can have supervised contact only.

The report states the following:

On October 18, 2022 at around 2:54 am [redacted]), Law Enforcement received a call from [redacted] reported that there was an unresponsive two year old female (identified as [redacted] at the home and [redacted] was doing CPR on [redacted] Law Enforcement responded to the home and [redacted] continued CPR until Law Enforcement responded to the home. The initial Law Enforcement officer arrived about 2-3 minutes after the call was received. Additional officers arrived one or two minutes later. [redacted] was turning purplish/blue when Law Enforcement observed her at the home. [redacted] was completely unclothed and her hair was wet when she was observed at the home. Law Enforcement grabbed [redacted] and put her in Law Enforcement vehicle and rushed to Emergency Room at [redacted] Law Enforcement did not feel that they needed to wait for an ambulance. [redacted] had a gray pulse (very slow) when she arrived at the hospital. [redacted] lost her pulse for about two minutes before hospital staff were able to get it back. [redacted] is currently in route to [redacted]

Hospital in [redacted] via helicopter. It is believed that [redacted] is currently in route to [redacted] Hospital so she can be there when [redacted] arrives. A neighbor is taking [redacted] to the hospital. It is unknown at this time if [redacted] will survive. It is believed that [redacted] was without oxygen for approximately ten minutes. The paramedics stated that due to [redacted] being without oxygen for approximately ten minutes it is expected that there will be lasting impact to [redacted] related to the incident.

[redacted] was interviewed to gain information about what happened and she stated that she put both children into the bathtub and ran about six to eight inches of water. [redacted] stated that she went into the kitchen to start washing dishes. [redacted] stated that she went back two or three minutes later and found [redacted] on her side with her face under water. [redacted] stated that she picked [redacted] up and ran outside hollering for help. [redacted] came out from next door and called 911. [redacted] stated that she started CPR and did the best that she could but that she did not really know how to do CPR. [redacted] stated that the reason she put the children in the tub was because [redacted] had a fever on and off all night. [redacted] stated that she gave [redacted] ibuprofen (5 ml) at around 12:30 pm and her fever went down less than a full degree, but then it increased again. [redacted] stated that she put [redacted] in the tub to try to decrease her fever. [redacted] reported that the fever was low grade and it is assumed that this means 99-100 degrees. [redacted] was extremely hysterical while speaking with Law Enforcement. [redacted] was not asked if it was normal for her to be bathing the children at the time of night that the incident took place. When [redacted] was interviewed it was not a criminal interview.

[redacted] has bruises all over her face and arms and possibly on her fingertips. It is unclear if there are bruises on [redacted] fingertips because the discoloration could be from [redacted] still being purplish blue from lack of oxygen. It is not known what the bruises on [redacted] face and arms look like but the paramedic, [redacted] (last name unknown, supervisor at [redacted] EMS), stated that the bruises looked like abuse.

It is believed that [redacted] injury is at least caused by neglect because [redacted] left the children unsupervised in the bathtub. There is a detective with [redacted] County Sheriffs Department assigned to the case ([redacted], [redacted] and ask to speak with Detective [redacted] There have not been any arrests at this time but there will be an investigation. The police report number is not available currently. The report will be completed by the initial officer on scene, Deputy [redacted]

[redacted] stated that [redacted] was in the care of [redacted] but this is not clear. [redacted] was not observed by anyone at the home. It is not known if he has any marks or injuries at this time. [redacted] has not been spoken with at this time.

There is an order of protection against [redacted] so he is not allowed near the home. The order of protection was initially related to a domestic assault. [redacted] has been arrested approximately twenty times in the last five years for domestic assault and drug charges. It is believed that the last domestic assault was around six months ago and [redacted] was the victim. The children were present during the incident six months ago. The details of the incident are not known. It is not known if DCS was contacted after that incident. [redacted] and [redacted] have had several domestic altercations. [redacted] has a history of being charged related to methamphetamine possession. [redacted] is believed to be the type of person who lives on the street and will do whatever he can get. It is not known how long it has been since [redacted] had contact with the children. [redacted] states that he has mental issues every time he is arrested. [redacted] states he is suicidal every time he is arrested. It is not known if [redacted] is diagnosed with any mental health issues. Only the living room of the home was observed. The living room was a little cluttered and could be cleaner but did not appear to be a safety hazard. There is no known history of abuse to the children in the home.

