Reporter's Name/Relationship: [redacted]

-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (1 day) resides with her mother, [redacted] (39) and her sister [redacted] (15est) in [redacted] County.

-Does the child have any special needs or disabilities?
Baby was born premature

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

-Please describe in detail what has prompted your call today.
The mother was admitted to the hospital on 6/25/23. The mother's urine drug screen was positive for THC and amphetamine. There was another urine drug test done on 7/6/23 and the mother was negative. The cord stat for the baby is currently pending. The mother admitted to the marijuana use. [redacted] states she has used marijuana since 2008. The mother also admitted to smoking cigarettes throughout the pregnancy. [redacted] states that is all she used and is unaware on how the amphetamines got in her system.

[redacted] was not full-term and was born at 28.2 weeks. The child is not showing signs of withdrawal at this time. [redacted] is not doing too well and is having a lot of respiratory issues. It is unknown when the child will be discharging. [redacted] may be discharging in the next couple days. [redacted] does not currently have all the basic needs for the child. The baby was not supposed to be born until October 2023. [redacted] does state she will get those basic needs for the child. [redacted] has been appropriate and concerned about the baby's wellbeing. DCS has been involved previously. [redacted] states DCS was involved 2 years ago for drugs. [redacted] denied having an open DCS case currently.

-Does the child have any injuries from the abuse or neglect?
No

-When did the abuse or neglect occur?
Currently

-Where did the abuse or neglect occur?
Home

-Has the child made a disclosure of the abuse or neglect?
Unknown

-What do the child's parents/caregivers say about the abuse/neglect?:
Unknown

-Are there any concerns for Domestic Violence in the home that pose a danger to the child's safety?
Unknown

-Is anyone in the home protective of this child? If yes, who?:
Unknown

-Where is the child currently located?:
Hospital

-When will the alleged perpetrator have access to the child again? Is the child currently safe for the next 24 hours to 3 business days?:
Today

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?:
Unknown

[redacted] Child Fatality Summary

The Department of Childrens Services (DCS) received a referral on July 12, 2023, for an allegation of Drug Exposed Child regarding Alleged Child Victim (ACV) [redacted] The Alleged Perpetrator (AP) is listed as [redacted] birth mother. The investigation was assigned to Child Protective Services Case Manager (CM) [redacted] by Team Leader (TL) [redacted] On July 12, 2023, [redacted] passed away and the allegation of Abuse Death was added.

[redacted] (1 day) was born July 11, 2023. She remained at [redacted] Hospital from birth until she passed away. The family composition consists of [redacted] birth mother, and [redacted] (15), sibling. There is another sibling, [redacted] (4) that lives with his father.

On July 12, 2023, the Department received a referral with the allegation of Drug Exposed Child against the Alleged Child Victim (ACV), [redacted] The Alleged Perpetrator (AP) is listed as [redacted] The referral states [redacted] was admitted to the hospital on June 25, 2023. [redacted] urine drug screen was positive for THC and Amphetamines. An additional urine drug test was conducted on July 6, 2023, in which [redacted] was negative. The umbilical cord blood testing for the baby is currently pending. [redacted] admitted to using marijuana and stated that she has used marijuana since 2008. [redacted] states she is unaware on how the Amphetamines got in her system. [redacted] was not full-term and was born at 28.2 weeks and was not showing any signs of withdrawal at that time. [redacted] is not doing well and is having respiratory issues.

[redacted] was born at [redacted] Hospital at 28.2 weeks gestation via c-section and weighed 1.07 Kilograms (2.3 pounds). Upon birth, she required 100 % FiO2 (Fraction of Inspired Oxygen), had moderate tone, yellow-stained cord, weak cry, and immediately started having respiratory distress. She was dried, suctioned, stimulated at abdomen, brought to a radiant warmer at 1 minute to life, and placed in a plastic wrap on top of a warming mattress by medical staff. [redacted] heart rate was less than 100 with a weak cry and her body was pink, extremities were blue with poor tone and CPAP (continuous positive airway pressure) was started at 2 minutes. [redacted] was incubated at 8 minutes of life. Throughout the day, she

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

remained very critical and unstable. [redacted] was transported to the NICU and admitted to the PICU for respiratory distress and prematurity with monitoring for sepsis due to meconium and PPROM (Preterm Premature Rupture of Membranes). [redacted] expired on July 12, 2023, at 7:32 pm.

