Reporter's Name/Relationship: [redacted]

-Child/Family Identification and Relationship Introduction Paragraph:
Unknown Child (newborn) lives with their mother, [redacted] (27), and their father, [redacted] (44), in [redacted] County. There is no one else living in the home.

-Are you requesting immediate assistance from DCS to your location, or only an immediate phone call?
Lt [redacted] is currently at [redacted] Community Hospital and can be contacted at [redacted]. It is uncertain if Immediate Assistance is needed at the hospital or if Lt [redacted] just needs a phone call from the DCS Case Manager.

-Please provide a brief summary of the concerns and why DCS is needed to respond immediately.
On Thursday, 1/25/2024, about two hours ago, the newborn was delivered at the home and then was very quickly rushed to [redacted] Community Hospital. [redacted] reported that [redacted] had been in the bathroom when he heard a thud and went into the bathroom at which time [redacted] was lying on the floor while the newborn was in the toilet not breathing. [redacted] pulled the newborn out of the toilet and called 911. Currently, the newborn is alive.

[redacted] and [redacted] do not possess a high level of intelligence, and neither can read or write; it is not believed that either is employed. The parents are friendly people. [redacted] did not know that she was pregnant. It is unknown if the newborn is male or female. The conditions in the home are not good and it is not believed that the home is livable for anybody. The home is not the cleanest and there is a lot of trash and things around. There is no electricity. [redacted] and [redacted] sleep on the floor.

The family is at the hospital along with Lt [redacted] The newborn is in Emergency Room 1 while [redacted] is in Emergency Room 2. There is not a lot of information available because the family was rushed so quickly to the hospital. The Police Report number is Case # [redacted] and the Report ID is # [redacted]

-Are there any concerns for the safety of a Department of Children's Services Case Manager responding to the child's home?
No

-Anything additional to add to this initial report for the responding worker to know prior to response?
No

Intake Notation: No
Screener Notation: The parents have another child ([redacted] age 1), but per the last case from 2022 states he lives with a grandparent out of state.

Emailed/Paged CPSI On Call: Email sent to [redacted] Region CPS Notification group. Received by [redacted]

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

Additional information per TL [redacted]
1/25/25---The baby boy, [redacted] was pronounced deceased at 233pm. Parents are VERY low functioning. Mom will be in the hospital until at least tomorrow. When the hospital got the mother's urine when they cathed her she was positive for meth and amph. The cord has been sent off for the child. Mother denied drug use but admitted she drinks. Mother says she did not know she was pregnant. Just went to the bathroom this morning and the baby came out in the toilet. She yelled for the father to come in the bathroom. 911 was called, transported to the hospital. LE has photos of the home and [redacted] has pictures of the baby. [redacted] got releases signed.
1/26/24 Update as of 915am this morning. [redacted] went back to hospital this morning to drug screen the dad. He was positive for meth and amph. He said that he used last night when he left the hospital. [redacted] went back and talked to mom again about her drug screen since dad was positive and she admitted to using meth the night before she went to the hospital. [redacted] has not been the family's trailer since getting this case but LE confirmed no electricity. Only the parents live in the home. Both parents get a check at the beginning of the month for 900 dollars a piece. [redacted] is going to have to do some digging to see if anyone is over their check but in the last case about a 1yr ago, no one was over their checks and it appears they ran with known meth heads that probably took advantage of them. [redacted] has been in close contact with her CPIT partner and he told her that charges are a strong possibility.

Investigation Track - P1 - Child Death
[redacted], CAH Director, on 1/26/24 @ 10:35am
Notified Child Death/Preliminary Near-Death Notification Group via Email: Yes, included Child Programs Regional Director [redacted].

