-Child/Family Identification and Relationship Introduction Paragraph:
[redacted] (newborn) lived with his mother [redacted] 29), and father [redacted] (29) in [redacted] County. [redacted] has three children (unknown names and ages) who are in the custody of a relative (unknown name) in Ohio.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
LE is not requesting immediate assistance.

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
Today 09/23/2023, around 12:00 pm [redacted], [redacted] County deputies, and EMS were dispatched to the home. [redacted] contacted 911 and stated that she woke up and found [redacted] unresponsive. [redacted] stated that she and [redacted] went to bed around 10:00 pm last night (09/22/2023). [redacted] stated that she and [redacted] were sleeping on an air mattress located on the bedroom floor. When [redacted] woke up, she found [redacted] not breathing. [redacted] carried [redacted] to the living room and placed him on the couch. [redacted] went outside and yelled for help. One of the neighbors who reside in the trailer park started CPR while [redacted] called 911. The neighbor stopped performing CPR once EMS arrived. EMS technicians (unknown names) called the time of death at 11:56 am [redacted]. [redacted] [redacted] (EMS Supervisor, [redacted]) was present on the scene. [redacted] was not observed with any trauma.

Due to his age LE is treating the concerns very seriously. It is not believed that abuse is the cause of death if anything neglect would be the cause. [redacted] will be sent for an autopsy. [redacted] body is either at the [redacted] County Morgue or on the way to the Forensic Center in [redacted] TN. Due to it being the weekend his body may remain at the morgue until 09/25/2023 [redacted] is currently at the [redacted] County Sheriff's office. Deputies are planning to interview her a second time to see if she will tell the truth about [redacted] being present in the home. According to [redacted] she and [redacted] were the only ones in the home. The home was not very clean. There were a lot of bugs flying around but that was due to the door and windows being open. LE has seen better when it comes to the cleanliness of a home, and they have seen a lot worse. It is unknown if there are concerns for past Domestic violence in the home. [redacted] has warrants for either failure to appear or violation of probation. Currently it is unknown why [redacted] is on probation. There were two pipes in the kitchen, and one in the bedroom that had marijuana residue on them. The police report number is [redacted]

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?
No

-Anything additional to add to this initial report for the responding worker to know prior to response? LE did not observe children's clothing that would indicate there were additional kids in the home. [redacted] bassinet was observed on the side of the air mattress.

Intake Notation: None
Screener Notation: None

Emailed/Paged CPSI On Call: [redacted] County CPS on-call was notified through MIR3 @ 4:31pm [redacted].

The Abuse Death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] Team Leader (TL) [redacted] TL [redacted] Team Coordinator (TC) [redacted] CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 9/25/23 concerning the death of ACV [redacted] (8 days). It was reported [redacted] resided with his birth mother [redacted] and birth father [redacted] in [redacted] County. Additionally, the mother has three other children who have been removed from her care in the past due to previous drug concerns. Two of the children resided in Ohio in the custody of relatives, and one [redacted] 3yo] also resides in [redacted] County, next door to the parents, in the custody of grandparents.

On 9/23/23 the mother reported she woke around 11am and checked on [redacted] finding him unresponsive. [redacted] had been co-sleeping with the mother on an air mattress overnight. The mother reported they went to bed at 10pm and she did not wake until 11am. The mother alleged the father was not present; however, other accounts from acquaintances state otherwise. The father has active warrants and is currently evading law enforcement. The mother admitted to recent THC and meth use, consented to a blood draw, and has a history of meth use in the past. LE completed interviews with the mother and she has since traveled back to Ohio. Drug paraphernalia was found in the home. There were no observable injuries or neglect for the ACV and autopsy results are pending. Records indicate safe sleep was discussed with the parents at the hospital and LE reported available for use in the home. It was reported [redacted] was being formula fed and had a PCP appointment the day prior to the incident on 9/22/23. It is unknown how much, if any, contact the parents had with the 3yo sibling residing next door in the custody of the grandparents.

Next Steps:
-- CM will request ACVs birth and PCP records. Records will be reviewed and uploaded to TFACTS
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will complete interviews with the grandparents/custodians of the 3yo siblings to assess for safety of this child.

The father is on probation for a domestic assault charge in 2018. The mother and father have a history of substance use but the father's current use of illicit substances in unknown. Law enforcement found several pipes, marijuana, digital scales, and small clear baggies that appeared to have had a white powder substance in them at the home.
