- Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care for the child; or
- Has a parent/caregiver that has current addiction issues that could adversely affect the childs physical, mental, or emotional functioning.

Severe forms of this allegation include but is not limited to:
- The manufacturing of methamphetamine where children are present, or in close proximity.

It can occur as part of an extreme one-time incident, (e.g. a parent frustrated about continual bed- wetting forces a six (6) year old to wear diapers in the neighborhood) but is usually chronic.
Lack of Supervision
Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:
a) The child has been placed in a situation that requires actions beyond the childs level of maturity, physical ability, and/or mental ability; or
b) Caregiver inadequately supervises a child. The caregiver is with the child, but is unable or unwilling to supervise (e. g., the caregiver is under the influence of alcohol or drugs, is depressed, sleeps during the day or has inadequate parenting knowledge or skills).

Based on the assessments, Ms. [redacted] recommendations for services are listed below:

[redacted] Outpatient therapy services (Guardian [redacted] requested that she wants to start with telehealth because she is currently staying home with all children while her husband works and it would be easiest for her) and Tennessee Healthlink services. [redacted] Outpatient therapy services (Guardian [redacted] requested that she wants to start with telehealth also) and Tennessee Healthlink services.

[redacted] Once his TennCare insurance is eligible again (it is currently expired) Tennessee Healthlink services. [redacted] reported that with his young age she doesn't think that he would be ready for outpatient therapy services at this time.

Based on [redacted] reports during their assessments Ms. [redacted] reported that [redacted] is the child who needs the services the most. Court held this date. Due to their incarceration, the parents appeared via Zoom. Both parents asked for attorneys at this time. The grandmother reported that she was not in agreement with the department asking for a Restraining Order/No Contact between her and the children.