6/5/2024 Wednesday @ 11:10AM *Case: [redacted]

Purpose: Closing Summary

On January 25, 2024, the Department of Childrens Services (DCS) received a referral for an allegation of Severe Abuse Death regarding Alleged Child Victim (ACV) [redacted] Jr (newborn). Intake was assigned on January 26, 2024. The Alleged Perpetrator (AP) was identified as birth mother, [redacted] The allegations, Severe Abuse Death and Drug Exposed Child, were added to Ms. [redacted] and birth father, [redacted] This investigation was assigned to Child Protective Services Investigator (CPSI) [redacted] by Lead Investigator (LI) [redacted] This case was worked in conjunction with [redacted] Police Department ([redacted]PD) Lieutenant, [redacted]

[redacted] (newborn) lived with birth parents, [redacted] and [redacted] Ms. [redacted] and Mr. [redacted] have a son, [redacted] (age 1), that lives with Ms. [redacted] father, [redacted] in Illinois.

On [redacted], an unknown newborn child was delivered at the home and then rushed quickly to [redacted] Community Hospital. It was reported that Mr. [redacted] stated that Ms. [redacted] was in the bathroom when he heard a thud and upon entering the bathroom Ms. [redacted] was lying on the floor while the newborn was in the toilet not breathing. It was further reported that Mr. [redacted] stated he pulled the newborn out of the toilet, called 911, and the newborn was currently alive. Ms. [redacted] reported not knowing she was pregnant. The home has no electricity, and the parents sleep on the floor.

A timeline of events leading up to the child death incident resulted from interviews with family and medical staff. Ms. [redacted] birth mother, stated she woke up to use the bathroom and was hurting in her stomach. Ms. [redacted] stated she called out for Mr. [redacted] that woke him up and then [redacted] came out in the toilet. Ms. [redacted] stated not hearing the baby crying. Ms. [redacted] stated she had been hurting in her stomach for a few days prior. Mr. [redacted] stated he heard Ms. [redacted] fall in the bathroom in which he went into the bathroom and got [redacted] out of the toilet and tried to get him to breath.

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

Dr. [redacted] MD, the emergency room doctor, stated [redacted] weighed approximately 7lbs looked to be full-term, and Ms. [redacted] received no prenatal care. Dr. [redacted] stated they presumed [redacted] s time of birth based off the time 911 had been called at 10:04 a.m.; whereas, EMS arrived at the home at 10:09 a.m. and CPR was continued at the hospital. Dr. [redacted] stated [redacted] didnt have a pulse for 56 minutes, pulse brought back at 11:00 a.m., and had a very poor prognosis as of now to live. Dr. [redacted] stated [redacted] would have had a high prognosis of living had he been born at the hospital. Dr. [redacted] stated that [redacted] Childrens Hospital EMTs arrived to transport [redacted] to their hospital; however, they had been unable to get a blood pressure from [redacted] as of 1:28 p.m. and unable to transport [redacted] due to the poor prognosis he would make it to their hospital in [redacted] TN. Dr. [redacted] stated Ms. [redacted] had chosen to relieve care with comfort care for [redacted] and pronounced him deceased at 2:33 p.m.

Ms. [redacted] tested positive for methamphetamine and amphetamine, at [redacted] Community Hospital, on January 25, 2024. Ms. [redacted] initially denied drug use, couldnt remember when she last used, and then stated she last used the night before she came to the hospital. Mr. [redacted] tested positive for methamphetamine and amphetamine on January 26, 2024. Mr. [redacted] stated he and Ms. [redacted] were trying to stay away from stuff like that and then stated he used methamphetamine the night before with friends because he had to get the pressure off his mind.

[redacted] s umbilical cord results, received on February 5, 2024, were positive for: Amphetamine, Methamphetamine, Delta-9 Carboxy THC, Benzoylecgonine, and Cocaine.

Autopsy was received on April 8, 2024, from the Office of Medical Examiner in [redacted] TN. The autopsy examination, completed by [redacted] M.D. on January 26, 2024, revealed a normally developed male fetus with no gross congenital abnormalities. It stated that the cause of death is could not be determined, and manner of death could not be determined. Toxicology positive for methamphetamine, amphetamine, and morphine.