CM [redacted] was able to make brief contact with the family before having to leave the hospital room to give the family time to grieve when the deceased baby was brought into the room. After the initial contact, CM [redacted] made multiple attempts to gather a statement from [redacted] via attempts to the family home and via telephone calls. All attempts made were unsuccessful.

An autopsy was not performed on [redacted] due to the medically fragile state from birth and the mother declining. Medical records stated the cause of death is "Acute cardiac arrest secondary to prolonged metabolic acidosis and prolonged hypoxia respiratory failure due to prematurity in the setting of RDS of prematurity, persistent pulmonary hypertension, and severely low cardiac output."

CM [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT) on October 18, 2024. The team agreed there was not a preponderance to support the allegation of Abuse Death. Allegation of Abuse Death will be closed and classified as Allegation Unsubstantiated Perpetrator Unsubstantiated. The allegation of Drug Exposed Child will be closed and classified as Allegation Substantiated Perpetrator Substantiated.

Team Leader (TL) [redacted] conducted a home visit and met with the mother and her daughter, [redacted] remains in the home under a safety plan. During the visit, [redacted] denied having any knowledge of her mother using drugs and did not express any safety concerns. No environmental concerns were observed in the home. Grief counseling services were offered to both the mother and [redacted] however, the family declined, stating they are managing well and utilizing their existing support system.

TL [redacted] inquired about the mothers other child, [redacted] who currently resides with his father, [redacted] The mother reported that the father took the child approximately two years ago and she has not seen him since. She has not filed a police report regarding the situation. The mother provided an address in [redacted] Mississippi, where Mr. [redacted] may be residing, along with a contact number for a family member who might have additional information. The family member was contacted and provided a phone number for Mr. [redacted] but he has not returned the call. A search confirmed that there are no court orders regarding [redacted] filed in [redacted] County Juvenile Court.

Face to face contact was made with [redacted] and [redacted] father on August 8, 2025. [redacted] was observed to have no marks or bruises during the contact. [redacted] disclosed that he feels safe around his father and mother when they visit her. He denied being afraid of his dad and abused by anyone in the home.

Per DCS Policy Work Aid 1 Section E:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or caretakers failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Per DCS Policy Work Aid 1 Section B:
Drug Exposed Child is defined as:
A person under the age of eighteen (18) who:
♦ Has been exposed to or experiencing withdrawal from use, sale, or manufacture of a drug or chemical substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the childs physical, mental, or

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted] [redacted]

emotional functioning as a result of the actions or behaviors of the parent/caregiver; or
♦ Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or
♦ Has a parent/caregiver that has current addiction issues that could adversely affect the childs Protocol of CPS Categories and Definitions of Abuse/Neglect Effective Date: 3/25 Supplemental to: 14.1 Page 2 of 7 RDA SW22 physical, mental, or emotional functioning.
Drug Exposed Child (Severe) Severe forms of this allegation include, but are not limited to:
♦ The manufacturing of methamphetamine where children are present, or in close proximity;
♦ Infants born with a diagnosis of Fetal Alcohol Spectrum Disorder (FASD);
♦ Infants born with a diagnosis of Neo-Natal Abstinence Syndrome (NAS) where the diagnosis is not based on the mothers prescribed and appropriately followed Medication-Assisted Treatment;
♦ Knowingly or with gross negligence allowing a child under eight (8) years of age to ingest an illegal substance or a controlled substance that results in the child testing positive on a drug screen, except as legally prescribed to the child; and/or
♦ Knowingly allowing a child to be within a structure where a Schedule I controlled substance under TCA 39-17-406, cocaine, methamphetamine and/or fentanyl are present and accessible by the child.

There is no preponderance of evidence to support the allegation of Abuse Death. This case will be closed and classified as Allegation Unsubstantiated Perpetrator Unsubstantiated for the Abuse Death of [redacted] ([redacted] [redacted] There was a preponderance of evidence to support the allegation of Drug Exposed Child. Case will be closed and classified as Allegation Substantiated Perpetrator Substantiated for Drug Exposed Child.