The Preliminary Near Death (PND) investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leaders (TL) [redacted] and [redacted]. Also present was Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 10/18/22 concerning allegations of Physical Abuse and Lack of Supervision for ACV [redacted] (2yo). It was reported [redacted] resided with her birth mother [redacted] and sibling [redacted] 3yo] in [redacted] County. The birth father [redacted] does not reside in the home and there is a no contact order between him and the children due to previous DCS involvement and concerns regarding access to drug paraphernalia [THC], environmental concerns, and domestic violence. The children were previously removed from the parents, but the mother completed services and the children were returned to her care by the court in July 2022. The father was reportedly not present or involved with the current incident. A maternal relative [redacted] who resides next door to the family will also be mentioned.

On 10/18/22 maternal relative [redacted] contacted 911 at approximately 2:54am stating [redacted] was unresponsive at her home and the mother was initiating CPR. The mother continued CPR until LE arrived. LE transported [redacted] to [redacted] and from their she was lifeflighted to [redacted] where she remains in critical condition. Brain scan tests are being performed and the prognosis is grim. There have been no further reports of external or internal injuries found.

The mother stated she was giving the children a bath together at 2am because they had low grade fevers [101.6] and allergy symptoms. She reported they had been sick in the past two weeks and diagnosed with RSV at the ER two weeks prior, which was confirmed by the next door relative who accompanied the children and mother to the ER. The mother stated while the children were in the bath she went to wash dished and was gone approximately 10 minutes. When she returned she stated [redacted] was lying in the waist deep water unresponsive. The mother stated she ran next door with [redacted] to the relative homes for help. LE confirmed when they arrived [redacted] was unclothed and wet and the 3yo sibling was wet as well.

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

An IPA was completed to the 3yo sibling to stay with maternal grandmother and supervised contact only while the investigation continues. The maternal grandmother had temporary custody of the children previously following the previous CPS case. The mother was drug screened and positive for THC only. She reported she last used on 10/8/22. The mother has been cooperative with the investigation. The sibling was observed with no immediate concerns, with attempt to interview mostly unsuccessful as the child difficult to engage due to all the commotion and activity that had occurred to that point.

Next Steps:
-- CM will request ACVs medical records to include birth, PCP, recent ER visit, and the current incident. Record will be uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will request medical records for the ACV including, birth, pediatric, and death incident; and review, briefly summarize, and uploaded these documents to TFACTS.
-- CM will complete CFTM and service planning with the family.
-- CM will schedule FI for the 3yo sibling.
-- CM will continue to follow-up regarding ACVs prognosis and health.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

stated he is not allowed at the home; he has anger issues and was on drugs. She stated the children has witness things with them. She also stated, he has mental issues as well.

Mrs. [redacted] stated their mother [redacted] was in the ER due to getting upset about the incident with [redacted] She also told CM that Mrs. [redacted] hurt her ankle so she would be limping.

Perpetrator: [redacted]
CM [redacted] walked up to Mrs. [redacted] introducing herself and asking to speak with her privately. CM walked to the nurses station introducing herself asking if they have a room where she could speak with her client privately, one nurse stated you could use our break room, CM thanked the nurse.

CM asked Mrs. [redacted] to have a seat, CM stated she was there to asked what happened with her daughter. Mrs. [redacted] stated her last worker was Ms. [redacted], due to her and husband [redacted] having domestic in the home in December 2021. She went onto say she retained custody of them in July of this year. CM asked who had the children, she stated her mother [redacted] and sister [redacted] Mrs. [redacted] stated she had [redacted] (husband) to come watch the children while looking for a job, he called and could not reach her and burst out her window, when she came home the police arrested them both but later dropped her charge for domestic. She went onto say the reason she was arrested was because they were no able to locate her.

CM asked Mrs. [redacted] to tell her what happen yesterday, she stated both the children were running a fever, couching and having a runny nose all day and was sleeping all day off and on. Mrs. [redacted] stated they both got up around 7:00-7:30pm, they watched a movie and ate. She went onto say [redacted] began to run a temp of 102.1 around 11-11:30pm, so she gave her a 5 ml Ibuprofen, it went down to 100.6. CM asked what happened next, she stated I ran them some bath water, placed them both in the tub. CM asked how much water was in the tub, she stated waste deep, she left them in there to go to the kitchen which is around the corner from the bathroom. CM asked do you normally allow them to bathe together, she stated yes. Mrs. [redacted] stated from there she began to wash dishes, which was about 10minutes, she heard [redacted] (3) playing. Mrs. [redacted] stated as she went to check on the children [redacted] was laying on her left side in the water, unresponsive. CM stated going back to you washing dishes what time do you think it was, she stated around 2:30am. CM asked do you normally bathe them at that time, she stated no.

