The death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] Team Leader (TL) [redacted] Team Coordinator (TC) [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned in TFACTS on 5/6/24 concerning the death of ACV [redacted] (1yo). It was reported [redacted] resided with her birth mother [redacted] birth father [redacted] and two siblings [redacted] 4yo and [redacted] 5yo] in [redacted] County. Also involved in the incident is [redacted] maternal aunt [redacted] and the aunts girlfriend [redacted] The maternal aunt has four children [redacted] 5yo, [redacted] 8yo, [redacted] 10yo, and [redacted] 11yo] who were not involved at the time of the incident.

On 5/6/24 the aunt and her girlfriend went to visit the family at [redacted] home. Upon entering and driving up the inclined driveway, [redacted] was reportedly run over by the aunts vehicle. The aunt was driving and went to alert the mother who was inside the home. The aunt and mother drove [redacted] toward the hospital, stopping at unrelated vehicle accident on the way to flag down help from law enforcement on scene. [redacted] was rushed on to the hospital where pronounced deceased.

The mother reported earlier in the day she and the children left home to eat breakfast and run errands and had returned home approximately 10 minutes prior to the incident. The mother reported she was using the restroom when the aunt came in screaming she had hit [redacted] in the driveway. The mother stated she believed the 5yo sibling may have went outside to play leaving the door unlocked and ajar, allowing [redacted] to exit the home while she was in the bathroom. The mother stated she went out and got [redacted] and she and the aunt got in aunts car to head toward the hospital while the aunts girlfriend stayed with the siblings at the familys home.

The aunt reported she and her girlfriend went to visit the family as they had not seen them in a couple weeks. She reported driving up the inclined driveway and feeling a thud, believing she had driven over a toy, to discover [redacted] feet visible under the car when the girlfriend opened the door to check. The aunt stated she did not see [redacted] or any of the children outside as she was arriving at the home.

The father was at work at the time of the incident and the aunts children were not with her and her girlfriend while visiting the family. The mother and aunt were both drug screened and positive for THC. Both admitted to Delta 8 use but not while acting as caretakers for their children. Neither were reported to appear impaired at the time of the incident. The father refused consent for a drug screen and reported he had used cocaine, Delta 8, and alcohol over the weekend, but not while caring for the children or at the home. The father reportedly made threats against the aunt following the incident and threatened to kill her. The aunt was arrested and jailed for driving on a revoked license. The aunt reportedly left the scene when she and the mother stopped for help from first responders, but the aunt denied this stating she left to go to the hospital where [redacted] was being taken and it took time to find the correct location. The children and mother are currently staying with the paternal grandmother. IPAs were initiated as follows: No contact for the aunt with [redacted] siblings, and supervised contact with no overnights for her own children; Supervised visits with no overnights for the father and his children. The CPS team is in the process of reevaluating the IPA restrictions as the investigation continues and information is further processed. A companion CPS investigation was opened for the aunts children, who were recently placed back in her care in December 2023 by DCS following DEC concerns.

Next Steps:
-- CM will request ACVs birth and PCP, and incident EMS records. Records will be reviewed and uploaded to TFACTS.
-- CM will request all interviews and information/evidence collected by LE within their investigation and review, summarize, and upload what is shared to TFACTS.
-- CM will schedule FIs for both siblings.
-- CM will refer father for A&D and MH assessment.
-- CM will complete interviews and safety assessment of aunts children.
-- CM will follow-up on blood drawl results of aunt from LE.
-- CM will complete local background checks on all involved adults.
-- CM will document and upload autopsy into TFACTS once received.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.