TL [redacted] reviewed this case. The mother, Ms. [redacted], returned TL [redacted] phone call and stated Mr. [redacted] left with her child, and she has not seen him in at least 2 years. She stated she will file a police report but has not at this time. Ms. [redacted] gave TL an address [redacted] MS [redacted] and a telephone number for the parental uncle [redacted], Mr. [redacted] TL contacted Mr. [redacted] and he gave me a number for Mr. [redacted]. TL contacted Mr. [redacted] via phone and left a message for him to return her call concerning [redacted] (sibling).

TL completed a clear search for Mr. [redacted] and it verified the [redacted] address in [redacted] MS. TL reached out to the court liaison for custody information concerning [redacted] and [redacted] which did not yield any results.

Next steps:
TL will make a DCS referral to MS.

Team Leader (TL) [redacted] has reviewed this case for an update. This is a Child Death Case that has permission to remain open. TL spoke with the family and offered counseling services for the mother and other child involved. Both denied needing counseling, stating they have a great support system to help them get through their loss. Ms. [redacted] is currently employed and appears to be doing well. [redacted] was seen without any issues or concerns. She appears to be doing well in school and stated she has support of her mother, other family members, and friends.

Next Steps:
CM will need to update case recordings to reflect the completed investigative tasks.
CM will continue to work on completing all remaining investigative tasks outlined in the Debriefing Summary.
CM will prepare the case for closure.

Team Leader (TL) [redacted] has reviewed this case for an update. This is a Child Death Case that has permission to remain open. CPSI has attempted to make follow up contact with the mother but the mother is not answering the phone.

Next Steps:
CPSI will need to update case recordings to reflect the completed investigative tasks.
CPSI will get the medical records and upload them.
CPSI will continue to work on completing all remaining investigative tasks outlined in the Debriefing Summary.
CPSI will continue efforts to make monthly contact with the family and offer counseling services.

Team Leader (TL) [redacted] staffed this case with Child Protective Services Investigator (CPSI) [redacted] for an update. CPSI spoke with [redacted], Social Worker at [redacted] Hospital and she stated the baby's name is actually [redacted] and that's more than likely the reason medical records have not been able to be found regarding this baby. She reported there is no Pathology Report so it is likely there was no Autopsy Report completed either.

Next Steps:
CPSI will request confirmation of whether an Autopsy was completed with the new name given for the baby.
CPSI will attempt a home visit for the month of April

CPSI [redacted] made contact with [redacted] at [redacted] High School on 02/28/2024. CPSI [redacted] introduced herself to [redacted] and explained the purpose of the visit. [redacted] was informed that there was a current DCS case regarding her family and the birth of her now deceased sibling, [redacted] shared that she is currently in the 9th grade. [redacted] shared that currently living in her home are her mother, 18-year-old brother, and herself. [redacted] shares that she has not seen her brother [redacted] in about 1-2 years. [redacted] shares that the last time she saw [redacted] he was with his father [redacted] and observed the child to appear healthy but did notice that he was very clingy to Mr. [redacted] then was asked if she feels safe in the home and [redacted] replied that she does feel safe in her home. [redacted] was asked if she knew what drugs to which she stated yes and was asked if she had ever observed her mother do any drugs. [redacted] stated that she knows her mother smokes THC but has never done it around her. [redacted] was appeared to be healthy and free of marks/bruises. CPSI [redacted] asked [redacted] to please ask her mother to reach out to CPSI [redacted] as soon as possible.

Team Leader (TL) [redacted] staffed this case with Child Protective Services Investigator (CPSI) [redacted] for updates. This is a Child Death case that has permission to remain open. It is still unclear at this time if an Autopsy is being completed. CPSI is still unable to make contact with the mother and the children. This case will remain open until the Autopsy results are received and permission is given to close the case.

Next Steps:
CPSI will continue with efforts to see the mother's other children.
CPSI will go to the only high school in [redacted] to see if the children attend school there.
CPSI will follow up with Social Work at [redacted] Hospital to confirm if an Autopsy was or is being completed.
CPSI will continue to work on completing all remaining investigative tasks outlined in the Debriefing Summary.
CPSI will continue efforts to make monthly contact with the family and offer counseling services.

