Describe the Perpetrator:
Native American Descent: No
Does the alleged perpetrator currently have access to the victims(s)?: Yes
Does the alleged perpetrator have a criminal record?: Unknown
Does the alleged perpetrator have prior involvement with DCS?: Yes
Contact: [redacted]
Contact Address [redacted] TN, [redacted]
Directions: Again, this was [redacted] most recent address- she reports now she is homeless staying with a friend in a camper somewhere in [redacted] TN
Employer Name:
Employer Address:
Employer Contact:

Incident County: [redacted]
Describe in detail what has happened to the child. What is the abuse or neglect?:
Ms. [redacted] presented to [redacted] Hospital in [redacted] TN where she delivered a baby. That baby whom she named [redacted] was delivered spontaneously, had a "visable low heart rate and agonal breaths". CPR and rescue breaths were performed and the baby died shortly after delivery. Ms. [redacted] had some prenatal care but the baby's exact gestational age is unknown, though estimated to be 20 weeks and 5 days. Our concern is that Ms. [redacted] admits to regular drug use- daily meth, THC and vape, and her urine drug screen was positive for amphetamine and cannabinoids. The baby's cord blood has been sent for testing but those results are not yet available. It is not clear if the baby's death was due to drug exposure or prematurity or other factors. Ms. [redacted] has decided to use [redacted] Funeral Homes ([redacted] TN). Our understanding is that Ms. [redacted] has had other spontaneous abortions, but has delivered two live babies previously, neither of which she has custody of now.

When did the abuse or neglect occur?:
In utero, baby delivered and died yesterday [redacted]

Does the child have any injuries from the abuse or neglect? If yes, please describe the injuries to the child.:
Not known

Does the child need medical care? Has the child received medical care? If so, where?:
Deceased [redacted]

Describe in detail how the child has been affected or harmed by the abuse or neglect.:
Not clear- but because it had a documented heart rate and breaths, felt we needed to report since mom's drug screen was positive on admission.

Are there any concerns for Domestic Violence in the home that pose a danger to the child¿s safety? If yes, please describe your concerns.:
None known

Has the child made a disclosure of the abuse or neglect? If yes, what did the child disclose? Who did the child tell?:
N/A

What do the child¿s parents/caregivers say about the abuse/neglect?:
Ms. [redacted] is forthcoming about her drug use and homelessness. She has requested information about grief support, but will continue living with her friend at this time.

Is anyone in the home protective of this child? If yes, who?:

Tennessee Department of Children's Services
Tennessee Child Abuse Hotline Summary

N/A

When will the alleged perpetrator have access to the child again? Is the child currently safe for the next 24 hours to 3 business days?:
N/A

Does the child have any special needs or disabilities? Please describe.:
N/A

Are there any concerns for the safety of a Department of Children¿s Services Case Manager responding to the child¿s home?:
None known

Intake Notation: Open case is not against this mother or ACV. ACV on open case is for the mother's other child. Per TFACTS history, mother has two other living children. Neither are in her current care/custody. [redacted] was adopted several years ago and [redacted] is currently with her father.
Screener Notation: Intake is being submitted for Abuse Death with DEC added per OCS EDs [redacted] and [redacted].

Investigation Track - P1 Child Death

Narrative Details

Narrative Type: Original Entry Date/Time: 01/02/2025 07:56 AM Entered By: [redacted]

On October 26, 2024, the Department of Childrens Services (DCS) received a referral for an allegation of Abuse Death and Drug Exposed Child regarding Alleged Child Victim (ACV) [redacted] (Newborn). The Alleged Perpetrator (AP) was the birth mother, [redacted] This investigation was assigned to Child Protective Services Case Manager (CM) [redacted] by Team Leader (TL) [redacted] This case was worked in conjunction with [redacted] Police Department ([redacted]PD) Officer, [redacted]

The birth mother, [redacted] was reported to be homeless, and she said she was staying with her boyfriend, [redacted] for 3 weeks prior to giving birth. [redacted] was born and passed away on [redacted] while in the hospital. [redacted] alleged father is [redacted] and he was in jail at the time of the referral.

On [redacted], the mother, [redacted] arrived at [redacted] Hospital (SSH) in [redacted] TN where she delivered [redacted] The baby was born spontaneously, had a low heart rate and was gasping for air. Medical Staff performed CPR and rescue breaths on the baby. The mother had prenatal care and admitted to marijuana and methamphetamine usage during pregnancy. The mother completed a urine drug screen, and the results were positive for cannabinoids and amphetamine. [redacted] cord blood was sent to the laboratory for drug testing, and the results were pending at the time of the referral. It is unknown if the baby passed away due to being premature at 21 weeks gestation or the mothers drug use. Approximately 22 minutes after birth at [redacted] Hospital (SSH), [redacted] was pronounced deceased at 2:38 PM on [redacted].

