On March 03, 2023, the Department of Childrens Services (DCS) received a referral for an allegation of Abuse Death and Drug Exposed Child regarding Alleged Child Victim (AVC); [redacted] (2), [redacted] (2), and [redacted] (5). The Alleged Perpetrator (AP) is the paternal aunt, [redacted] This investigation was assigned to Child Protective Services Investigator [redacted] This case was worked in conjunction with [redacted] Police Department ([redacted]PD) Detective [redacted] and [redacted] lived in the home with their mother, [redacted] lived in the home with his father, [redacted]

On March 2, 2023, [redacted] County EMS responded to a 911 call reporting a two-year-old child, [redacted] as unresponsive at the residence of her paternal aunt, [redacted] Upon arrival, EMS found [redacted] without a pulse and initiated CPR. EMS was unable to regain a pulse prior to child being transported to [redacted] Childrens. Ten minutes after arriving at the hospital, a pulse was restored. [redacted] remains in critical condition in the Pediatric Intensive Care Unit (PICU), with low chances of survival. There were no visible injuries on [redacted] Ms. [redacted] reported receiving a phone call from Mr. [redacted] stating 911 had to be called because [redacted] may have ingested drugs. At the time of the incident, [redacted] and her twin, [redacted] were at [redacted] home with several unknown adults. [redacted] is believed to still be at that residence. Siblings [redacted] and [redacted] were in a separate unconfirmed care arrangement. Ms. [redacted] was reportedly at work during the incident and stated that Mr. [redacted] may have been at his own residence.

On March 3, 2023, Child Protective Services Investigator [redacted], responded to [redacted] Childrens Hospital to contact the family. [redacted] was observed. [redacted] was not awake, and she was on a ventilator. [redacted] stomach appeared to be swollen. No visible injuries and no marks were seen. Medical staff reported [redacted] condition was critical.

On March 3, 2023, [redacted] Youth Services Detective [redacted] interviewed the paternal aunt, [redacted] Ms. [redacted] reported [redacted] arrived with three friends who she didnt know. They were smoking marijuana in her living room. [redacted] was in the living room with Ms. [redacted] and the others. When she walked in the living room, Ms. [redacted] observed [redacted] take a couple of steps and fall to the floor. Ms. [redacted] contacted 911 and EMS was dispatched to her home. When EMS arrived, they started CPR due to [redacted] not having a pulse.

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

On March 3, 2023, Child Protective Services Investigators [redacted] and [redacted] went to [redacted] Children Emergency Room to contact [redacted] and [redacted] Mr. [redacted] stated he received a phone call from his cousin, [redacted] around 3:00 am. Mr. [redacted] stated Ms. [redacted] told him [redacted] had some unknown friends at the home and an unknown male left a white powdery substance in a bag that [redacted] got into. Ms. [redacted] stated she was in her room with [redacted] when the incident took place. She came out of her room when she heard her mother, Ms. [redacted] shouting because [redacted] was unresponsive. Mr. [redacted] stated he was told they called EMS. Mr. [redacted] stated he was unaware of the family using cocaine; however, he admitted knowing Ms. [redacted] uses marijuana. Mr. [redacted] stated his oldest child, [redacted] was in his custody at the time of the incident. Mr. [redacted] agreed to a urinary drug screen and tested positive for THC.
[redacted] was unable to be interviewed due to her age. There were no marks or injuries observed on [redacted] Medical staff reported there were no concerns for any fractures or broken bones; however, the childs urinalysis was positive for illegal substances.

On March 3, 2023, Child Protective Services Investigator [redacted] contacted [redacted] via phone. Ms. [redacted] stated she received a call from Mr. [redacted] informing her he received information [redacted] bit into a bag of cocaine or heroin and was on the way to the hospital. Ms. [redacted] left her oldest child, [redacted] at her residence with her cousin and responded to the hospital. Ms. [redacted] stated she was unaware of Ms. [redacted] using cocaine or heroin but admitted to knowing that Ms. [redacted] used marijuana. [redacted] and [redacted] normally stay at the home with Ms. [redacted] when she goes to work. Ms. [redacted] hadnt seen [redacted] and [redacted] since last week. Ms. [redacted] agreed to complete a urinary drug screen and tested positive for marijuana and cocaine. She denied the using cocaine.

On March 19, 2023, [redacted] passed away while in [redacted] Children Hospital.

On March 20, 2023, an autopsy was competed by Dr. [redacted] with the Center for Forensic Medicine. The autopsy concluded, [redacted] died as the result of complications of para-fluorofentanyl toxicity. The manner of death is accident.

On May 23, 2024, Child Protective Services Investigator [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT). The team agreed with the classification of allegation substantiated, perpetrator substantiated.

Per DCS Policy Work Aid 1 Section E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

During the investigation, siblings [redacted] and [redacted] were safety placed with the maternal grandmother, [redacted] due to the mothers positive drug screen, and later placed in the custody of the maternal aunt, [redacted] remained in the custody of [redacted] was arrested for drug related charges and has completed services while in jail.

There is preponderance of evidence to support the allegation of Abuse Death against [redacted] and [redacted] This case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for the Abuse Death of [redacted]

The Preliminary Near Death (PND) investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with Case Manager (CM) [redacted] and Team Leader (TL) [redacted] Also present was Team Coordinator (TC) [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted]kley.

The CPS investigation was assigned on 3/3/23 concerning allegations of Drug Exposed Child for ACV [redacted] (1yo). It was reported [redacted] and her twin sibling [redacted] 1yo/m] primarily live with their paternal aunt [redacted] in [redacted] County. The birth mother [redacted] birth father [redacted] and additional two siblings [redacted] 4yo and [redacted] 6yo] also reside in [redacted] County.

On 3/2/23 the paternal aunt contacted 911 and reported [redacted] was unresponsive. [redacted] was reportedly in the living room of the aunts home with the aunt and her friends, while [redacted] was in the care of the aunts adult daughter going to sleep in another room of the residence. It was believed that [redacted] got into a bag of heroine or cocaine in the home and became unresponsive. 911 walked the aunt through initiating CPR. The aunt felt it was taking too long for EMS to arrive so she left the home on foot with [redacted] toward [redacted] Hospital which was 5-10 minute walk. EMS located the family and transported [redacted] to [redacted] Hospital.

The mother reported she was notified by phone of the situation. She reported knowledge of the aunt using THC in the past but not cocaine or heroin. The father reported he was also notified of the situation by phone. He was informed that unknown friends had been in the aunts home and a man left a white powdery substance in a bag, was believed to be heroin or cocaine, and that [redacted] digested as there was no other explanation for her becoming unresponsive. The aunt called 911 and put [redacted] in the shower to help wake her up, which did not work, before leaving the home on foot for the hospital because she believed EMS was taking to long and does not drive.

Medical testing so far has revealed no type of drugs in [redacted] system other than aspirin. It was reported [redacted] was unresponsive for an extended period and she is likely brain dead with death imminent. The father took the twin sibling to [redacted] to the CARE for medical clearance, and he tested positive for cocaine and THC, but otherwise appeared fine with no injuries or concerns. His behavior was energetic but this was said to be typical. An IPA was completed with the parents.