CPSI [redacted] consulted SW [redacted] regarding whether an autopsy was conducted on ACV [redacted] SW [redacted] states that she is not able to obtain that information. CPSI [redacted] was directed to request medical records from the Medical Records Department. CPSI [redacted] has already attempted to request through that specific department and received a notice that, "They have no record of treatment for this patient." CPSI [redacted] uploaded that document into TFACTS. At this point, CPSI [redacted] has not been able to obtain any other records other than Umbilical cord blood analysis, discharge summary, and urinalysis results regarding the ACV and birth mother.

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] Team Leader (TL) [redacted] Team Coordinator (TC) [redacted], CPS Director (CPSD) [redacted] and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 7/12/23 concerning the allegation of Drug Exposed Child for ACV [redacted] (1 day). [redacted] later passed away on 7/12/23 and the allegation of Abuse Death was added to the open case. Household composition is still being determined. It is known the birth mother [redacted] has three other children [redacted] 4yo, [redacted] 15yo, and [redacted] 18yo] and resides in [redacted] County. The birth fathers information is unknown at this time.

The mother was admitted to the hospital on 6/25/23 at which time her urine drug screen was positive for THC and Amphetamines. Another screen was completed on 7/6/23 and the mother was negative. The mother admitted to the marijuana use, but denied knowledge of how Amphetamines got in her system. [redacted] was born at 28 weeks gestation on [redacted] and was not showing signs of withdrawals, but was having a lot of respiratory issues. CM met response on 07/13/23 at the hospital as medical staff was bringing the deceased baby to the mother and family to say goodbye. CM only made brief contact with the family and saw the 15yo before leaving to give the family time to grieve. CM has been unable to make successful contact with the mother since that time through attempted phone and in-person contact at the familys reported address. The mother reported the 4yo sibling is currently in Mississippi with his birth father but this information has not been verified. CM is continuing attempts to complete contact.

Hospital social worker reported the cord drug screen results for the ACV were positive for THC only. It is unknown if an autopsy was completed.

Next Steps:
-- CM will request ACVs birth and hospital records. Records will be reviewed and uploaded to TFACTS.
-- CM will continue efforts to make contact with family to include safety assessments for siblings and home visit.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted] [redacted]
Case Status:	Close	Organization:	[redacted] Region

-- CM will request courtesy contact for sibling in Mississippi if location is verified there.
-- CM will document and upload autopsy into TFACTS once received, if applicable.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Narrative Type: Original Entry Date/Time: 07/17/2023 02:25 PM Entered By: [redacted]

Date: July 17, 2023

Team Leader (TL) [redacted] staffed this case with Child Protective Services Investigator (CPSI) [redacted] The mother's test results were positive for THC and Amphetamines via a urine drug screen upon admission. The hospital did not complete a urine drug screen nor a cord drug screen on the baby. The baby was born premature at 28 weeks via a C-section and immediately started having respiratory distress. The baby expired on July 12. CPSI attempted to meet with the mother in the hospital but was unable to do so due to to the deceased baby being brought in the room while CPSI was in the room so CPSI immediately exited the room. CPSI has made attempts to meet with the mother after her being discharged from the hospital but has been unable to do so. It is unknown at this time if the mother received prenatal care. The mother has two other children, a 4 year old son and a 15 year old daughter. It is reported the 4 year old lives with his biological father in Mississippi. CPSI was able to observe the 15 year old in the hospital room but was unable to speak with her before the deceased baby was brought in. The mother did not have anything for the baby due to the due date being in October 2023. The mother does have TFACTS history with two being DEC cases (UABC, ADMIN CLOSE), LOS case (UABC, NSN), and a PHA and PSYCH Harm case (SR) that were against the father of the four year old.

Next Steps:
CPSI will need to update case recordings to reflect the completed investigative tasks.
CPSI will need to complete the FAST Assessment.
CPSI will need to complete a home visit to assess for safety, permanence, and well-being of the other two children in the home.
CPSI will need to check on the whereabouts of the 4 year old child.
CPSI will need to verify with the hospital if an autopsy is being requested and if there are any concerns of abuse/neglect as it relates to the infant's death.
CPSI will need to request the medical records.
CPSI will need to complete the required case activities (background checks, history checks, etc.) and document the findings.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted] [redacted]
Case Status:	Close	Organization:	[redacted] Region

CPSI will need to document the initial CPIT and complete the recommended tasks.
CPSI will conduct monthly visits throughout this investigation to continuously assess the safety and well-being of the Alleged Child Victim(s) and adhere to investigation protocols.
CPSI will present the case back to CPIT for the final disposition and document.
CPSI will need to staff with TL for next steps.