On October 28 and October 30, 2024, CM [redacted] interviewed [redacted] She reported that she had been released from the hospital, however she had been on suicide watch since her baby passed away She reported that she needed assistance with rehabilitation and had been to a facility on one occasion and would like to go back. CM [redacted] provided her with additional resources to get help with her substance use disorder. Ms. [redacted] also reported that she had been homeless but had stayed with her boyfriend for approximately 3 weeks prior to giving birth. She reported that she used methamphetamines while pregnant. She reported that after [redacted] passed away, she relapsed on Methamphetamines, marijuana and muscle relaxers. She reported that she has had a history of mental health issues and has sought help. She reported that [redacted] father is in jail at the time and has a history of drug use as well. Ms. [redacted]

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

[redacted] reported she has been inpatient for her substance use in the past and wants help again.

An autopsy was not performed on [redacted]

On November 27, 2024, CM [redacted] presented the case to the [redacted] County Child Protective Investigation Team (CPIT). Those in attendance: [redacted] - Child Advocacy Center (CAC); [redacted] - Department of Childrens Services Team Leader (DCS TL); [redacted] (DCS CM); [redacted] (DCS CM); [redacted] ([redacted] Police Detective); [redacted] (District Attorney); [redacted] (CAC); [redacted] (DCS CM); [redacted] (DCS TL); [redacted] (CAC); [redacted] (Juvenile Court); [redacted] (DCS CM); [redacted] (CAC); [redacted] CAC); [redacted] (DCS CM). The team agreed to classify the case as Allegation Substantiated, Perpetrator Substantiated for the allegation of Drug Exposed Child. They also agreed to classify the case as Allegation Unsubstantiated, Perpetrator Unsubstantiated for the allegation of Abuse Death.
Per DCS Policy 14, Work Aid 1, Sections B & G:

Drug Exposed Child is defined as:

This allegation pertains to a person under the age of eighteen (18) who:
Has been exposed to or experiencing withdrawal from use, sale, or manufacture of a drug or chemical. substance (including, but not limited to alcohol such as a diagnosis of Fetal Alcohol Syndrome, cannabis, hallucinogens, stimulants, sedatives, narcotics, methamphetamines, heroin, inhalants) that could adversely affect the childs physical, mental, or emotional functioning as a result of the actions or behaviors of the parent/caregiver; or
Has a parent/caregiver that uses drugs or chemical substances that impacts their ability to adequately care? for the child; or
Has a parent/caregiver that has current addiction issues that could adversely affect the childs physical, mental, or emotional functioning.

Drug Exposed Child (Severe) is defined as:

Severe forms of this allegation include but is not limited to:
; The manufacturing of methamphetamine where children are present, or in close proximity.
; Infants born with a diagnosis of Fetal Alcohol Spectrum Disorder (FASD).
; Infants born with a diagnosis of Neo-Natal Abstinence Syndrome (NAS) where the diagnosis is not based on the mothers prescribed and appropriately followed Medication-Assisted Treatment.
; Knowingly or with gross negligence allowing a child under eight (8) years of age to ingest an illegal substance or a controlled substance that results in the child testing positive on a drug screen, except as legally prescribed to the child; and/or
; Knowingly allowing a child to be within a structure where a Schedule I controlled substance under TCA 39-17-406, cocaine, methamphetamine and/or fentanyl are present and accessible by the child.

Child Death is defined as:

a) Any child death caused by abuse or neglect. b) Any unexplained death of a child when the cause of death is unknown or pending an autopsy report. c) Any child death caused by abuse or neglect resulting from the parent or legal custodian/caretaker failure to stop another persons direct action that resulted in the death of the child. Child deaths are always treated as severe abuse.

During the investigation, CM [redacted] met with Ms. [redacted] and attempted to assist her in getting treatment for her substance use disorder. She was homeless during the investigation. CM [redacted] also offered grief counseling to Ms.

Narrative Details

Narrative Type: Original Entry Date/Time: 11/27/2024 12:58 PM Entered By: [redacted]

Child Protective Investigative Team was held on November 27, 2024 via Zoom. CPIT convened per CPS policies #14.3 Section G # 6 as well as 14.6 and per local protocol for [redacted] County.