CPSI [redacted] presented this case to the [redacted] County Child Protective Investigative Team (CPIT) on April 18, 2024. Those in attendance were: Lt. [redacted] ([redacted] Police Department), Inv. [redacted] ([redacted] County Sheriffs Department), ADA [redacted], [redacted] County Juvenile Court Liaison [redacted], Mental Health Advisor/Therapist [redacted], Family Nurse Practitioner-Certified [redacted], CAC Director ([redacted] County - Interim) [redacted], and LI [redacted] The team was in agreement that there was a preponderance to support the allegations of Severe Abuse Death and Drug Exposed Child. According to court records, Ms. [redacted] was charged with Child Abuse/Neglect/Endangerment.

Per DCS Policy Work Aid 1 Section C:
Child Death is defined as:
a) Any child death caused by abuse or neglect.
b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.
c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Drug Exposed Child: This allegation pertains to a person under the age of 18 who:
a) Has been exposed to or experiencing withdrawal from the use, sale, or manufacture of a drug or chemical substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the childs physical, mental, or emotional functioning as a result of the actions or behaviors of the parent/caregiver; or
b) Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

c) Has a parent/caregiver that has current addiction issues that could adversely affect the childs physical, mental, or emotional functioning.
NOTE: The manufacturing of methamphetamine where children are present or in close proximity will always be considered severe abuse.

During the course of the investigation, APS (Adult Protective Services) and CREVVA were initiated for Ms. [redacted] due to concerns of Ms. [redacted] intellectual disability and home environment. Lieutenant [redacted] stated Ms. [redacted] and Mr. [redacted] went back to their home and told APS she didnt want any services.

There is a preponderance of evidence to support the allegations of Severe Abuse Death and Drug Exposed Child. This case will be closed and classified as Allegation Substantiated, Perpetrator Substantiated for the Severe Abuse Death and Drug Exposed Child of [redacted]

2/14/2024 Wednesday @ 10:26AM *Case: [redacted]

Content: CPSI [redacted] received the Medical Review from the Departments Safety Nurse Consultant, [redacted] RN, via e-mail, concerning the alleged child victim: [redacted] Nurse [redacted] advised receiving the birth records from Safety Nurse [redacted].

Nurse [redacted] summarization reports: Per review of [redacted] Hospital ER records, mother reported infant was born at home in the commode; she did not know when her last menstrual cycle was or that she was pregnant, and no prenatal care received. This was her second pregnancy. EMS arrived and initiated CPR and infant was intubated on scene and transported to the hospital. At the hospital, the infant regained a pulse and was placed on the ventilator. [redacted] Hospital wanted to transfer the infant to higher level of care but [redacted] and [redacted] advised infant was too critical and prognosis too poor to transport. This was discussed with the mother, and she decided to withdraw life support. The infant was extubated, and death pronounced at 2:43pm.

Narrative Details

Narrative Type: Original Entry Date/Time: 02/22/2024 11:41 AM Entered By: [redacted]

The death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] Team Leader (TL) [redacted] Team Coordinator (TC) [redacted] CPS Interim Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned on 1/26/24 concerning the death of ACV [redacted] (1day). The birth mother [redacted] and birth father [redacted] reside in [redacted] County with no other children in the home. The couple have another child [redacted] 1yo] who resides in Illinois with the maternal grandparents who petitioned and were awarded full custody in 2022. Both the mother and father are developmentally delayed.

On the morning of 1/25/24 the mother gave birth to [redacted] at home in the toilet. 911 was called and EMS arrived and began CPR. [redacted] was transported to the hospital and a pulse was eventually regained. [redacted] was placed on a ventilator; however, if blood pressure never stabilized and the parents decided to allow comfort care and remove support resulting in [redacted] death on 1/25/24.