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

On 07/13/2023 Social Worker [redacted] reported the ACV [redacted] had passed away on 07-12-2023.

CM attempted to meet with birth mother, [redacted] and [redacted] at [redacted] Hospital but was interrupted by hospital staff bringing the deceased baby to Ms. [redacted] CM left the room at that time. According to Work Aid 2: It is not required for the DCS Case Manager to observe the deceased child.

07/18/2023; 08/07/2023; 08/30/2023; 10/30/2023; 11/15/2023; 12/26/2023; and 01/11/2024 a Parent/Caretaker and sibling's interviews were attempted by CM.

On 02/28/2024 [redacted] was observed at [redacted] High School and reported she was in the 9th grade, living in the home with her mother, [redacted] and her 18-year-old brother. [redacted] reported she had not seen her brother [redacted] within the last year or two and is currently with his father, [redacted] reported she feels safe in the home and had never observed her mother to do any drugs but knows she does smoke THC but never around her. [redacted] was observed to be without any visible marks or bruises.

03/25/2024; 04/24/2024; 05/20/2024; 06/28/2024; 07/15/2024; 08/13/2024; 09-02-2024; 10/14/2024 a Parent/Caretaker and sibling's interviews were attempted by CM.

On 02/28/2025 [redacted] reported she and [redacted] do not need counseling because they have support of each other, family, and friends. Ms. [redacted] reported she had not seen her son for over two years since the birth father, [redacted] left with him.

The 2 bedrooms, 1 bath home was clean and walkways free from clutter. The bedrooms had queen-sized and a king-sized bed. The kitchen and refrigerator were stocked with plenty of food, juices, and water. The bathroom was free from odor with working plumbing. The home did not have any visible health or safety concerns.

On 08/08/2025 [redacted] stated he feels safe in the home with his birth father, [redacted] He stated he visited with his birth mother in June of 2025 and felt safe with her. Mr. [redacted] reported [redacted] is up to date on all his shots and is enrolled at [redacted] Elementary School. [redacted] was observed to be without any visible marks or bruises.

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

Case Manager (CM) received medical records from [redacted] showing [redacted] urine drug screen resulted positive for Amphetamine and THC and showing [redacted] cord screen positive for THC.

The discharge summary from [redacted] reported the cause of death to be Acute cardiac arrest secondary to prolonged metabolic acidosis and prolonged hypoxic respiratory failure due to prematurity in the setting of RDS of prematurity, persistent pulmonary hypertension, and severely low cardiac output.

[redacted] reported she knows her mother smokes, has never seen her do any drugs around her, and feels safe in the home.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

Mr. [redacted] stated admitted to marijuana usage but denied amphetamines usage.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

The department received a referral with the allegation of Drug Exposed Child naming the Alleged Child Victim (ACV) [redacted] naming the Alleged Perpetrator (AP) [redacted] The allegation of Abuse Death was added naming the Alleged Child Victim (ACV) [redacted] naming the Alleged Perpetrator (AP) [redacted]

[redacted] was born premature at 28.2 weeks gestation. The mother's urine drug screen was positive for THC and Amphetamine. There was another urine drug test done on 07/06/2023 and the mother was negative. The mother admitted to marijuana usage but denied amphetamine usage. The child is doing well and having a lot of respiratory

Case Manager (CM) received medical records from [redacted] showing [redacted] urine drug screen resulted positive for Amphetamine and THC and showing [redacted] cord screen positive for THC. The progress note reported the child was born at 27 weeks gestation by c-section due to the mother's vaginal bleeding. [redacted] was reported to possible have sepsis, respiratory distress, severe acidotic, and in critical condition with potential for further deterioration. The discharge summary from [redacted] reported the cause of death to be Acute cardiac arrest secondary to prolonged metabolic acidosis and prolonged hypoxic respiratory failure due to prematurity in the setting of RDS of prematurity, persistent pulmonary hypertension, and severely low cardiac output.

The allegation of Drug Exposed Child was classified as Allegation Substantiated Perpetrator Substantiated.

The allegation of Abuse Death was classified as Allegation Unsubstantiated Perpetrator Unsubstantiated.