Those in attendance: [redacted] (CAC) ; [redacted] (DCS TL); [redacted] (DCS CM); [redacted] (DCS CM); [redacted] Police Detective) [redacted] (District Attorney) [redacted] (CAC); [redacted] (DCS CM); [redacted] (DCS TL); [redacted] (CAC); [redacted] (Juvenile Court); [redacted] ; [redacted] (DCS CM); [redacted] (CAC) [redacted] (CAC); [redacted] (DCS CM).

The case being presented is regarding the Alleged Child Victim [redacted] for Drug Exposed Child and Abuse Death allegations with the mother, [redacted] as the alleged perpetrator. [redacted] cord stat was cancelled on amphetamines and methamphetamines due to not having enough specimen to confirm the presumed positives. The cord stat was positive for THC, however. The mother admitted to two relapses on methamphetamine during pregnancy and regular THC use due to nausea. An autopsy was not completed on [redacted] and as a result, there is a lack of evidence to support the mother was the cause of the infants passing. It was estimated that [redacted] was around 21 weeks gestation at birth and was premature.

As a result, there is a lack of evidence to support any other classification decision than of Allegation Substantiated Perpetrator Substantiated (ASPS) for Drug Exposed Child & Allegation Unsubstantiated Perpetrator Unsubstantiated (AUPU) for Abuse Death. All voting members present were in agreement to classify the allegation as Allegation Substantiated Perpetrator Substantiated (ASPS) for Drug Exposed Child & Allegation Unsubstantiated Perpetrator Unsubstantiated (AUPU) for Abuse Death.

Child Protective Services Case Manager (CM) [redacted] spoke with Ms. [redacted] who indicated the mother was wanting to wait until she had the celebration of life for [redacted] whenever the father was released in December. Ms. [redacted] feared that the mother was at a high risk for returning to use and overdose. Ms. [redacted] said she strongly recommended the mother submit to a program sooner rather than later. CM called the mother and encouraged her to let Ms. [redacted] get her into a program, empathized wanting to do the celebration of life for [redacted] but it did not have to be around the fathers schedule. CM expressed fear for the mother returning to use with the father since he forced her to use during her pregnancy, and the mother could celebrate getting her life back and do the celebration of life sober with [redacted] when the time was right. The mother said she understood where CM was coming from, and she would see if she could get into a program sooner. CM thanked the mother and asked to be updated.

Child Protective Services Case Manager (CM) [redacted] spoke with the mother on this date. The mother was upset as she was really looking forward to going back to [redacted] as they helped her a lot last time, and she was afraid to go to a long term rehab as she has her 4 year old [redacted] to think about. CM encouraged the mother that maybe a different program would be best since she had done [redacted] before, and that [redacted] was being taken care of and would be able to work towards visitation with her at a facility. CM asked about including [redacted] a peer recovery specialist in planning. The mother agreed. CM called [redacted] and explained the mothers situation. Ms. [redacted] said she actually knew the mother, had gotten her into [redacted] a sober living facility, but the mother was kicked out due to lying about leaving for appointments and stealing. Ms. [redacted] said she would reach out to the mother. CM thanked Ms. [redacted] for her teaming. CM informed the mother Ms. [redacted] would be reaching out to set up services.

Child Protective Services Case Manager (CM) [redacted] spoke with [redacted] with [redacted] who is over the [redacted] on this date. Ms. [redacted] said that the mother was being recommended a higher level of care due to her needs, and she had already completed their program previously. Ms. [redacted] said they could make referrals for the mother and could potentially offer outpatient services at a later date, but they were recommending the mother complete a long term treatment program first. CM thanked Ms. [redacted] for the information.

Child Protective Services Case Manager (CM) [redacted] received a phone call from the mother on this date. The mother was frantic saying that she had been kicked out by her boyfriend as she wouldnt have sex with him while he was high on meth. The mother said he left her at the covered bridge in [redacted] with all of her belongings, and she had no where to go. CM called [redacted] shelter with the mother, but the mothers phone died. The [redacted] worker, [redacted] asked if this was really domestic violence or if the mother was just looking for somewhere to go. CM explained the mother was in a domestic relationship with her boyfriend. CM was able to call [redacted] back once the mother charged her phone; however, they did not have room at their shelter. CM called [redacted] in [redacted] nobody answered, but CM left a voicemail requesting a call back. CM called Salvation Army of [redacted] but they did not have room at their shelter. CM called [redacted] in [redacted] and while they did not have room in their shelter, they were able to get the mother a hotel for 3 nights at the Red Roof Inn in [redacted]