The mother reported she was unaware she was pregnant. She could not recall the last time she had a menstrual cycle and stated the last time she had been to a doctor was in 2022 with the birth of her first child. The mother stated she woke the morning of 1/25/24 with stomach pains and cramping and went to use the bathroom, and the baby was immediately born, falling into the toilet. The mother stated she yelled for the father to help, he came in and got the baby out, and she called 911. The mother was drug screened at the hospital and positive for amphetamines and methamphetamines. The mother initially denied drug use but then admitted to using meth the night prior to giving birth. The father was drug screened by CM and was also positive for amphetamines and methamphetamines, reporting he used after [redacted] death. The umbilical cord was tested for drugs and the results are pending. Medical is reporting [redacted] appeared to be a full term baby (6 pounds) and healthy, believing he likely would have survived if born at the hospital and without the extended time without a pulse. An autopsy was ordered.

Adult Protective Services (APS) has been involved with the mother for the past 2-3 years and CM has been in contact. APS has been to the home since the incident and have requested DCS resources to help schedule a MH evaluation for the

Tennessee Department of Children's Services

mother. At this time the parents are declining grief counseling. The mother has had a conservator in the past but does not currently. APS services are continuing in the home. LE and DA are determining if any charges will be brought against the parents.

Next Steps:
-- CM will request birth records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will upload umbilical cord screening results when made available.
-- CM will follow-up with APS in coordinating a MH evaluation with the mother and grief counseling for the parents.
-- CM will provide A&D resources to the parents if APS is not doing so.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Additional statement from the father- Dad informed CPSI [redacted] that mom's father, [redacted] wouldn't allow them to see [redacted] According to mom and dad, they last seen [redacted] a year ago. Mom stated her father wouldn't come to Tennessee.

1/26/2024 Friday @ 8:00AM *Case: [redacted]

Content: CPSI [redacted] presented to the [redacted] Community Hospitals Maternity Ward, Room [redacted] located on [redacted] TN [redacted] to conduct a follow-up visit with mom and dad.

CPSI [redacted] was able to speak privately with mom and dad in the room. Dad stated he was doing fine this morning. Mom reported she was feeling okay. Dad asked CPSI [redacted] if she knew a black man named [redacted] because Mr. [redacted] knows a lot of people. Dad stated that Mr. [redacted] was a good guy and he sometimes hang out with him. CPSI [redacted] told dad she didnt know Mr. [redacted]

CPSI [redacted] asked dad to submit to a random drug screen. Dad asked about the reason. CPSI [redacted] advised dad that mom was also drug screened and he was fine with submitting a drug screen. Dad stated he had just used the bathroom; however, he was going to drink some juice and water.

CPSI [redacted] observed hospital staff bring in two food trays to mom and dad. Mom and dad were observed eating breakfast and dad advised he was able to urinate. CPSI [redacted] spoke privately with dad and asked about his knowledge of any drug use from mom. Dad stated he didnt know about mom using any drugs. According to dad, he and mom were trying to stay away from stuff like that. Dad informed CPSI [redacted] he couldnt read and that he had to have someone read to him. Dad stated, Im pretty smart, just havent got there yet. Dad submitted a urine sample; whereas, his drug screen resulted being positive for methamphetamine and amphetamine. CPSI [redacted] asked dad when he last used. Dad stated he could get off the drug anytime and denied shooting up. Dad reported he used methamphetamine last night with friends because he had to get the pressure off his mind. Dad reported having been in a bull riding accident at 17 years old and

that my brain was out of my head. According to dad, this happened during a rodeo.

CPSI [redacted] went back inside the room with mom and asked her privately about drug use. Mom denied drug use. CPSI [redacted] advised mom her drug screen, taken on yesterday, at the hospital resulted being positive for methamphetamine and amphetamine. Mom initially stated she couldnt remember when she last used and then reported having used the night before she came to the hospital.

CPSI [redacted] provided mom with pictures she had taken of her and [redacted] on yesterday. Mom thanked CPSI [redacted] for the pictures and showed CPSI [redacted] photocopies of [redacted] s foot and handprints the hospital had given her.

