CM [redacted] presented this case to the [redacted] County Child Protective Investigation Team (CPIT) on July 16, 2024. Those in attendance were TL [redacted], ADA [redacted], CAC Director [redacted]. The team agreed there is a preponderance of evidence that supports the substantiation of Lack of Supervision. Per DCS Policy 14, Work Aid 1, Section G:

Child Death is defined as:

a) Any child death caused by abuse or neglect.

b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report.

c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another person's direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

Lack of Supervision is defined as:

Failure to provide adequate supervision, by a parent or other legal custodian/caretaker, who is able to do so. A lack of supervision allegation or determination means that:

a) The child has been placed in a situation that requires actions beyond the child's level of maturity, physical ability, and/or mental ability; or

C) Any registered sex offender residing in the home with unrelated minor children or victim of offender and/or caregiver knowingly resides with and/or allows children to be unsupervised with a registered sex offender.

c) Concerns that children in a congregate care facility were able to engage in sexual activity regardless of age of children and/or if initially reported as consensual,

should be assigned as lack of supervision in addition to the allegation of sexual abuse.