CM traveled to [redacted] to pick up the mother and her belongings, and CM transported her to the Red Roof Inn. The mother was unable to sit still in CMs car and was jerking. The mother said that before she called CM, she had called her foster brother who picked her up. The mother said she was talking to her brother about going to [redacted] program and was excited about it as they helped her greatly. The mother said her brother apparently hates [redacted], tried to convince her to go to [redacted] in Virginia, she refused, it started an argument, and he shot her up in the arm 3 times with methamphetamine in an attempt to sabotage her efforts at [redacted]. The mother showed CM her injured arm. CM observed raised up bumps on the mothers right forearm. CM said she would be following up with [redacted] in the morning to see her status at their [redacted]. CM purchased the mother a meal at McDonalds as she said she hadnt drank anything since 11 AM and got desperate enough to drink creek water. The mother said that she was glad CM arrived when she did as the old man who was near her when CM got there had just offered her $20 to "watch him cum", and she told him that she was married. The mother said that meth makes you hot, and she had gotten into the creek water to cool off. The mother said she hadnt shot up meth since 2019, and she wasnt sure how long she would be high for. The mother said she would call 911 and CM if she felt like she was overdosing or having any issues. Hotel Staff were concerned that the mother was going to start trouble based off her demeanor. The mother assured staff that she would not cause any issues and had stayed there previously. CM assisted the mother in getting into her hotel room with her belongings. CM will

Team Leader (TL) [redacted] conducted an initial administrative review of this case. The Department of Children Services (DCS) received a referral concerning allegations of a drug-exposed child (DEC) and Abuse Death. The case has been assigned to a Case Manager (CM) [redacted] The alleged child victim (ACV) is [redacted] and the alleged perpetrator (AP) is [redacted] was born at [redacted] TN and transferred to [redacted] Childrens Hospital in [redacted] TN. It is unknown if the death is related to prematurity or the mothers substance use.

The mother does have additional children but she does not have custody of them. The mother has an 8-year-old child that has been adopted and she has no current information on this child. The childs name was [redacted] before he was adopted. The mother was kidnapped and held hostage for 4 years and raped. [redacted] was a product of rape according to the mother and felt it was best for him to be adopted. The mothers other child is [redacted] age 4, and she is in the custody of who the mother says is her father, [redacted] Mr. [redacted] signed voluntary acknowledgement of paternity. The mother is not married, and the father, [redacted] of the infant, [redacted] is currently incarcerated in [redacted] County Jail. The charges of aggravated assault were dropped but remains in jail on past drug charges. The mother refused to smoke meth with him, and he put hands on her. There is currently not a birth certificate. The infant was born at [redacted] and they do not know the name of the baby; and [redacted] will not create a birth certificate because the infant was not born at that hospital. This information is according to what the mother has reported. The mother has been unable to receive a death certificate also. The family are United States (US) citizens.

Upon admission to the hospital, the mother was drug screened. The mother tested positive for amphetamines and cannabinoids. The mother did receive prenatal care. The cord results are pending. The mother admitted to using marijuana daily throughout her pregnancy and returned to use of meth twice. The mother returned to use after the infants father put hands on her and forced her to use meth with him. The second return to use was when the 4-year-olds father refused to allow the mother to see or speak to the child. The mother also returned to use after the infant passed away. The mother admitted she did not know how to process grief without being high. The mother was drug screened on 10/30/2024 and was positive for MDMA, Meth, Amphetamine, and THC. The mother stated she did not know what MDMA was, and CM explained that marijuana is sometimes laced with it. The mother has a history of significant trauma. The mother has a long history of abuse and being in multiple foster homes. The mother is willing to participate in services at [redacted]. The mother was successful with [redacted] before and lived at the [redacted] during that time. The mother has an intake

Case Status:	Close	Organization:	[redacted] Region

scheduled for 10/31/2024 at 2:00. The mother is currently homeless and living in a camper in [redacted]
The case does not meet the criteria for the Comprehensive Addiction and Recovery Act (CARA). This case will be presented to the Child Protective Investigation Team (CPIT) if the case meets criteria. The juvenile court and the District Attorney's office have been notified upon request. The Safety Assessment should be completed within 5 business days of the intake date and the FAST within 10 business days of the intake date.
The CM will obtain and review all medical records related to this case, conduct random drug screenings, and ensure the Non-Custodial Permanency Plan (NCPP)is completed if required. CM will have a consult with COE. Additional referrals will be made as needed throughout the investigation, and the TL will be informed of any new information. There is currently an open case with the mothers 4-year-old child with the alleged perpetrator being the paternal grandmother. Investigation ID [redacted]

The death investigation regarding Alleged Child Victim (ACV) [redacted] was debriefed with the following staff: Case Manager (CM) [redacted] Team Leader (TL) [redacted] Team Coordinator (TC) [redacted], CPS Director (CPSD) [redacted], and Director of Critical Incident Support (DCIS) [redacted].