CPSI [redacted] asked mom and dad if they had any questions; whereas, they stated, no.

and dad inside. CPSI [redacted] greeted and introduced herself and DCS Intern [redacted] to mom and dad. Dad stated his name was [redacted] (DOB: [redacted]) and mom stated her name was [redacted] (DOB: [redacted]). CPSI [redacted] asked dad how to spell his name; whereas, dad was observed attempting to spell his first name and mom advised dad to take out his photo ID card. Dad stated he went by [redacted] and could spell his last name. Mom and dad reported residing at [redacted] TN [redacted] CPSI [redacted] asked mom about having any other children. Mom reported having a son, [redacted] who was currently staying with her father, [redacted] in Illinois.

CPSI [redacted] asked mom and dad about naming the newborn. Mom stated she was thinking and decided to name the newborn, [redacted] CPSI [redacted] asked mom and dad how long they lived in their current residence. According to dad, they had been staying in the trailer for the last year. Dad reported being disabled and receiving a check, on the first of the month, for $900.00. Mom reported being on disability and receiving a check, on the first of the month, for $900.00. Mom and dad both denied being prescribed any medication.

CPSI [redacted] asked mom and dad about their family. Dad reported his brother, [redacted] lived near [redacted], in town. Mom reported her mother, [redacted] lived in [redacted] TN. Mom further reported her sister, [redacted] lived in [redacted] TN with her three children and boyfriend. According to mom, she havent met her sisters boyfriend yet. CPSI [redacted] asked mom and dad for their contact number. Dad reported their number being [redacted].

CPSI [redacted] asked mom about her pregnancy. According to mom, she didnt know she was pregnant. CPSI [redacted] asked mom when was the last time she had been to a doctor. According to mom, she last been to a doctor when her son, [redacted] was born.

CPSI [redacted] asked mom and dad about smoking and drinking in the home. Dad reported he and mom vaped and would smoke cigarettes. Mom and dad denied using any drugs. Dad denied drinking alcohol. Mom reported she drinks alcohol and had drank alcohol on New Years.

CPSI [redacted] asked mom about what happened for the ambulance to come to their home. According to mom, she woke up this morning and had to use the bathroom. Mom reported she was hurting in her stomach. According to mom, she hollered for dad and he woke up, and then the baby came out in the toilet. Dad reported having heard mom fall in the bathroom and came in the bathroom. Mom stated she didnt hear the baby crying when asked by CPSI [redacted] Dad reported he got the baby out the toilet and tried to get it to breath. Mom reported she called 911. CPSI [redacted] asked mom about hurting in her stomach before this morning. According to mom, she had been hurting in her stomach for a few days.

CPSI [redacted] asked mom and dad why Mr. [redacted] had their son, [redacted] According to mom, it was because of her past. Mom stated, I drank too much and couldnt.. and mom was observed trying to think about what she was trying to say afterwards and rubbing her head. Mom reported she and dad dont see or talk to [redacted] According to mom, she havent called Mr. [redacted] Mom reported Mr. [redacted] wont answer and he was probably made at her because when she first had [redacted] he didnt want to be a grandfather.

CPSI [redacted] asked the family if they had any questions before she stepped outside the emergency room. Mom and dad stated they didnt have any questions. CPSI [redacted] advised mom and dad she would let the hospital staff know they have named their newborn and would check-in with the doctor.

CPSI [redacted] DCS Intern [redacted] and Lt. [redacted] went to speak with Dr. [redacted] at his space in the emergency room. CPSI [redacted] introduced herself and asked about baby [redacted] Dr. [redacted] reported the baby weighs around 3kg, approximately, with their measuring tool. Dr. [redacted] reported mom says she doesnt know when she had her last menstrual cycle, despite him asking her three different ways. Dr. [redacted] reported [redacted] looks full-term. CPSI [redacted] asked Dr. [redacted] about [redacted] s prognosis. According to Dr. [redacted] he had very poor prognosis as of now to live. Dr. [redacted] reported [redacted] was born at 10:04am (per the time 911 was called), EMS arrived to the home at 10:

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

09am, and CPR was continued at the hospital. According to Dr. [redacted] s pulse was bought back at 11am. Dr. [redacted] advised that for 56 minutes [redacted] didnt have a pulse. Dr. [redacted] reported that had [redacted] been born at the hospital, he would have a high prognosis of living. Dr. [redacted] reported [redacted] s umbilical cord was sent off and his current lab work presented to that when a person receives CPR. CPSI [redacted] thanked Dr. [redacted] for his time.