DRUG EXPOSED INFANT/CHILD:

DCS Policy defines Drug Exposed Infant/Child as an Infant/child who has been exposed to a drug or chemical substance (e.g., alcohol, cannabis, hallucinogens, stimulants, sedatives, narcotics, meth, heroin, inhalants or any other illegal substances), as verified by a positive drug screen. Infant/child who has been exposed to a drug or chemical substance that could adversely affect his/her physical, mental, or emotional functioning. This includes but is not limited to the following situations: Drugs or chemical substances are administered to or given to children; Children exposed to or living within close physical proximity to where drugs or chemical substances are manufactured (the manufacturing of methamphetamine in a home where children are present, is always considered severe abuse). Parents/caretakers who have a positive drug screen or have admitted to the use of an illegal or non-prescribed drug or chemical substance, and whose use of drugs or chemical substances that impairs the parent/caretaker s ability to meet child-care responsibilities. Impairment of the parent/caretaker's ability to meet childcare responsibilities MUST be supported by evidence, including documented examples.

THE FAMILY TOGETHER

This section focuses on the family system. The first step is to define who makes up the family. Generally it is a household but sometimes two households in which the children spend considerable amounts of time could be considered (e.g. divorced parents with 50:50 visitation).

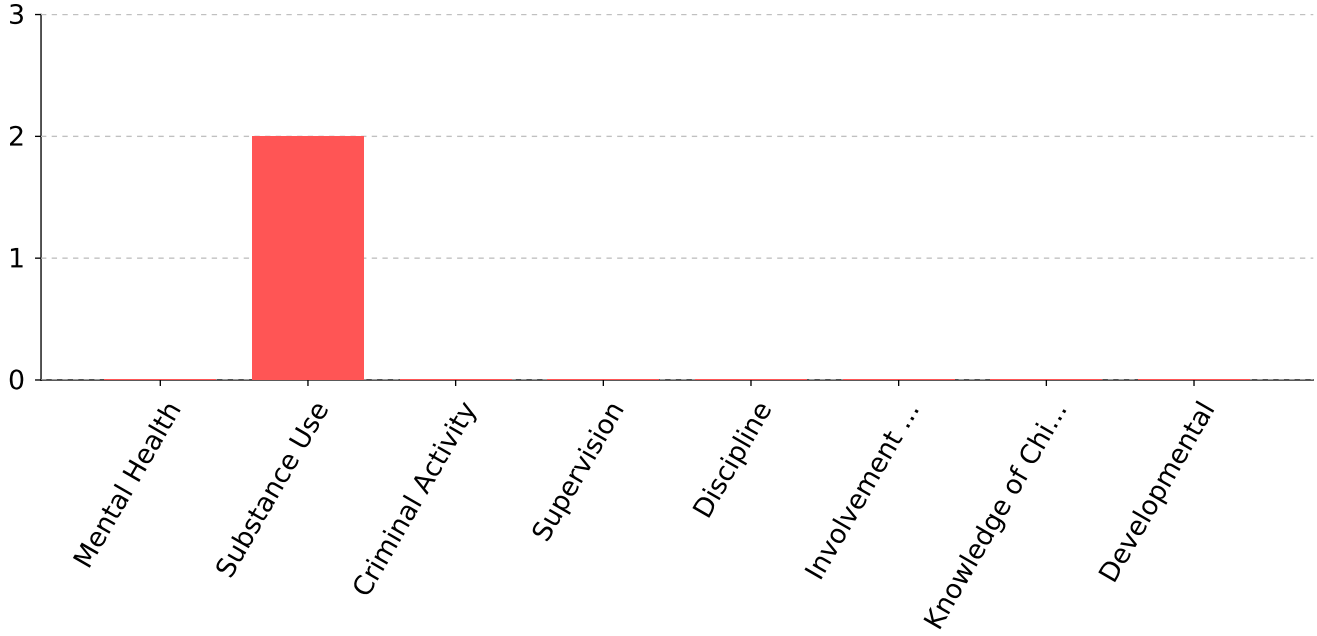

Item	Score	Justification/Narrative
Physical Condition of Home	0	
Home Maintenance	0	
Family Conflict	0	
Family Safety	2	Mother tested positive for Amphetamines at the time of delivery of ACV [redacted]