The CPS investigation was assigned in TFACTS on 10/28/24 concerning the death of ACV [redacted] (1 day). It was reported the birth mother [redacted] is homeless but has been staying with a friend in camper in [redacted] with last known address in [redacted] The putative birth father [redacted] is incarcerated in [redacted] County. The mother has no other children in her custody or care.

On 10/25/24 the mother presented to the hospital where she spontaneously delivered [redacted] had a visible low heart rate and agonal breaths. CPR and rescue breaths were performed but were unsuccessful. [redacted] died shortly after delivery. Gestational age was believed to be approximately 20 weeks. The mother was drug screened and reportedly positive for amphetamine and cannabinoids. [redacted] cord screening results are pending. The mother reported some prenatal care and admitted to methamphetamine use twice during the pregnancy and smoking marijuana regularly. Confirmation of autopsy is pending.

There is a sibling [redacted] 4yo] who is in the custody of her birth father [redacted] There is currently an open CPS investigation regarding that household. The mother had been contacted within the open case as she was supposed to have every other weekend visitation, but she reports only seeing the 4yo twice this year due to limitations and interference from the father. It was unknown the mother was pregnant and she had stopped communicating with the CM in the open case. The mother additionally has an 8yo child that has been adopted. The mother reported an extensive trauma history understanding she needs help with her addiction issues. The mother reported she was not involved in services at the time of the incident. CM has submitted a referral to [redacted] on behalf of the mother and provided her with [redacted] and [redacted] information. CPS Team will discuss case transfer to FSS in the future for continued and long term support services for the mother. Supervised visitation with the 4yo sibling will be coordinated with the open case CM once mother has started services.

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

Next Steps:
-- CM will request ACVs birth records and mothers prenatal records. Records will be reviewed and uploaded to TFACTS.
-- CM will follow-up with hospital regarding ACVs cord screening results.
-- CM will complete hair follicle screening on the mother.
-- CM will consult with COE regarding services for the mother.
-- CM will follow-up with service recommendations and monitoring.
-- CM will continue efforts to help mother with resources for funeral services.
-- CM will reach out to open case CM to coordinate supervised visits for the mother once services have started.
-- CM will document and upload autopsy upon receipt if autopsy was completed.
-- CM will complete Closing FAST prior to case closure.
-- CM will present findings to the Child Protective Investigative Team (CPIT) for classification review.

Employee Assistance Program (EAP) information and supervisory support was discussed with involved staff.

Narrative Details

Narrative Type: Original Entry Date/Time: 11/06/2024 04:33 PM Entered By: [redacted]

Child Protective Services Case Manager (CM) [redacted] responded to the case of [redacted] who was born on [redacted] and passed away shortly after on [redacted] at the hospital. The referral was assigned on 10/28/24, and the case manager made contact at the [redacted] County DCS office with the mother on this date. The baby's parents are [redacted] and [redacted] and the household composition is unknown as the mother would only report that she was living with her current boyfriend in a camper at [redacted], [redacted] TN [redacted] and had been there for the past 3 weeks.

The mother reported that she has never been married.

In July, the mother discovered she was pregnant through a Home Pregnancy Test. She received prenatal care at [redacted] OB/GYN and had her first appointment in July at [redacted] Consultants in [redacted] TN. This was not a risk pregnancy, but the mother did experience complications as she reported that the amniotic sack around the baby was completely dry, had to be cut off, and the baby was breach. She had a spontaneous vaginal birth at 20 weeks. The mother does vape nicotine. The mother reports that [redacted] was born and five minutes later she passed away in her arms. The mother said she does not have a birth certificate or a death certificate. The mother said after [redacted] passed away, they transferred her and [redacted] body to [redacted] Medical Center for additional testing to be completed. The mother said that [redacted] MC said they couldnt do a birth nor a death certificate due to the child not being born nor dying there. The mother said that [redacted] where [redacted] was born and passed did not know her name in order to make the certificates. The mother said she had been trying to call [redacted] to find out what to do.