CPSI [redacted] observed [redacted] ambulance transport arriving in the emergency room and went outside [redacted] s room. [redacted] EMT was observed coming out [redacted] s room and stated they werent getting a blood pressure from [redacted] RN Stevie stated that as of 1:28pm, they werent getting a blood pressure from [redacted] CPSI [redacted] observed Dr. [redacted] speaking with [redacted] EMT. Dr. [redacted] stated he was going to speak with mom about alternative choices regarding [redacted] s care due to [redacted] not being able to transport [redacted] because of the poor prognosis he would make the trip to [redacted] TN. Dr. [redacted] was checking with [redacted] County General Hospital to see if they would take [redacted] or if mom wanted to relieve care with comfort care for [redacted]

CPSI [redacted] re-entered [redacted] s room, along with mom. Mom was permitted to hold [redacted] and CPSI [redacted] informed mom she would photograph the moment for moms keepsake and mom stated she would like that. CPSI [redacted] observed the nurses gently handing [redacted] to mom. The nurses were advised moms decision for comfort care. The nurses were observed placing [redacted] back into his bed, when mom stated she was okay. The nurses advised mom they were going to take [redacted] off the ventilator, that [redacted] would take breaths, and asked mom if she wanted to stay until end of care. Mom stated she didnt want to stay in the room, asked for tissue, and the nurses rolled mom out of the room. CPSI [redacted] and Lt. [redacted] observed [redacted] until end of care, and he was pronounced deceased at 2:33pm by Dr. [redacted]

CPSI [redacted] asked the nurses for a possible discharge time for mom. The nurses stated the ob-gyn, Dr. [redacted] with [redacted] Group, havent came around yet and typically after she sees patients they will discharge within the next day. The nurses reported [redacted] s umbilical cord could come back within a week. CPSI [redacted] thanked the nurses for their time and their caring for [redacted]

CPSI [redacted] spoke privately with Lt. [redacted] before departing the hospital. Lt. [redacted] advised CPSI [redacted] the familys home had no indication of drug use. Lt. [redacted] stated the familys home was observed unclean with no electricity or water. Lt. [redacted] informed CPSI [redacted] he had taken pictures and would provide to CPSI [redacted] CPSI [redacted] advised Lt. [redacted] she would be back, to give mom time, and speak with mom for releases.

1/25/2024 Thursday @ 11:11AM *Case: [redacted]

P1 intake received alleging Abuse Death (Severe). Referral states:

Unknown Child (newborn) lives with their mother, [redacted] (27), and their father, [redacted] (44), in [redacted] County. There is no one else living in the home.

On Thursday, [redacted], about two hours ago, the newborn was delivered at the home and then was very quickly rushed to [redacted] Community Hospital. [redacted] reported that [redacted] had been in the bathroom when he heard a thud and went into the bathroom at which time [redacted] was lying on the floor while the newborn was in the toilet not breathing. [redacted] pulled the newborn out of the toilet and called 911. Currently, the newborn is alive.

[redacted] and [redacted] do not possess a high level of intelligence, and neither can read or write; it is not believed that either is employed. The parents are friendly people. [redacted] did not know that she was pregnant. It is unknown if the newborn is male or female. The conditions in the home are not good and it is not believed that the home is livable for anybody. The home is not the cleanest and there is a lot of trash and things around. There is no electricity. [redacted] and [redacted] sleep on the floor.