CM asked what happened once you seen her in the tub on her side, she stated I grabbed her up and went to her cousin [redacted] apartment which is next door, she was in a panic. CM asked was the child responsive she stated no she was not breathing and was turning colors (blue). Mrs. [redacted] stated she turned her over patting her in the back then ran to [redacted] apartment. She went onto say [redacted] began to give her CPR and her husband called 9ll. Mrs. [redacted] stated ash [redacted] was giving her CPR she was blowing into her mouth, they kept doing that until the police came. Mrs. [redacted] stated once the police came [redacted] daughter (11) and he went back to her apartment to get [redacted] CM stated so [redacted] was naked, she stated yes, not thinking just wanted help for my child, CM stated, I understand. Mrs. [redacted] stated she went back to the house once of the officer was also giving her CPR that is when [redacted] vomited up food and water. She stated officer [redacted] stated he was not going to wait on an ambulance placing [redacted] in his car and headed to [redacted] Hospital and from there she was air lifted to [redacted] CM asked do you know about what time that was, she stated about 3:00am. Mrs. [redacted] stated [redacted] was with her at the ER in [redacted] then to [redacted]

CM asked does she still have [redacted] with her, she stated yes. CM told Mrs. [redacted] due to the incident most likely your son would have to be in the care of a relative or someone else. She asked could [redacted] get him since she and mom had them before, CM stated sure if that is the person you want to care for him. CM stated she would have to speak with her supervisor first, she stated okay. CM stated in the meantime she would need her to sign

CM asked what type of insurance do you have on them, she stated Blue Care. CM asked Mrs. [redacted] if she was willing to take a drug screen, she stated yes, I will only have marijuana in my system. She went onto say she did not smoke around her children.

After all forms were signed, CM and Mrs. [redacted] walked back into the waiting room which had a bathroom. CM apologized to the family asking if they would step out the room for a few minutes, they all stated sure. CM administered the test, the results were positive for only marijuana, CM asked when was your last usage, she stated on the 8th. CM asked Mrs. [redacted] there is a detective on the case her name is [redacted] most likely she would be speaking with her as well, she stated, okay. CM asked if her cousin [redacted] have a key to her home, she stated no. CM stated we would need to see the home, you have my number call me if you go home, she would be in the area for the day and would be visiting with Mrs. [redacted]

CM stepped out to call her LI [redacted] and IC [redacted] about the mother statements and no information on the child as of yet. CM was advised to call attorney [redacted] for approve to write an IPA, place the other child with whomever the mother states. CM called attn: [redacted] explaining the case, he gave CM permission to write an IPA. CM then called Mrs. [redacted] to ask if there was any update on the child, she stated not at this time.

As CM was walking back to the waiting room the doctor and nurse was talking to Mrs. [redacted] CM waited outside in the hallway until they finished talking to Mrs. [redacted] Later two women walked out the waiting room, CM introduced herself asking what was the update on the [redacted] child, they both stated the child is not doing well, they are still running more test, she is barley breathing on her own. They did not give CM any more information, CM thanked the women. A few minutes later CM walked into the small room Mrs. [redacted] was crying, CM embraced her stating, she hopes thing would turn for the better, children are tuff. She stated we are praying, [redacted] will make it, CM stated, yes.

CM went over the IPA with Mrs. [redacted] and Mrs. [redacted] asking them each to sign it.

Mrs. [redacted] stated she would like for her mother to sign it as well, CM asked isnt she in the ER herself, she stated, yes. She went onto tell CM they plan to discharged her soon. They both walked down to the adult ER, Mrs. [redacted] was in a room, Mrs. [redacted] explained what was going on and introduced CM to her mother. There were two more relatives there, they both work at the hospital. Mrs. [redacted] gave Mrs. [redacted] permission to sign her name since she was connected to an IV, CM had her to initial it once she signed her mothers name. Everyone got a copy of the IPA.

CM told Mrs. [redacted] if anything comes up to give her a call, she stated okay, I will. CM stated she was heading to Mrs. [redacted] residence. Mrs. [redacted] did tell CM with both children she did test positive for marijuana. CM thanked her for being honest.

CM received a call from Det. [redacted] stating she was out of her meeting, CM stated she was heading to [redacted] to go to the [redacted] residence, she stated call when you are close, she would meet her there.