The caretaker reported that they do not drink alcohol anymore and hadnt since New Years.

The father did not attend the prenatal appointments as he is incarcerated currently in the [redacted] County Detention Center. The mother reports that the father put hands on her on 8/17/24 because she refused to get high on methamphetamine with him and essentially forced her to. The mother said this was the first time she had relapsed during pregnancy on meth. The mother said she relapsed again sometime around Mid-September due to her other childs father not letting her visit or

Tennessee Department of Children's Services

Case Recording Summary

Case Id:	[redacted]	Case Name:	[redacted]
Case Status:	Close	Organization:	[redacted] Region

have phone calls. The mother admitted that she does not know how to process grief without being high and uses drugs as a coping mechanism. The mother said she relapsed again whenever [redacted] passed away on meth, marijuana, and Flexeril, a muscle relaxer. The mother said she wants to work services and does not want to live like this anymore.

The mother was given a UDS at birth, and the results were positive for amphetamine and cannabinoids. The mother has a history of meth and THC. The mother said she smoked marijuana daily and sometimes Delta 8 products due to having so much nausea and no appetite during pregnancy. The mother's OBGYN was aware of the marijuana substance abuse. CM completed a urine drug screen on the mother, and she was positive for amphetamine, methamphetamine, MDMA, and THC on this date. The mother said she did not know what MDMA was and had not done that.

The mother's mental health history includes that she was on 10 different psychiatric medications prior to pregnancy, they took her off of all of them when she found out she was pregnant, 2 of them were for sleep, and she had slept maybe 1 time since leaving the hospital after [redacted] passed away. The mother reported that the hospital left [redacted] deceased body in the room with her on ice for 24 hours until the coroner picked up the body the next day. The mother said she was on suicide watch for 3 days after this. The mother said she was having terrible night terrors after the incident and thoughts that she should just go and join her daughter. CM sent the mother the [redacted] phone number that helps with substance abuse and mental health treatment immediately. CM put in a referral for [redacted] and reached out to [redacted] to have the referral expedited. CM also provided the mother with [redacted] domestic violence resources due to the interpersonal violence she endured with the father.

The father does have a history of substance abuse according to the mother. The mother reports the father uses methamphetamine, alcohol, cocaine, nerve pills, marijuana, and "pretty much anything he can get his hands on".

The fathers criminal history includes the mother reports the father has 13 total aggravated assault charges. The mother said that the father is incarcerated in [redacted] County jail on a violation of probation on a 9 year sentence for maintaining a dwelling with methamphetamine, a felony charge.

The mothers criminal history includes a felony conspiracy to sell a ½ gram of methamphetamine to a confidential informant that she was on state probation for 3 years over and a simple possession charge for having 3.5 grams of meth on her. The mother said she is able to use her diversion for her charges, but she has to pay for it.

The mother reported that she has had traumatic events in her life. The mother reports she was in foster care from the ages of 3 to 18 where she was abused in various foster homes, was in 67 different foster homes across 14 states. The mother reports back in 2012 she was kidnapped and held hostage for 4 years, was raped, had a child that was a product of that rape, and she made the decision to have that child adopted out.

There is reported domestic violence in the boyfriends home. The mother said she doesnt say anything though as she is just waiting to find somewhere else to go. The mother is currently unemployed, and the father is currently unemployed due to incarceration. The mother said when she told the father that [redacted] had passed away, he only cared about her putting money on his books at the jail. The mother receives TN Care, WIC, and Food Stamps. The mother utilizes Net Trans for transportation.

The mother stated she is allergic to buprenorphine and cannot do Medication Assisted Treatment as a result. The mother said she tried the Vivitrol shot when she was pregnant with her now 4-year-old, [redacted] and it caused her to have 12 seizures and she had to be induced. The mother reported she overdosed in February of 2024 on fentanyl laced marijuana. The mother said she had completed [redacted] once before and [redacted] program twice before. The mother said she was doing really well with [redacted] previously, stayed in their [redacted], and she hoped she could go back there. The mother said the camper she was currently living in had no access to water and was infested with spiders. The mother said she was supposed to see a gastroenterologist and a neurologist, [redacted] OBGYN was supposed to make

referrals, but she hadnt heard anything. The mother said that she had hepatitis C and cirrhosis of the liver.

CM [redacted] gave the mother the Client's Rights Handbook, MRS Guidelines, HIPAA Information, Notification of Equal Access and Grievance Procedures Form, Release of Information Forms, and the Native American Veto Verification Form (as required by policy). Although the family is not Native American, the necessary forms were still signed and dated by the client. These forms will be uploaded into TFACTS under documentation.