E. Investigation Summary

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

[redacted] was observed at [redacted] Community Hospital on 1/25/24 by CPSI [redacted] was observed lying in an open incubator and ventilated, having multiple dried blood spots on his body, wearing only a diaper, and having a hospital baby beanie on his head. RN [redacted] RN [redacted] and RN [redacted] were present in the emergency room caring [redacted] The nurses advised [redacted] weighed 6lbs 14oz 20in. The nurses reported not being sure if he was full-term; however, they were waiting on the doctor to determine it. The nurses stated they were waiting on transport from [redacted] Children's Hospital.

Dr. [redacted] pronounced [redacted] deceased at 2:33pm.

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

[redacted] s autopsy examination revealed a normally developed male fetus with no gross congenital abnormalities. It stated that the cause of death is could not be determined, and manner of death could not be determined. Toxicology positive for methamphetamine, amphetamine, and morphine.

Per medical records review, mother reported infant was born at home in the commode; she did not know when her last menstrual cycle was or that she was pregnant, and no prenatal care received. This was her second pregnancy. EMS arrived and initiated CPR and infant was intubated on scene and transported to the hospital. At the hospital, the infant regained a pulse and was placed on the ventilator. [redacted] Hospital wanted to transfer the infant to higher level of care but [redacted] and [redacted] advised infant was too critical and prognosis too poor to transport. This was discussed with the mother, and she decided to withdraw life support. The infant was extubated, and death pronounced at 2:43pm.

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

[redacted] stated she woke up to use the bathroom, had been hurting in her stomach, hollered for [redacted] and the baby came out in the toilet. Ms. [redacted] reported she didn't know she was pregnant. Ms. [redacted] reported she didn't hear the baby crying when he came out. Ms. [redacted] reported she had been hurting in her stomach for a few days prior. Ms. [redacted] initially denied drug use; however, when presented with drug screen, taken on 1/25/24, being positive for methamphetamine and amphetamine she admitted to having used the previous night before [redacted] s birth.

[redacted] reported he heard Ms. [redacted] fall in the bathroom, went into the bathroom, and pulled the baby out of the toilet and tried to get it to breath. Mr. [redacted] said that Ms. [redacted] called 911.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

Unknown Child (newborn) lives with their mother, [redacted] (27), and their father, [redacted] (44), in [redacted] County. There is no one else living in the home.

On Thursday, 1/25/2024, about two hours ago, the newborn was delivered at the home and then was very quickly rushed to [redacted] Community Hospital. [redacted] reported that [redacted] had been in the bathroom when he heard a thud and went into the bathroom at which time [redacted] was lying on the floor while the newborn was in the toilet not breathing. [redacted] pulled the newborn out of the toilet and called 911. Currently, the newborn is alive.

[redacted] and [redacted] do not possess a high level of intelligence, and neither can read or write; it is not believed that either is employed. The parents are friendly people. [redacted] did not know that she was pregnant. It is unknown if the newborn is male or female. The conditions in the home are not good and it is not believed that the home is livable for anybody. The home is not the cleanest and there is a lot of trash and things around. There is no electricity. [redacted] and [redacted] sleep on the floor.

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

The family is at the hospital along with Lt [redacted] The newborn is in Emergency Room 1 while [redacted] is in Emergency Room 2. There is not a lot of information available because the family was rushed so quickly to the hospital. The Police Report number is Case # [redacted] and the Report ID is # [redacted]

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

[redacted] s autopsy examination revealed a normally developed male fetus with no gross congenital abnormalities. It stated that the cause of death is could not be determined, and manner of death could not be determined. Toxicology positive for methamphetamine, amphetamine, and morphine. Ms. [redacted] admission of using methamphetamine the previous night before [redacted] s birth. Mr. [redacted] s admission of using methamphetamine as well. [redacted] s umbilical cord positive for Amphetamine, Methamphetamine, Delta-9 Carboxy THC, Benzoylecgonine, and Cocaine.