Child: [redacted] (2)
[redacted] was only wearing a pamper, laying lifeless in the hospital bed with several cords connected to several machines. The doctor was running several tests on her, they are ruling as accidental. [redacted] is partially breathing on the own and connected to a respirator. One side of her brain was not getting enough oxygen. CM

[redacted] had a gray pulse (very slow) when she arrived at the hospital. [redacted] lost her pulse for about two minutes before hospital staff were able to get it back. [redacted] is currently in route to [redacted] Hospital in [redacted] via helicopter. It is believed that [redacted] is currently in route to [redacted] Hospital so she can be there when [redacted] arrives. A neighbor is taking [redacted] to the hospital. It is unknown at this time if [redacted] will survive. It is believed that [redacted] was without oxygen for approximately ten minutes. The paramedics stated that due to [redacted] being without oxygen for approximately ten minutes it is expected that there will be lasting impact to [redacted] related to the incident.

[redacted] was interviewed to gain information about what happened and she stated that she put both children into the bathtub and ran about six to eight inches of water. [redacted] stated that she went into the kitchen to start washing dishes. [redacted] stated that she went back two or three minutes later and found [redacted] on her side with her face under water. [redacted] stated that she picked [redacted] up and ran outside hollering for help. [redacted] came out from next door and called 911. [redacted] stated that she started CPR and did the best that she could but that she did not really know how to do CPR. [redacted] stated that the reason she put the children in the tub was because [redacted] had a fever on and off all night. [redacted] stated that she gave [redacted] ibuprofen (5 ml) at around 12:30 pm and her fever went down less than a full degree, but then it increased again. [redacted] stated that she put [redacted] in the tub to try to decrease her fever. [redacted] reported that the fever was low grade and it is assumed that this means 99-100 degrees. [redacted] was extremely hysterical while speaking with Law Enforcement. [redacted] was not asked if it was normal for her to be bathing the children at the time of night that the incident took place. When [redacted] was interviewed it was not a criminal interview.

[redacted] has bruises all over her face and arms and possibly on her fingertips. It is unclear if there are bruises on [redacted] fingertips because the discoloration could be from [redacted] still being purplish blue from lack of oxygen. It is not known what the bruises on [redacted] face and arms look like but the paramedic, [redacted] (last name unknown, supervisor at [redacted] EMS), stated that the bruises looked like abuse.

It is believed that [redacted] injury is at least caused by neglect because [redacted] left the children unsupervised in the bathtub. There is a detective with [redacted] County Sheriffs Department assigned to the case ([redacted], [redacted] and ask to speak with Detective [redacted] There have not been any arrests at this time but there will be an investigation. The police report number is not available currently. The report will be completed by the initial officer on scene, Deputy [redacted]

[redacted] stated that [redacted] was in the care of [redacted] but this is not clear. [redacted] was not observed by anyone at the home. It is not known if he has any marks or injuries at this time. [redacted] has not been spoken with at this time.

There is an order of protection against [redacted] so he is not allowed near the home. The order of protection was

Mrs. [redacted] let CM [redacted] into Ms. [redacted] residence she gave her permission to do so.

Entering into the apartment in the living room was a full-size bed with three PJs lying on it. In the kitchen on the counter were clean dishes and on the stove and sink were full of dirty dishes with water still in the sink (left). In the children room was two twin beds and toys shattered all over the floor, Mrs. [redacted] room was decent. In the bathroom (right) the tub was empty, there was soap film around the tub which appeared to be waste deep for a small child. On the wall where the mirror was there was rust stains from the ceiling, Mrs. [redacted] stated it was there when [redacted] moved in, there is a leakage from the roof, that has been report to the landlord.

Mrs. [redacted] stated [redacted] has been doing good until this happened. CM asked has Mr. [redacted] been by since the incident, she stated they have not seen him. CM stated they should give Mrs. [redacted] a room at the [redacted], Mrs. [redacted] stated she has one, CM stated she needs to go there and someone with her at all times. She stated she did come to the home yesterday to get clothes and drove her car back to the hospital. CM told Mrs. [redacted] if anything comes up to give her a call, she stated, I will. CM thanked Mrs. [redacted] for allowing her into the home.

There were two life jackets hanging in the laundry room. The tube from the washer needs to be covered so the children would not be able to touch their plugs. Each outlet in the home had covers on them. There was walking space the home was clean. There was functioning utilities.

The home was observed to be safely meeting the childrens basic needs and requirements.

The home was clean. The appliances and utilities were in working order. There was plenty of food, supplies, and clothing for all household members. Each person had a safe sleep space and no safety hazards were noted.