CM [redacted] will continue to monitor the case and provide support to the family.

Team Leader (TL) [redacted] has reviewed and approved this case for closure. The Department of Children Services (DCS) received a referral on 10/26/2024 with allegations of Drug Exposed Child (DEC) and Abuse Death (ABD). The mother's urine drug screen was positive for amphetamine and THC upon admission. The baby's cord stat was positive for THC. The cord stat did not test for methamphetamine or amphetamine due to being cancelled. The mother admitted to substance use during her pregnancy. The infant was born around 21 weeks gestation and passed away shortly after birth. An autopsy was not completed. Case Manager (CM) [redacted] attempted to assist the mother with getting in to treatment and grief counseling. A home visit was unable to be completed as the mother was homeless and staying with a friend. This case was presented to the Child Protective Investigative Team. The allegations have been classified as Allegation Substantiated/Perpetrator Substantiated (ASPS) for DEC and Allegation Unsubstantiated/ Perpetrator Unsubstantiated (AUPU) for ABD. The court and DA will be notified by request.

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

A. Investigation

Case Name: [redacted]

Investigation ID: [redacted]

Referral Date: 10/26/2024

Assignment Date: 10/28/2024

Street Adress: [redacted]

City/State/Zip: [redacted] Tennessee [redacted]

B. Allegation

#	Children's Name	DOB	Specific Allegation for Each	Alleged Perpetrator's Name	DOB	Classification	Severe Abuse / CSEM	Classified By / Classified
1	[redacted]	[redacted]	Drug Exposed Child	[redacted]	[redacted], 12:00 AM	Allegation Substantiated / Perpetrator Substantiated	Yes	[redacted] 12/26/2024
2	[redacted]	[redacted]	Abuse Death	[redacted]	[redacted] 12:00 AM	Allegation Unsubstantiated / Perpetrator Unsubstantiated	Yes	[redacted] 12/26/2024

C. Disposition Decision

Disposition Decision: Assessed and Closed

Comments: On 10/26/24 @ 10:52 AM, a P1 was screened into [redacted] County with allegations of Drug Exposed Child (DEC) and Abuse Death (ABD). The case was moved jurisdictions to [redacted] County as that's where the mother was residing for 3 weeks prior to delivery. The Alleged Child Victim was [redacted] age newborn. The Alleged Perpetrator was [redacted] Case was assigned to Case Manager (CM) [redacted] on 10/28/24 @ 12:12 pm by the Regional Tree Reader (RTR) [redacted]. CM was notified via email. CM notified the DA's office and Juvenile Court per protocol. The case will be submitted for closure to Team Leader (TL) [redacted] The allegations have been classified as ASPS for DEC and AUPU for ABD.

D. Case Workers

Case Worker: [redacted] Date: 12/26/2024

Team Leader: [redacted] Date: 12/26/2024

E. Investigation Summary

Instruction: Condense the finding rationale for each allegation relative to the child victim(s). Be sure to identify the facts that provided for the classification decision.

Summarize the key points and dates of the child or children's statements and/or the observation of the child or children's physical state or home environment:

The child was born and died shortly thereafter at [redacted] Hospital on [redacted]. The child was not observed as the case manager does not have to observe the deceased ACV (Alleged Child Victim) per policy. The mother's home was not observed as she reported she was homeless and staying with a friend in [redacted] TN, and she did not allow CM to complete a home visit at her friend's house.

Department of Children's Services

Child Protective Service Investigation Summary and Classification Decision of Child Abuse/Neglect Referral

Case Name : [redacted] **Investigation ID:** [redacted]

Summarize professional, medical or psychological findings or opinions: What is the collateral's oral or written finding/opinion of the incident(s)/allegation(s)?

During the investigation, CM [redacted] met with Ms. [redacted] and attempted to assist her in getting treatment for her substance use disorder. She was homeless during the investigation. CM [redacted] also offered grief counseling to Ms. [redacted]

An autopsy was not performed on [redacted]

Summarize alleged perpetrator's statement or admission: What is the perpetrator's explanation of the incident(s)/allegation(s)?

[redacted] cord stat was cancelled on amphetamines and methamphetamines due to not having enough specimen to confirm the presumed positives. The cord stat was positive for THC, however. The mother admitted to two relapses on methamphetamine during pregnancy and regular THC use due to nausea. An autopsy was not completed on [redacted] and as a result, there is a lack of evidence to support the mother was the cause of the infant's passing. It was estimated that [redacted] was around 21 weeks gestation at birth and was premature.

Summarize witnesses' descriptions of what they saw and what they believe indicates child abuse/neglect:

Concerns were reported due to the mother testing positive for amphetamines and cannabinoids upon admission to the hospital, the mother admitted to using THC and meth during pregnancy, did not have prenatal care, and the infant passed away shortly after birth.

Per the protocol for working with hospitals, Child Protective Services Case Manager (CM) [redacted] spoke with [redacted] Medical Center Social Worker, [redacted] on this date for an update on the case.

Summarize any other evidence or factors that support the investigative finding(s) for the allegation(s) of abuse/neglect:

TFACTS History: Previous cases have been documented in the opening summary of this case.

All records will be uploaded into the document section of the family case.

The 740 will be forwarded to the appropriate designee's per protocol by Case Manager (CM) [redacted]

THE FAMILY TOGETHER

This section focuses on the family system. The first step is to define who makes up the family. Generally it is a household but sometimes two households in which the children spend considerable amounts of time could be considered (e.g. divorced parents with 50:50 visitation).

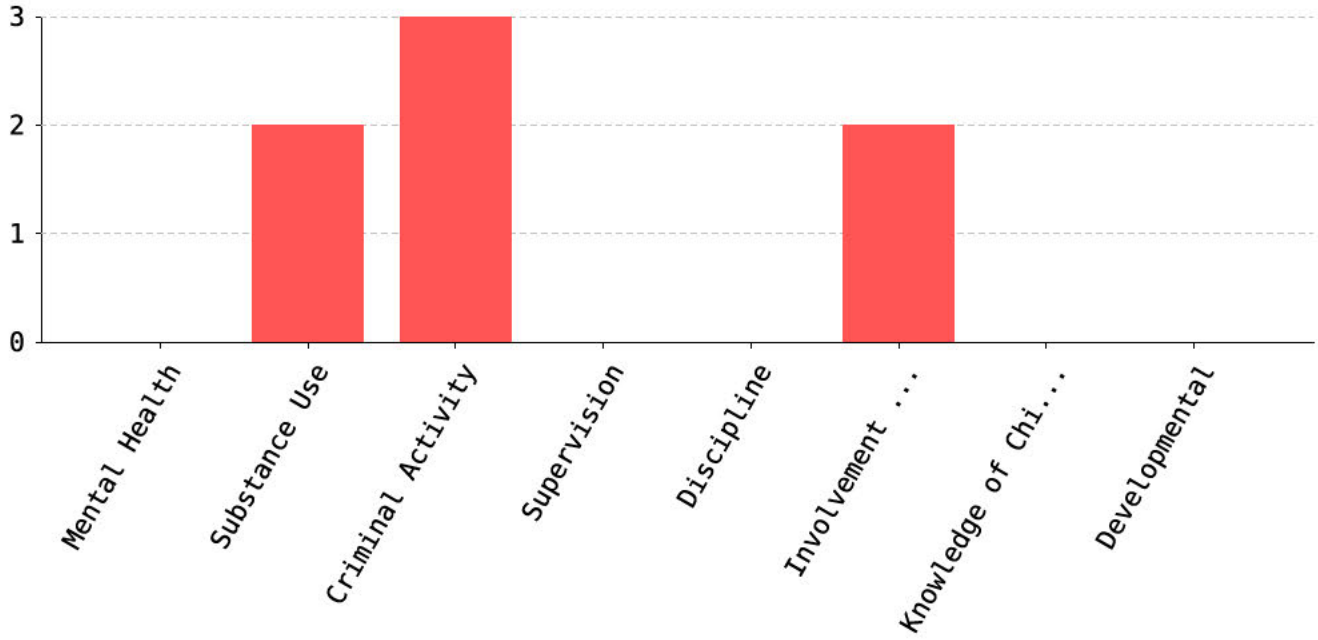

Item	Score	Justification/Narrative
Physical Condition of Home	2	The mother reports the camper she is currently staying at with a friend because she is homeless, does not have running water. She also reports there are several spiders, and she's killed several black widows and brown recluses. The mother showed CM a scab on her face she said was from a spider bite.
Home Maintenance	0	
Family Conflict	2	The mother reports on 8/17/24 [redacted] father, [redacted] [redacted] became upset with her because she refused to get high on methamphetamine with him, "put hands on her", and made her use methamphetamine with him. The mother reports this is the second charge of aggravated assault from Mr. [redacted] against her; however, he has 13 total aggravated assault charges.
